

LOCAL

All advertisements must be handed in by Tuesday of every week, in order to be inserted in the issue of that week.

Let every reader of the RECORD try to get his neighbor to subscribe, and thus help to extend its circulation.

"The Beautiful Snow."

This section has been visited by two storms in the past few days, one on the 13th, and the other on the 16th. Fortunately the storm each time was of short duration, and the snow not more than an inch deep on the ground. This winter has been unusually severe and the weather inclement.

Marriage Licenses.

We are informed by our popular Register of Deeds, Capt. L. R. Exline, that during the month of January he issued 18 marriage licenses, of which 15 were to whites and 3 to negroes. Business in this line is rather dull just now, and the market drooping, with but little hope of a revival in the spring.

Election in Johnston.

The citizens of Johnston county voted last week upon the question of the removal of their county-seat from Smithfield to Selma, and the removal was defeated by an overwhelming majority. This is the second election held on this question in the last six years, and with the same result each time.

A Lady Bank President.

Mr. John G. Williams, who recently died in Raleigh, was the President of the State National Bank and owner of a large majority of the stock. According to the terms of his will his widow has been duly elected President of the Bank. This is the first instance in this State of a lady occupying so responsible a financial office.

From Raleigh to Hamlet.

The RECORD is the only newspaper published anywhere in that extensive section of the State lying between Raleigh and Hamlet, and as it circulates throughout this vast territory, having subscribers at nearly every station on the R & A. L. R. E., it affords the best medium of advertising. Let the business men of Raleigh and Fayetteville advertise in the RECORD then, if they desire the trade of that section.

Ill-kept Distillers.

For the honor of our good old county we are pleased to learn that the "Moonshiners," who recently fired upon a party of Revenue officers in this county, were not from Chatham but from Randolph. We hear also that a party of these "Moonshiners," in Randolph, went to the stable of a Mr. Pugh, and shot two of his horses. It seems that Pugh had been an illicit distiller himself, but stopped operations, and informed his neighbors who were stilling, and piloted the officers to their stills, which were all destroyed. It was in revenge for this that they shot Pugh's horses, and will shoot him if they get a good chance.

The Meanest Man.

Men are mean in different ways, and there are different kinds of mean men, but we think the meanest man can show his meanness in the meanest way by being too stingy to pay for a newspaper and wearing out his neighbor's paper before he can read it himself, and then finds fault with the Editor! And yet there are such men in this county. Would you believe it, kind reader? One of our subscribers is a Post-Master, who informs us that he can seldom get a chance to read his copy of the RECORD, because so many of the neighbors borrow it "just for a minute," instead of subscribing for it themselves. Again, we know of one or two Post-Masters who read their neighbors' paper instead of themselves subscribing. Now this is all wrong. Let each man subscribe for his own paper, and let his wife and children read and enjoy it with him.

The Insane Asylum.

We have read with pleasure the "Statement of the Affairs of the Insane Asylum" made by Dr. Garrison to the Legislative Committee on the Asylum. From it we learn that during the past year the admissions numbered 320 patients, and the daily average in the Asylum was 278. The percentage of cures upon admissions was 23 1/2 per cent, and including the much improved, 50 per cent, and this despite the fact that the average duration of the disease before the admission of those received was 31-2 years. The death rate has been the most favorable of all the Asylums in the United States, with only one exception. All this must be very gratifying to those who have friends or relatives confined in this institution. The average cost of maintenance in all Asylums in the United States for each patient is \$290.65 a year, while in this institution it is \$238.48. This includes every expense, the most costly of which is for salaries and wages of persons employed to take care of the patients. The average amount of provisions consumed by each patient is about 16 cents a day. This is quite low, when we remember that lunatics require nourishment and food of a better quality than sane persons. On the whole we think the "Statement" makes a very fair showing and reflects credit upon the management of this important institution, and its accomplished Superintendent.

Maj. Englehard Dead.

Maj. Joseph A. Englehard, Secretary of State of North Carolina, died at Raleigh on the 15th inst, at the 47th year of his age. The death of this gentleman will carry sorrow to the hearts of a large circle of warm friends. He was a brave and gallant officer in the Confederate Army, a journalist of superior ability and probably without an equal in the State, an orator of impassioned eloquence, and a polished, courteous gentleman. In the election of 1876 he received the highest number of votes cast in this State for any candidate. The appointment of his successor is vested in the Governor, who will doubtless be over-run with applicants for the place.

Proceedings of the Legislature.

[Condensed from the Observer.] HOUSE—Wednesday, Feb. 12. The bill to extend the Raleigh & Augusta Air Line from any point on its line to Charlotte. An amendment was offered by Mr. Henderson, that the road shall not take up its track to Hamlet. Mr. Forard offered an amendment that the same rates of freight shall be given to places on the line of the road and to ports in this State as are given to those in another. To the amendment of Mr. Henderson, Mr. Cobb offered one that the road be required to run daily trains except on Sunday. Adopted. Mr. Henderson's amendment was then also adopted. Mr. Richardson, of Columbus, moved to amend by providing that the amendment of Mr. Forard shall apply to all railroads alike. The amendment was adopted by a vote of 98 to 2.

County Roads.

A prominent farmer of Granville county in a recent letter to the Raleigh News has written to commend the consideration of our Legislature: "I believe the people are more earnest and united in their opinions on the public road system than any of those having questions. The sentiment is that the present system is ruinously unjust and unfair to a great majority of those who now actually perform this work. Call the roads themselves—they stand as the best witnesses to condemn it—all the overseers and ask what they think of it—call the men who wish to lay lands and settle up the country and ask what they think of it—call the commercial travelers, who carry out and create impressions of our State—ask what they think of it. Our country governments are improving and generally in good hands. County Commissioners by employing our criminals and levying a small tax in addition could secure a good and competent force, equipped with road implements and do this work at not less than one-half its present cost, and rid our people of this burden, shame and nuisance as it now is. It would not be necessary to cut and work every road under the new system at once, but to select one road in each East and West through the county the first year, North a South next, etc. The labor of one man with good and proper tools would be worth not less than ten times that of one with tools such as we now have. All the tax to be paid in money or labor. Never permit an uneducated and employed labor to be worked in company. I have only touched upon these headings but have already written too much. I must add, however, that unless the same care be exercised and the bill passed it will be a great disappointment."

State News.

The life of the late John G. Williams, of Raleigh, was insured for \$50,000. E. R. Stamps, Esq., has been chosen Chairman of the Board of Penitentiary Directors. The U. S. Senate have passed the House Bill forbidding Chinese immigration to this country, and it is thought the President will sign it. This will put a stop to the "Heathen Chinese" competing with American labor. Since 1861 tobacco has paid the Government, in direct taxes, not less than five hundred millions of dollars. The present tax of 24 cents per pound on manufactured tobacco is about three times the price of tobacco itself.—Observer.

The Pleasant Hill Temperance Society.

It has been nearly half a century since the organization of the Pleasant Hill Temperance Society. A book containing the minutes of its meetings, and the list of names who have signed the pledge has been kept for forty six years. Some time prior to this a number of the leading citizens in this vicinity from the counties of Chatham, Alamance and Randolph met and drew up the Pledge in those words—"We, whose names are fixed to this agreement, severally and jointly promise that we will not in any case use ardent spirits ourselves, or procure or furnish it for others as an article of entertainment." The minutes for the year 1832 show that Hiram Vestal was President of the Society that year. For 1833 John Long, Jr. was President, Hiram Vestal Vice-President and Jeremiah Vestal Secy. These are the first officers of the Society whose names have been preserved. Other philanthropic pioneers in this good work were Wm. Albright, Benjamin Way, Martin Staley, John Stafford and other leading farmers and mechanics. I. Han Cox was then youth signed the Pledge. His zeal and faithful labors have been and are still being crowned with success in spreading the cause into other places as well as increasing the membership at Pleasant Hill. The annual meeting of the Society is still held at Pleasant Hill Church, on the 4th of July, and the semi-annual meeting at Cane Creek Church on Christmas day. For many years it has been the habit of the Society to hold meetings at different churches 8 or 10 miles around on Sabbath evenings, after religious services, and lectures on Temperance. Many have signed the pledge at these meetings and a number of Societies have sprung from seed sown in this way. It would be hard to tell the precise amount of good resulting from this movement of those worthy veterans; but many can tell that a beneficial effect has been and is still being spread for many miles around Pleasant Hill. We think over 2,000 names are enrolled who have signed, and perhaps there are now about 1,000 living members. Many have gone West. A number of reformed topers have died sober men. A few names have been erased for having violated the pledge. The present officers are Wm. A. Duncan President, W. A. Lineberry Vice-President, J. C. Griffin Secy.

Married.

By W. O. Kirkman, Esq., at the residence of Mrs. Nancy Stout, the bride's mother, Mr. James Roach to Miss Mary J. Stout.
