we beg leave to differ, for we carary see how the prolibition bill makes
any discrimination against his section
of the State. The people are allowed to make their fruit into can make their grapes into wine
but the latter cannot make their grapes into brandy. Braiaky cannot
be made from grapes in the east or from fruit in the west, but in both
sections they can make wine and cider, and there is no
against either section.
POLITICS AND PRab IBI-
TION.
Prohibition has no comnection what
erer with politics, and every attempt
to connect politics with prclibition
should be frowned down.
tempt has recently been m
duce the executive committee of th
republican party of this State pose prohibition and make it a roliti
cal issuue, but we are pleased to know that the attempt was not successful.
Mr. Cooper, who has been running probably the largest whiskey distil
lery in the State and has for many years been estensively engaged in the
manufacture of whiskey, was the chairman of that committee, and of courss
ing prohibilition. He interested in doped defent if his committee would declare agains
prohibition, the masses of the repu') lican party would be influenced by
their action and vote against prohi Bition at the August election. H
therefore held a meeting of the com mittee in Raleigh, a few days ngo but the committee decided by a vote
of sis to thre eor of sis to thrce xor to oppose prodi-
bition. So that noither political for or against prohibition, but every
republican and every democrat can vote for or agnainst prohibition with out sacrificing any political principl
whatever. This certainly was th case in the Legislaturs that passe
the prohibitory bill. chairman of the prohibition comunit
tee in the Senate was a democrat and the chairman of the same committe
in the House was a republican. On the final passage of the bill in th
Legislature both democrats and re publicans voted for it. In the Senat
twenty-two democrats and four pullicans voted for it, and seven
deniocrats and tbree republicans vote against it : and in the House fifty
four democrats and sisteen republi four democrats and sisteen republi
cans voted for the bill, while three re publicans and three democrats vote
against it. Only one colored merbe of the Legislature voted against the
bill!

| PEDESTRIAN CONTEST: <br> New York has had another pedes trian contest, the wimer in which made the unprecedented distance of five hundred and seventy-6ight miles in six days. It seems incredible that any hmman being could travel five hundred and seventy-eight miles in six days, and yet there is no doubt of this having been done last week by Vint, a shoemaker in Brooklyn. He has gone ahead of all former records, and is now the champion pedestrian of the world. <br> The Midland Railway. <br> (Raltigh Farmer and Mechanic.) <br> The arrival of Mr. Wm. J. In spite of the influence of the Administration, and the general support given it, there is a very stroug undereurrent of sympathy for Mc . : onkling, not only among Republicans but even among the opponeuts of that party. Democrats bave never had any very high regard for Conkling, and especially vone for some of his characteristies, and on the few occasions when he might have won their respect and almiration ho has practically failed; yet they almit his atility and give him some credit for the impulse to do right once in a while, whaterer the motive. In the electoral madide of 1876-77 he nudonbtedly at one time purposed a ravolt arainst the Lonisiana iniqnity which defranded Mr. Tilden of the Presidency; but this proved to be one of the oceasions on which he failed to come up to the greatness that had been expected of him. One of our city papers last week published the statistics of the Morgne, from which it appears that there are about five thousand bodies carried to it every year to await identification, many of which are buried in paieper graves. The article reforred to says: "The great feeder of the Morgue <br> "The great feeder of the Morgue bition, dire want, cruel neglect, but drunkenness. Eight cases ont of ten, said the keeper, can be attribated to that as the indirect cause." <br> Four-fifths of all these miserable deaths are to be traced to the dramshops, of which we have abont ton thousand in full blast, and the offi- cers of the law will seareely raise a fiuger to shat up the il'egal shol $s$ or to restrain the illegal manufacture of And yet this is but a drop in the ocena of misery which comes fron this source.
