ability of the President's recovery, committee for an expression. as the latest telegrams state that his physicians are now quite hopeful, although he has made a wonderful escape, as it was at first thought that he would speedily die.

#### REPUBLICANS ON PROHI-BITION.

' The most prominent and influential Republicans of the State have severely denounced the action of the four members of their State Executive Committee who attempted to drag Prohibition into politics and array their party against that measure. Several have published letters, from which we will copy extracts to show their views about the matter.

Judge Reade, who was a Republican Judge of our Supreme Court, says in his letter:

has nothing to do with politics, and Cannady, Cooper and Mott." cannot be made to have. It is as influence as religion itself. Any one

trict Judge, says: pledged the Republican party against prohibition. What right had they to support? do it? No right whatever. The constitution of the Republican party is plain against the usurped authority of those men, and if the Republican party cannot exist and succeed without strapping to its wheels anti prohibition, then let it perish."

Hon. J. W. Albertson, late a Judge District Attorney at Raleigh, says:

"I think it to be a matter which addresses the conscience of the individual, and with which no political organization may meddle. I hope that no such attempt will be made."

Hon. David A. Jenkins, who was twice elected State Treasurer by the Republicans, says:

of the State, and should meet the dis- as to keep pace with the latter work. just the same as ever."

approbation of every true Republican in the State. If this power be admitted in any case it would seem most unreasonable under the present circumstances of the case, inasmuch as a large majority, if not all of the committee, with the exception of the two poor colored men on it, are either holding federal offices or are seeking the same. Under these cir-We are pleased to learn that the cumstances it would appear graceful, stockholders of the Atlantic and and especially desirable, that the party should be left to act freely without forcing upon it a measure which it

#### Intemperance the Cause of Crime.

The opponents of Prohibition contend that, if the liquor tax is removed by the adoption of Prohibition, the tax on property must be increas ed: but on the contrary the prohibitionists claim that the taxes will be decreased, because there will be less need for taxes. They claim that a large part of the taxes goes towards paying the costs incurred by intemperance, such as court costs, jail fees, &c. The opinions of our Judges on this point are entitled to great weight, and therefore we copy from a communication in the News and several of our Judges;

Judge Schenck says, "I was at the bar from 1857 to 1874, and had a generally and of Chatham particularly Hon. W. A. Smith, who was elec- large practice on the crimical side of are so much interested.
