

LOCAL RECORDS.

Be sure to read the notices of land sales.

Mrs. Jackson will re-open her drawing and oil-painting school on Thursday, the 1st day of September.

Mr. James S. Manning will resume the exercises of the Pittsboro Academy on the first Monday in October.

Job Printing of all kinds executed at the Record office as neatly and as cheap as anywhere in the State. Will fill all orders for paper, envelopes, cards, invitations &c.

Different things very often go down about the same time; the Court House is down and goods are certainly down at Bynum & Headen's store, particularly Straw Hats and Ladies Dress Goods. Call and get a bargain.

Dry weather still continues and you can still find goods cheap at London's. We would advise his customers to buy what Cotton Goods they will need at once. Cotton is going up and will be higher yet and of course Goods will follow. You can find at London's a large lot of Bleached and Unbleached Shirtings, Sheetings, Hamburg Edgings, Laces, Irish Trimmings, &c., very cheap.

If you wish to get a bargain call and see what you can do at London's, he is offering extraordinary discounts this week for cash. A large stock of Goods he is offering very cheap: some of them less than cost for cash, to make room for fall goods. You can buy a Muslin or Lawn Dress now very low, Muslin for 10 cents per yard sold at 15 a week ago. Summer Clothing almost at your own prices.

Now is the time to get a bargain in Newport Ties and Slippers at Shaw & Harris'. They have a lot to close out at cost. Gents' Clothing at greatly reduced prices. A few plain and Lace Bunting also at a sacrifice. You will need these goods next summer and you will save money by buying them now. They are making preparations for their Fall and Winter stock and wish to have as few summer goods left in their shelves as possible.

A Precocious Pullet. Mrs. Margaret Crutchfield, of Hickory Mountain township, has a very precocious pullet. It was hatched on the 10th of April and began laying eggs before the 10th of this month.

A Sad Coincidence. Two years ago Mr. James M. Nicholson, of Halifax, who at that time was a student at the University, spent the Christmas holidays here with his two fellow students, Messrs. John M. and James S. Manning, and in the month of August following he was accidentally drowned. Last Christmas another student of the University—Mr. Frank E. Hines, of Edenton—spent the holidays here with the Messrs. Manning, and now comes the sad intelligence that he too has been drowned. A sad coincidence!

Curious Corn. Mr. Franklin Segroves, of Oakland township, has sent us a freak of nature in the shape of forty small ears of corn, or nibbins, all on the same stem, and without any shuck on them. In the centre of the group is one ear of nearly the ordinary size and all around it are these numerous nibbins. They did not grow at the top of the stalk, but about where an ear usually grows. It is such a curiosity that we will send it to the State Fair and the Atlanta Exposition.

Journalistic. We are pleased to hear that Mr. John B. Hussey has become the editor and proprietor of the Greensboro Patriot. He is a journalist of several years experience, and under his management this veteran paper will become one of the best in the State. We wish him much success. That entertaining monthly, "At Home and Abroad," is continuing to grow in popular favor, and with the last number completes its first volume. We congratulate its editors upon the deserved success that has rewarded their efforts, and we also congratulate the people of North Carolina upon having so excellent a periodical published in their State. By all means sustain it.

The Drought. The drought is a grievous calamity to the people of Chatham, and will cause much suffering. Our oldest citizens say that they have never known so severe a drought in this country. In the year 1845 there was an unusual drought, but it was not equal to the one that is afflicting us now. The beds of many of the smaller streams are as dry and dusty as the roads, and in the large streams (such as Deep, Haw, and Rocky rivers) the water barely runs in many places, and it is with much difficulty that the mills can grind. Of course the crops are well-nigh ruined, especially the corn-crop, and this is particularly unfortunate this year because the wheat crop was below the average yield. In the year 1845 the wheat crop was unusually good, and although corn was scarce, there was no suffering as the farmers fed their hogs and horses with wheat, but this year there was little wheat and there will be still less corn. In addition to this year's farmers have this year bought large quantities of fertilizers, and they will raise hardly enough cotton to pay for them. The outlook is indeed discouraging.

Dried Fruit. There is usually a large quantity of dried fruit shipped from this country, but this year there will be a great falling off on account of the failure of the fruit crop. Our dried fruit is nearly all sun-dried, but recently some of our more enterprising farmers have bought patented fruit-dryers, that dry the fruit much better, and the fruit thus dried sells at much higher prices. We have received from Mr. Isaac H. Clegg, of this county, some splendid specimens of fruit dried in a fruit-dryer recently purchased by him. No doubt these patented dryers will soon be generally used.

Burning Bricks. Quite a number of our citizens, especially the young folks, went last night to the brick-yard, about half a mile from town, where bricks are being made for the new court-house, to see one of the kilns burning. They had begun to burn this kiln, containing 165,000 bricks, on last Monday so that by last night the flames were darting through all the crevices, bursting through the top and all the mass aglow with the heat, presenting quite a striking and picturesque scene, the lurid flames casting fantastic shadows on the surrounding forest, illuminating the darkness of the night, and the weird-like figures of the laborers throwing fuel into the "eyes" of the kiln, all combining to make one think of the regions below.

A Scriptural Enigma. A correspondent sends the Record the following enigma: "1. What did Adam want when he was put in the garden of Eden to make his happiness perfect? 2. What kind of meat did Isaac send Esau after that he might eat and bless him before he died? 3. Who slew his brother? 4. What woman carried her child to the Lord and said 'I lent him to the Lord as long as he liveth he shall be lent to the Lord'? 5. What was her husband's name? 6. In what book will you find words, 'Remember now thy Creator in the days of thy youth'? 7. In what book will you find Elijah fed by the ravens and by a widow?"

The initials of the answer form the name of our Sunday school superintendent at Hickory Mountain Baptist Church.

Personal. We have had the pleasure of meeting this week, Dr. W. H. Moore, who is here visiting relatives. He is the Superintendent of the Insane Asylum near Goldsboro, and has proven to be a most efficient officer. From him we learned something about the condition of Dave Williams, the crazy negro from this county whose murderous assault upon Mr. T. W. Gattis created such excitement here, a few years ago. He says that for six months in the year Dave seems quite sane and rational, and works on the farm (connected with the Asylum) just like any other laborer, but during the other half of the year he is a violent, raving maniac, is closely confined and carefully guarded.

Statesville Landmark: In Gwaltny township, Alexander county, Messrs. W. G. Bennett and Wm. Lackey were standing in the door of Mr. Bennett's store when a flash of lightning struck the horse-block in front of the door. It shattered the block and knocked Mr. Bennett back into the store and Mr. Lackey out into the road, shocking both considerably but inflicting no serious injury upon either.

Fayetteville Examiner: The Cape Fear River for some time past has been extremely low at this point. Persons are now crossing on horse-back and in vehicles at the old ford a few hundred yards below the Clarendon Bridge. This low stage of water has been reached frequently in the past. We have heard old citizens speak of fording the River at Campbellton seventy-five years ago, and it has been done probably from time to time, since the earliest settlement of this section of country.

Reidsville Times: The late Matt Mills, of this county once went to Danville to buy a sack of salt. The merchant told him to hold on, he'd have it put on his wagon. Mr. Mills said never mind, he'd do it himself. The merchant laughed and told him he'd give him all the sacks he'd put on himself. The salt was in the cellar, and Mr. Mills went down, took a sack under each arm, and one by his teeth, put them on his wagon and drove off with three sacks of salt.

Alamance Gleaner: On the afternoon of last Monday during a protracted meeting at Mt. Zion church in this county, a bloody affray occurred, in which Alton, William and Wesley Clapp and Bing Smith were the participants. Stones, knives and guns were the weapons used. Alton Clapp cut a gash nearly two inches long on Smith's head with a knife. Smith rushed into church during preaching covered with blood, looking for a magistrate, and caused great excitement and consternation among the ladies. Our informant says that whiskey was the cause of the fight.

Enfield Sentinel: We learn that a darkey discovered a huge black snake under his house one day last week, and arming himself with a stick boldly went under to drive the reptile out. But the snake seemed to enjoy his cool, shady quarters and refused to go. The darkey struck at its head, missed it of course, and the snake made for him. The darkey vacated in quick order, but the snake had taken a firm hold into his coat-tail, and as he ran around the house yelling murder! his wife and children rushed out just in time to see a large black snake drop down from his coat tail and quietly glide away, while the darkey almost frantic continued to run, vainly endeavoring to throw his coat off.

Sheep Husbandry. BEAUMONT, N. C., Aug. 20, 1881. EDITOR RECORD: Southern farmers succeed in raising sheep on cotton seed. Wool and mutton command fair prices: cotton seed do not. North Carolina has sheep-walks that would graze millions of sheep, and sheep-owners would act wisely to unite and employ shepherds. Fortunes are accumulated at this in parts of the United States.

The grasses of the South are as good, as plentiful and as nutritious as the grasses in the North; and they will afford good grazing for at least six months in the year, therefore sheep will pay more money for the trouble than any kind of stock, if proper care is taken. The cost of handling sheep is insignificant: one quart of cotton seed a day, with pasture, is ample.

Mr. J. H. Moore, of Arkansas, says: "sheep are like a United States good; you can clip off a coupon twice each year and still have the bond left. One of the greatest benefits of raising is, that you can always have cheap, healthy meat to give the family, and I believe that more mutton and less bacon will improve the health of any family. Nice broiled mutton-chops for breakfast is a dish good enough for any one."

From all this we conclude that we can raise stock to profit—hogs, cattle, sheep, mules and horses—and improve our lands. Peavines turned under are independent of fertilizer. If we would become independent we must reform in stock-raising, produce our necessities, suppress the liquor traffic, cease puffing ten-cent cigars, cultivate the mind as well as the soil, and have retirement in something besides brains.

State News. News and Observer: A short time since Mr. James C. Cunningham, sheriff of Guilford county, died after a brief illness, leaving a widow and five young children. Fortunately, he was insured in the North Carolina State Life Insurance company, of this city, for \$5,000, which amount was promptly paid on the 16th inst. by that excellent and reliable company.

Wilmington Review: The rice-birds made their appearance in the ricefields about this city on Saturday, the 20th inst., according to a long-established custom among these little epicurean tidbits. What surprises us is, that they do not on some occasions come either a day ahead or a day after. How do they know which day is the 20th of August?

Durham Recorder: The Artesian well on Saturday had reached the depth of 1310 feet. The sedimentary strata now all passed and the auger is in the plutonic formation. The debris brought up is a coarse grit green and gray, and very hard. Additions have been made to the working apparatus to provide for a depth of work not originally contemplated. The length of rope is now two thousand feet. No indication of water yet.

Statesville Landmark: In Gwaltny township, Alexander county, Messrs. W. G. Bennett and Wm. Lackey were standing in the door of Mr. Bennett's store when a flash of lightning struck the horse-block in front of the door. It shattered the block and knocked Mr. Bennett back into the store and Mr. Lackey out into the road, shocking both considerably but inflicting no serious injury upon either.

Weldon News: Work on the Scotland Neck Railroad is progressing rapidly. One hundred and thirty hands are employed on the part between Halifax and Tillery's store, and the work is done from each end; about a quarter of a mile of iron is laid, and one stiff grade at Halifax is cut through. It is hoped that the road will be completed in time to move at least a part of the next crop. On account of the building of the road, property in Scotland Neck is said to have increased remarkably in value.

Reidsville Times: On last Wednesday while the camp-meeting was going on at Fair Grove, Mr. Wm. Green, of Banaja sent Geo. Waggoner, an orphan lad aged 14 employed with him, to Mrs. Nancy Parrish's about a half mile off, to get something. He intended George to walk, but the boy rode the mule, and the mule threw him, his foot hanging to the reins and the reins hung to a stump on the road, the boy's head had hit a rock and the rock was driven into his skull. Dr. Denny probed for it and it took five strong men to hold the boy while the probing was going on. He died the next morning.

A correspondent of the Anson Times says: "I spent some time with the good and hospitable people of Iredell and Rowan, where the stock law prevails, and I was particularly inquired of those I met to know their opinions of the operations of the stock law, and they were unanimous in favor of it, all classes and colors. Some said they had rather pay fifty dollars tax to keep up the public fence than go back to the old system of their lands. Their lands and stock have improved a great deal since the law has been in operation."

Laurinburg Enterprise: Reliable gentlemen have told us that in the northwestern part of this county there is a white female child 15 months old, which weighs 173 pounds, and that there lives on the premises of Mr. E. H. Russell, near Spring Hill, in this county, a negro woman 60 years old, who has a number of children as black as negroes generally appear, and who was herself as black as the blackest one until her children were all grown, but who is now as white as any white man or woman in this county. The change in her complexion from black to white has been gradual.

Is it Possible. That a remedy made of such common, simple plants as Hops, Buchu, Mandrakes, Dandelion, &c., make so many and such marvelous and wonderful cures as Hop Bitters do? It must be, for when old and young, rich and poor, Pastor and Doctor, Lawyer and Editor, all testify to having been cured by them, we must believe and doubt no longer.—Post.

IN MEMORIAM. At a meeting of the Rock Hill (S. C.) Lodge of Knights of Honor, No. 1406, held August 18, 1881, the following Preamble and Resolutions were adopted:

WHEREAS, The Dictator of the Universe in his all-wise providence has removed from our midst by death our esteemed young brother, FREDERICK L. HARRINGTON, a member of this Lodge, and, WHEREAS, he had endeared himself to us as a true Knight of Honor, displaying zeal and fidelity, becoming our noble orator, and while his untimely death shrouds our hearts in gloom, and calls us to be ready for a similar summons which will come sooner or later from the great Dictator, that we bow in humble submission to the Divine behest, and cherish the hope that what seems a loss to us is his eternal gain, the gain of an immortal and blissful life in the Lodge above. Therefore, be it

Resolved, That in the death of our brother this Lodge has lost one of its zeal and devoted members, the community in which he resided a vigorous and enterprising citizen, and his family a valuable member.

Resolved, That we tender to his young and sorrowing wife and his family our unaffected heartfelt sympathies.

Resolved, That this preamble and resolutions be spread upon the minutes of this Lodge, and that a page of our journal be dedicated to his memory by inscribing thereon his name, date of birth, initiation into this order, and death.

Resolved, That the Reporter of this Lodge be requested to forward a copy of these resolutions to the family of our deceased brother.

Resolved, That this Lodge be suitably draped in mourning for thirty days in honor of his memory.

Resolved, That a copy of these resolutions be furnished the Rock Hill Herald, CHATHAM RECORD and Winston Leader with a request to publish the same. FRED. H. LONDON, ALLEN JONES, Reporters.
