### Mt. Pisgah Church.

The congregation of Mt. Pisgah church, in the northeastern portion of this county, have nearly completed their new church edifice, which is one of the neatest country churches to be seen anywhere, and raflects much credit upon the liberality and piety of the congregation. The building is 40 feet wide and 68 feet long, is neatly painted, has nice windowshutters, and looks quite like a city J D Griffin, for guarding jail for 15 church. It is to be hoped that other nights, congregations may soon follow this J good example. It certainly does not J look right for the members of any congregation to build fine houses for D themselves and have an old barn-like building for the Lord's house.
