

LOCAL RECORDS.

A Sewing Machine, new and first-class, for sale cheap. Apply at Record office.

Go to Bynum & Headen's for Apple and Peach Peckers, Georgia Stocks and Double-Shovel Plows on hand.

Bargains! Bargains! Bynum & Headen have on hand a few first-class Sewing Machines which they will sell very low for cash, or close out. Also, Dress Goods at reduced prices.

We call attention to the advertisement of the University of North Carolina in this issue. The authorities of this venerable institution are laboring to place it alongside the best in the land. Parents and guardians are invited to examine its claims.

Among the many bargains London is now offering are 300 men and boys sample hats. He is offering them for below New York cost for cash; they were bought very low and must be sold at once; if you need a hat now is the time. Just received a lot of the most improved Peach and Apple Peckers. Remember your Gumbo you used on your wheat must be paid for by 1st of August, 1882.

Shaw & Harris are now preparing for their Fall stock and in order to make room will sell their entire stock of Summer goods at reduced prices for Cash or Barter. They will take Wheat or Oats in exchange for goods or in payment of accounts. All persons indebted to them by note or open account will please come for ward and settle.

Magistrates meet on Monday next to elect commissioners. You must be sure to call at London's and see some of the bargains he is offering. During the month of August he will offer extra inducements in all kinds of goods for cash. He is determined to reduce his stock to the very smallest amount possible this month, as he will take stock on the 1st Sept. A hint to the wise is sufficient.

Attention is directed to the advertisement of R. S. Tucker, surviving partner, who announces that in consequence of a contemplated change in the business, the entire stock of W. H. & R. S. Tucker will be closed out during the fall. Merchants as well as families needing goods in that line will consult their interest by availing themselves of this opportunity to purchase at low figures. The proposed change in the business necessitates closing out the stock on hand, and bargains will be offered to suit customers. There is a full line of goods on hand and the business is to be closed up as soon as possible.

A Twin Snail-Bean.—Mr. John Q. Smith, of Matthews township, has left at the Record office a twin snail-bean, being the first that we ever saw.

MARRIAGE LICENSES.—Our young folks seem to have quit marrying. During last month there were only five marriage licenses issued in this county—a smaller number than during any other month this year.

GOOD FARMING.—Mr. I. H. Stranglin, of Hickory Mountain township, raised this year 102 bushels of oats on one acre. His entire crop of oats amounted to nearly 1200 bushels. He also made 403 bushels of wheat, all with two horses.

A PRECIOUS CHICKEN.—Mr. Richard Webster, of this township, has the most precious chicken that we have ever heard of. It was hatched on the 1st day of last April and in three months and a half, that is, on the 15th of July, it began laying and has laid an egg every day since.

TALL CORN.—Mr. M. C. Williamson, of this township, informs us that he planted some corn on the 8th of June, and now the stalks measure nearly ten feet high. There is no telling how much taller they will grow as they have not yet begun to tassle.

AN OLD PAPER.—With its last issue the Salisbury Watchman completed the fiftieth year of its existence. There are very few newspapers in the United States that have survived half a century, and we congratulate our venerable contemporary upon the increasing prosperity that attends its old age. May we celebrate its centennial!

A SURGICAL OPERATION.—On last Monday a most wonderful surgical operation was performed in this county by Doctors Budd, Laster, Key, Manning and H. T. Chapin. It was the successful removal of a five-pound fibroid tumor of the uterus with all its appendages from the body of a daughter of Mr. Oram Williams. This is said to be the only successful operation of the kind that has ever been known in this State, and reflects much credit upon the skill of the operating physicians.

A WET SPELL.—All last summer this section suffered from an unprecedented drought, and another drought was feared during the first few weeks of this summer, but now there is complaint of too much rain. It has been raining every day this week, and on Tuesday afternoon there was the heaviest fall of rain that has almost ever been known here. It then rained so hard that in an hour's time Robertson's creek (in the edge of town) became impassable and our streets were sheets of water.

SENATORIAL CONVENTION.—As here before announced by us, the democratic convention of this Senatorial district will be held at Jesse S. Henley's on Friday the 11th inst. We have already published the names of the delegates from this county, and we would now urge upon them the importance of attending the convention. It is generally understood that Alliance will yield the Senator to Chatham, so that upon the delegates from this county will depend the responsibility of the nomination. Wherever two counties compete one Senatorial district it is customary for their conventions to allow the delegates of that county from which the candidate is to be rejected to nominate him and the delegates of the other county merely ratify that nomination.

MAGISTRATES' MEETING.—The magistrates of the county will meet here next Monday for the purpose of levying the taxes for the ensuing year and electing county commissioners and a county superintendent of public instruction. It is, therefore, a very important meeting and we hope there will be full attendance. Every magistrate ought to bear in mind that he is a sworn officer, and in casting his vote, on next Monday, he should not be influenced by his personal prejudices or partialities, but by a desire to promote the interests of the people of the county. In view of the fact that the republicans so bitterly oppose the present system of county government, our magistrates should be especially careful when they elect, so that their action may not give strength to this opposition.

CHATHAM POST OFFICES.—It may be of some interest to the citizens of Chatham to know the names of all the post offices in their county. We therefore, copy them from the last issue of the Southern Democrat, as follows: Bear Creek, Belmont, Bellevue, Bynum, Cane Creek, Egypt Depot, Elm Grove, Georgia, Fall Creek, Giff, Gray Springs, Gosport, Gulf, Haywood, Kilmartin, Lenoirville, Leewood, Lenoirville, Merry Oaks, Monroeville, Monticello, Mill Pond, Mt. Vernon Springs, Ogeechie, Peckers Hill, Peoples Mill, Pittsboro, Proville, Providence, Ruffs, Ruffs Cross, Sandy Grove, Summit Grove, Snyper, Tys's Mill, Williams Mill—a total of 33 offices. There is only one county in the State that has as many, and that is Randolph, which has 48 post offices.

PLEASANT ENTERTAINMENTS.—Two public entertainments were given last week at the court house for the enjoyment of the teachers who were attending the Institute, that were greatly enjoyed. On Thursday night Rev. W. S. Lacy entertained a large number with his collection of readings. At one time he would recite to the hearers with laughter, and at another would move them to tears. At the conclusion of his readings Miss Louisa Melver, of Moore county, kindly consented to favor the audience with a recitation, that evinced a high degree of proficiency in elocution and was received with great applause. On Friday night the entertainment consisted of recitations by Miss M. Ford, Denson and Dutton, a Cantata written by Miss Kate Hawks, and songs by Miss Lila Dutton and Mr. John W. Hanks, choros songs by a number of our young folks, while a fine solo the boys band would play their soul stirring airs. The occasion was much enjoyed, and will long be remembered by all who were so fortunate as to be present.

A HOME-ONE.—On last Tuesday Henry Oakley killed W. N. Cassidy near Ferrington's mill in this county. They were white men from "Norse" county, employed by Mr. John W. A. water in the cultivation of tobacco. No person witnessed the homicide, and all that is known about it was told by Oakley. He stated that they met near Mr. Atwater's residence, and after exchanging a few words, began to quarrel and he stabbed Cassidy twice, who immediately fell, and he at once went to the house and told Mr. Atwater what had occurred, who hastened to the place but found Cassidy already dead. Mr. Atwater at once arrested and tied Oakley, and sent for justice Pearson and deputy sheriff Knight, who arriving in a short time a preliminary trial was held and the prisoner brought here that night and confined in jail to await his trial at the next term of our superior court. The deceased left a wife and three children, and the prisoner is a single man, about nineteen years old. The sad event created much excitement in the neighborhood of its occurrence, and it is the first homicide that has occurred in this county since the murder of Mr. John A. Johnson in 1866—sixteen years ago.

The Teachers' Institute.

The Teachers' Institute closed on Saturday after a week's session, and is conceded by all to have been a complete success. Everybody seemed to enjoy it—teachers, spectators and all—and its end was approached with regret. The citizens of this place contributed all within their power to make the stay of our visitors pleasant, and the teachers manifested a proper appreciation of their duties. The educational interests of our county have been greatly benefited, and the teachers will prosecute their good work with renewed zeal and increased information. In our last issue we referred to the lectures delivered on the first four days of the week. On Friday Capt. C. B. Denson lectured on "The March of Science in a century," which was one of the most learned, instructive and eloquent lectures that we have ever heard. On Saturday, the State superintendent of public instruction delivered a most earnest, practical and interesting address upon

the importance of education. The delivery of this address by him in every county of the State would do much good. Before the adjournment on Saturday the following resolutions were unanimously adopted: Resolved, That the sincere thanks of the Chatham County Teachers' Institute be returned to the citizens of the town of Pittsboro for their kindness, courtesy and generous hospitality by which they have contributed largely to the pleasure of our session; and to the teachers and patrons who, by their faithful presence and cheerful co-operation, have added so much to our enjoyment, and made the institute a success. Resolved, That we, the members of this Institute do highly approve and heartily endorse the course of Rev. P. R. Law, our very efficient county superintendent of public instruction, in his zealous efforts to promote the interests of the public schools, and tender to him our hearty thanks for his uniform kindness, attention and able efforts, which have been so conducive to the success of the Institute. And Resolved, That a copy of these resolutions be furnished the Record for publication. The "Teachers' Association" held its annual meeting on Saturday and perfected their organization by the adoption of a constitution and by-laws and the election of the following vice-presidents: Messrs. T. B. Laster, James L. Tress and L. E. Cole. The next meeting will be held at Lovell's creek, in Matthews township, on the second Saturday in November.

Wilmington Review. We learn that three little boys, while in bathing at Green's mill pond a few days ago, were attacked by a large alligator. The boys saw the monster swimming towards them and swam to a bathing tub, into which they climbed for safety. The gator kept playing around the tub and tried to capsize it, but was snared from the shore by some one who was luckily at hand.

Raybourn News: Young Mr. Lang, the son of Dick Lang, who lives at Mr. Billings' farm, was taken from his home near Mt. Ferris last Wednesday, and killed on the way. He was riding a saddle that was under the wing, and the saddle fell from his back and the horse reared up and fell backwards on his rider, crushing his head and face horribly.

Newborn Journal: Mr. J. I. Rhein weighed on the city scale yesterday evening a fine milk cow and heifer of the Breughel and Short horned Durham stock. The cow is eight years old, weighs 1300 pounds and gives seven gallons of milk per day. The heifer is four years old, with some Alderney blood, weighed 1200 pounds and has yielded four gallons of milk per day.

Abundance Gleaner: Prof. Alexander Melzer has purchased a one half interest in the mill race and canal of land, which includes the lowest land, belonging to Col. W. J. Long, of Randolph county. We understand Col. Long will move to Hintonville. Last Friday, on the premises of Moses R. Smith, a negro man and horse plowing were killed senseless by a stroke of lightning. When the negro man recovered sufficiently to get up he started off in an opposite direction from the house at a terrific quick pace, not knowing what he was about. The horse lay prostrate on the ground for some time, and was revived by having cold water dashed on him. It came near being fatal with both man and horse.

A Constitutional Question.

New Hope Township, August 1st, 1882. Editor Record: In your issue of the 26th ult., it appears that the Code Commission have completed their work and have suggested to the next General Assembly the propriety of certain amendments to the public laws, one of which is to forbid the officers of the Peace holding the office of County Commissioner. How about the constitutionality of such a law? I wish to call your attention to two Sections of Article II of the State Constitution which read as follows: Section 1. Every voter, except as hereinafter provided, shall be eligible to office; but before entering upon the discharge of the duties of his office he shall take and subscribe the following oath, &c. Section 5. The following classes of persons shall be disqualified for office: First, all persons who shall deny the being of Almighty God. Second, all persons who shall have been convicted of treason, perjury, or of any other infamous crime since becoming citizens of the United States, or of corruption or mal practice in office, unless such person shall have been legally restored to the rights of citizenship. Also see Section 7, Article II, which reads thus: "No person, who shall hold any office or place of trust or profit under the United States, or any Department thereof, or under this State, or under any other State, or government, shall hold or exercise any other office or place of trust or profit under the authority of this State, or be eligible to a seat in either House of the General Assembly; Provided, That nothing herein contained shall extend to officers in the militia, justices of the peace, commissioners for special purposes."

Now, Mr. Editor, it does seem to me that Justices of the Peace have much right guaranteed to them to hold office under the Constitution as a necessary class of officers. Therefore, an Act of the General Assembly passed expressly to disqualify a certain class of good citizens from holding office would certainly in my judgment be unconstitutional. Would the democratic party assume the responsibility of passing an Act to amend the Constitution for such a purpose? I think not. J. D.

State News.

Prison Home: A little colored girl, aged about ten years, jumped in the well at Mr. W. R. Carter's, about five miles west of this place, on Monday evening last, and was drowned.

Winston Sentinel: A negro house servant at G. W. Hineshaw's fell from the second story window of his house one day last week. Fortunately she fell on her head and sustained no serious injuries.

Lenoir Topics: The village of Boone, in Watlings, is perhaps the most elevated village in the United States east of the Mississippi. It is 3,342 feet above tide water, and is 1,000 feet higher than Asheville and the summit of Mounts.

Montgomery Star: We saw a sweet potato of this year's growth this week, produced by C. C. Wade, which weighed 12 pounds.—That terrible scourge, typhoid fever, is said to be raging furiously in the southern part of Randolph, near the Montgomery line.

Smithfield Herald: Mr. Jonas Lee, of Meadow Township, this county, planted one peck of wheat and reaped eleven and a half bushels from it the past season.—Mr. E. J. Holt, of Boon Hill Township, says that there is a white lady in his township, 51 years old, has six grand children, she weighs 91 pounds, and can outstrip a cord of wood in a day.

Hillsboro Observer: The building for Bingham school near Mebaneville are about completed. The energy displayed by Major Bingham and Charles White, esp. in rebuilding is a marvel of energy for our country. Less than three months ago a devastating fire swept every building of the Bingham school, and since that time a large part of the timber has been cut in the woods, sawed and seasoned.

Wilmington Review. We learn that three little boys, while in bathing at Green's mill pond a few days ago, were attacked by a large alligator. The boys saw the monster swimming towards them and swam to a bathing tub, into which they climbed for safety. The gator kept playing around the tub and tried to capsize it, but was snared from the shore by some one who was luckily at hand.

Raybourn News: Young Mr. Lang, the son of Dick Lang, who lives at Mr. Billings' farm, was taken from his home near Mt. Ferris last Wednesday, and killed on the way. He was riding a saddle that was under the wing, and the saddle fell from his back and the horse reared up and fell backwards on his rider, crushing his head and face horribly.

Newborn Journal: Mr. J. I. Rhein weighed on the city scale yesterday evening a fine milk cow and heifer of the Breughel and Short horned Durham stock. The cow is eight years old, weighs 1300 pounds and gives seven gallons of milk per day. The heifer is four years old, with some Alderney blood, weighed 1200 pounds and has yielded four gallons of milk per day.

Abundance Gleaner: Prof. Alexander Melzer has purchased a one half interest in the mill race and canal of land, which includes the lowest land, belonging to Col. W. J. Long, of Randolph county. We understand Col. Long will move to Hintonville. Last Friday, on the premises of Moses R. Smith, a negro man and horse plowing were killed senseless by a stroke of lightning. When the negro man recovered sufficiently to get up he started off in an opposite direction from the house at a terrific quick pace, not knowing what he was about. The horse lay prostrate on the ground for some time, and was revived by having cold water dashed on him. It came near being fatal with both man and horse.

News and Observer: A very exciting incident occurred last Friday at Morehead. Mrs. Hayward and Miss Marchant, proprietors of the bath-house, bathing in a swim Miss Marchant again beyond her depth, became panic-stricken and sank. Dr. R. B. Hayward was standing on the bridge and seeing that not a second could be lost, mounted the railing of the bridge and plunged into the water. He soon reached the lady, but being encumbered with books and clothes found great difficulty in reaching the steps with his charge, but finally got her out. The well-known clothing firm of R. B. Andrews & Co., one of the oldest in the city and State, have made an assignment. The difficulty arose from the fact that owing to the tightness of the times it was found impossible to make collections to meet pressing obligations. The preferred creditors amount to something over \$80,000.

Payette's Reminder: Recorran, have raised the Cape Fear river, and there is abundant water for navigating over all the shoals. On Sunday about noon George Grainger and Charles Sitman, two colored men got into a culchery over a game of cards, which resulted in Grainger's getting badly gashed by Sitman's cutting with a razor.—Dr. J. W. McNeil exhibited to us a few days ago a pair of spectacles, being a piece of a leg which fell into a water some thirty years ago in the lower portion of the county and was covered into a sort of wax which was known by the name given above. The grain of the wax well preserved and also a law of the spectacles.—Tom Dake, a respectable colored butcher of this town, has maintained his position under the Market House as a dealer in beef for half a century. His commencement on the 29th, July, 1842, and still complete his fifty years day after tomorrow. For 40 years he has been a member of the A. S. L. M. F. M., performing a most able yearly, the duties of a drummer.

Greensboro Patriot: One of the most horrible murders on record is reported to have occurred at Rose Hill, Robeson county, last Saturday. William Robertson, a young farmer, allowed himself to be persuaded to join a crowd of spearing fiends, and after they had a whole day's debauch he returned home. His wife, to whom he had not been long married, was sitting by the window knitting her husband's socks. The sight of her infuriated him, and packing up an axe by the window he deliberately waded up to the unfortunate woman, who had been a devoted wife to him, and with a brutal exultation sent the keen of the ax into her skull. She fell dead without a groan.—We have been shown a cabbage containing a cluster of fifty one small heads, ranging in size from a pigeon egg to a goose egg, the cluster, minus the large leaves, weighing between four and five pounds.—The post office at Colfax, Guilford county, was destroyed by fire Monday night about 6 o'clock. There had been no fire about the office for months, and the conclusion is that for the way of incendiary origin. The loss is about \$300. Three registered letters had been removed from the office the evening before.

Goldsboro Messenger: John R. Overman, Sr., brought a load of watermelons to town on Saturday which surpassed in size any we have ever seen, and which probably has the five watermelons of this county. Forty of the melons averaged forty-five pounds each.—Edman Webb, a wealthy and influential citizen of Edgecombe county was found dead in the woods on his farm last Thursday. He started out that morning to find some stock that had strayed, and not returning at dinner, search was made for him, it is supposed he died from heart disease.—The announcement through the Messenger that Mr. Jarvis would address the people of Wayne and the surrounding county at Seven Springs on Saturday

last, brought together the largest and most enthusiastic gathering ever witnessed in that section. The presence of the Governor had attracted people from the adjacent counties and the citizens of the White Hall section had turned out in force. The crowd in attendance was variously estimated at from 3,000 to 5,000, among them a considerable sprinkling of the fair sex. Nothing whatever occurred to mar the harmony of the day. Everything passed off pleasantly and to the entire satisfaction of all present.

Bedford's Landmark: A sad and fatal case occurred here Saturday in Elizabeth township, Alexander county. Mrs. Jones, wife of David and Elizabeth Fox, went out squirrel hunting, and in cutting down a tree for a squirrel killed a portion of it on one of their ankles, a son of Elizabeth Fox, aged about 15 years. The other boys went after the squirrel and caught it, and the mother, suspecting and going back found her under the tree with the blood oozing. He had in a few minutes. The boy had been in the dog's den to keep them safe and lost his own life.—A young man by the name of Gwyness, a native of Chatham county, has been working this season on the farm of Mr. Emory Denton, near Sandy Hill, in this county. On the 15th inst. he said to his employer that he believed he would "blow around" a little, and taking up a gun he started off. At the house of a neighbor he stopped and engaged in conversation with two girls, having set his gun down with the muzzle close to his head. While the three were laughing and talking the gun fired off, and the young man put out next day. In his native county. A more special at at Andy Hill, who furnished this from, and is intended before leaving that such an accident are but enough but that a single ton on the look of a local man is rarely worse.

A Beautiful Novelty. Ladies prefer Florida Cologne because they find this fragrant combination of exquisite perfume and delightful novelty.

Worth Remembering. Now that good things are going on, it is worth remembering that on one can enjoy the pleasures of smoking in bed. There are hundreds of miserable people that are about to die with miserable stomachs, liver and kidneys, who are told of Parker's Ginger Tonic would do them more good than all the medicine they have ever tried.

Whitely & Co's Twenty Dollar Penny Savings Bank with Home, Health, Luck, Bread and no more work than a Fly, Boiler Machine will do.

STRENGTH. To vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All the objects which are wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking BROWN'S IRON BITTERS, which is a true tonic—a medicine universally recommended for all wasting diseases.

During the war I was captured and taken to a prison of a shell, and have suffered from fever since. As a soldier I was through a long and hard campaign, and for a large portion of the time was unable to sustain even liquid nourishment. I tried Brown's Iron Bitters and found that it gave me strength and an appetite for food, and an ability to perform my duties.

BROWN'S IRON BITTERS is a complete and sure remedy for Indigestion, Dyspepsia, Malaria, Weakness and all diseases requiring a true, reliable, non-alcoholic tonic. It enriches the blood, gives new life to the muscles and lends to the nerves.
