

LOCAL RECORDS.

You can have the Record until after the election for 25 cents.

Be sure to hear Ransom speak at Haywood next Wednesday.

Mr. T. B. Womack, our Senatorial candidate, will speak here next Monday.

The magistrates of Chatham will meet here next Monday for the purpose of changing the line between Centre and Oakland townships.

Go to Blynn & Headen's for a general stock of Fall Goods, Furniture, Sewing Machines, Plows and Plow Castings. Agent for Nissen's celebrated road Wagons at Manufacturers prices. Ganno for Wheat. Call and see them.

Have you seen those beautiful Calicoes at London's? He has also a nice lot of Dress Goods and other Dry Goods just received. He is still offering some splendid bargains in Ready-made Clothing. His stock is full in every line. When you come to town be sure and give him a call. Just received this week a splendid lot of Bedsteads and other Furniture.

Shaw & Harris are now preparing for their Fall stock and in order to make room will sell their entire stock of Summer goods at reduced prices for Cash or Barter. They will take Wheat or Oats in exchange for goods or in payment of accounts. All persons indebted to them by note or open account will please come for ward and settle.

Farmers needing Plows will find it to their interest to call at London's and see his stock; he can show you something that will suit you. He has just received a large lot of Navassa Guano at Monrovia and Gulf. Farmers intending to use it this Fall would do well to lay in a supply at once before it gets scarce. Would call the Ladies attention to a new lot of Light Running Domestic Sewing Machines. They are the best in use.

We call attention to the advertisement of an Eclipse Engine and Saw-mill for sale by John J. Whitehead, Esq., of Raleigh, N. C. The Eclipse Engine has the reputation of being one of the very best Engines sold in this State, and as this is comparatively new, and being offered for sale to settle up a partnership business, we have no doubt a bargain can be had, and we advise those in want to look after it at once. Mr. Whitehead is a reliable dealer in machinery and will not deceive you.

A NEMPHIS PROMISE.—Mr. Jordan Taylor, of this county, has 123 living children, grand children, and great-grand children. He is 86 years old and is as hale and hearty as many men who are 20 years younger.

BIBLE SOCIETY ANNIVERSARY.—Our next Saturday an anniversary mass meeting of the Chatham county auxiliary of the American Bible Society will be held at this place. Addresses appropriate to the occasion will be delivered by prominent speakers.

FIRST VISIT TO TOWNS.—One of the Jurors at our court last week informed us that he had never before visited our town, although he was born and raised in this county. He is evidently one of those fox men who stay at home and mind their own business.

HARVEST MOON.—The moon was full on last Tuesday night, and is called the "harvest moon." For several nights it seems to rise at nearly the same hour, which phenomenon is explained as the axial rotation of the earth, but in the olden time it was considered a direct interposition of Providence to prolong the day so that the husbandman might gather in his harvest.

UNDUAL SICKNESS.—We regret to learn that there has been more sickness in this county for the past few weeks, than almost ever before known, though we are pleased to know that it is not of a dangerous nature, being mostly chills and fevers. The old people say that there is always more sickness in a good crop year than at other times. This is caused no doubt by the rank vegetation.

A DESERVED PROMOTION.—We are pleased to learn that the Rev. Wilbur F. Tillett has been elected chaplain of Vanderbilt University. In addition to his duties as chaplain at the University there will be committed to him the instruction of a class in the theological department. He is a son of Rev. John Tillett, who is so well known in this county, having for several years resided here.

RANSOM AT HAYWOOD.—It is with much pleasure that we announce that Hon. Mat. W. Ransom will address the citizens of Chatham at Haywood, on next Wednesday, the 4th day of October. He is considered the most graceful orator in the State, and will no doubt make one of the greatest speeches ever heard in Chatham. Let us have a grand rally and give him a rousing reception!

SUPERIOR COURT.—All the business of the term was disposed of last week, and court adjourned on Saturday. The case of homicide, that was set for trial on Friday, was not tried, the prisoner (Henry Oakley) having submitted by consent of the Solicitor to a verdict of manslaughter. The Judge sentenced him to imprisonment in the penitentiary for a term of ten years, and told him that he might thank his God that he was not sent to the gallows.

BAPTIST ASSOCIATION.—The Sandy Creek Baptist Association is holding its 12th session with the church at this place, having convened this morning. Already quite a number of delegates have arrived, and the session promises to be one of unusual interest. In our next issue we will publish a full report of the proceedings. We hope the delegates will have a pleasant time and enjoy their visit to our ancient town. One citizen will be pleased to entertain them to the best of his ability.

THE WHEAT AND OATS CROP.—In addition to the threshers who have heretofore reported to us the number of bushels of wheat and oats threshed by them in this county, we now publish the following:

Table with columns for Name, Wheat, and Oats. Includes J. Parham & Co., J. B. Riggsbee & Co., Lawrence & Thomas, etc.

The amount heretofore reported and published is 69,350 bushels of wheat and 22,538 bushels of oats, so that the total thus far reported is 92,454 bushels of wheat and 32,097 bushels of oats that have been threshed in Chatham this year. This is but little over half the crop raised, as nearly one-half of the threshers have neglected or refused to report the number of bushels threshed by them.

VANCE IN CHATHAM!

An Unanswerable Speech—'Liberalism' Exposed—A Grand Rally!

We had the pleasure, on last Monday, of hearing Senator Vance speak at the Fall in this county. As might have been expected a very large crowd was in attendance, for it is well known that Vance is equal to a circus in drawing a crowd. Quite a number of ladies graced the occasion with their presence. We all expected a great speech, and none were disappointed. If any man could vote the republican ticket after hearing that speech he would not be convinced "though one rose from the dead." It was irresistibly argumentative, closely logical, brimful of Vances in indubitable flashes of wit and anecdotes, and at times grandly eloquent. Of course he had the closest attention of his audience, and all regretted when he closed, although he spoke over two hours. We would not attempt a report of the speech, but will try to give a brief synopsis of his main points.

He first drew a forcible comparison between the condition of our State under republican rule and under democratic rule. Under the former there was an administration of frauds, corruption, violations of the constitution, the subversion of the civil by the military, the suspension of the writ of Habeas Corpus, &c. Under the present administration of the republican party, the building of railroads (which were not built) they issued bonds to the amount of \$24,000,000, which were squandered and stolen. They promised to educate the poor children of the State, and took the school money to pay themselves \$7 a day. They had expended in one year \$1,177,000. And what was there to show for all this vast expenditure? Absolutely nothing!

Under democratic rule, he said, the "clange" of rivers had been reversed, the expenditures diminished, four or five hundred thousand children are being educated in the public schools, eight Normal Schools have been established for white and black teachers, a Department of Agriculture has been organized for the benefit of the farmer, railroads have been built, and every man is protected by equal and lenient laws. Now, why make a change? It seems to be a trait of human nature for men, soon after being delivered from some great evil, to forget the hand that brought them out, and here he cited the case of the Israelites in the wilderness who sighed for the dead pots of Egypt. Though a new name or new face might be given the republican party, yet it was the same old party that had almost ruined the State. Though a cattle snake sheds its skin it is still the same old snake, and is as poisonous as ever. Indeed this so-called "Liberal" party is worse than the old republican party, because the best men among the republicans will have nothing to do with it, and it is composed of only the worst elements of both parties. He proceeded to give the names and characters of the men who composed the so-called "Liberal" convention that met in Raleigh, on the 7th of June, such as Ike Young, Jim Harris, O'Hara, &c. The "Liberal" party was the "half way house" gotten up by the Revenue ring, in which purchasable democrats could spend the night on their way to join the republican fold. Here he gave a most amusing description of the "dead-in-all" set by Dr. Mott, in which to catch young democrats.

What reasons are offered for going back to republican rule? Only two—Prohibition and the county government system. He first took up prohibition and showed its history in the United States; that prohibition was a republican measure, was a part of the platform of that party in several States where the republicans were largely in the majority (such as Maine, Kansas, Iowa, &c.), whereas the democratic party was opposed to prohibitory laws and had always been the party of personal liberty. Our State Legislature refused to pass a prohibitory law, although petitioned to do so by many thousands of our best citizens of both parties. They simply allowed the people at the polls an opportunity of saying whether they wanted such a law, and at that election a majority of the democrats voted against it. No intelligent man who was sincerely

opposed to prohibition, would join the republicans through fear that the democrats would adopt it. If any democrat has any fear of prohibition, let him stand where he is—in the democratic ranks!

Vance next discussed the county government question. He showed the hypocrisy of the republicans. In their State platform they declared it was "the inherent right of the people to elect every officer, and yet opposed the election of Revenue officers, postmasters, marshals, &c. In this State there are 96 sheriffs who collect for the State about half a million dollars. The people elect these sheriffs, and yet are not allowed to elect the Revenue officers of whom there are 800 in this State, and who collect three million dollars! None of the Federal officers are elected by the people, and when the republicans would allow the people to vote for these federal officers he would favor the election of magistrates by the people. He explained the necessity of some system that would not oppress the white people of Eastern North Carolina. Contrast their condition under the former and under the present system. For 92 years the people of North Carolina had lived happily and prospered without electing their magistrates, until the Cooby constitution was adopted. Were our people any happier, or were the magistrates any better during the eight years (from 1868 to 1876) that they were elected? The present system did not hurt us here in the Centre, and was the salvation who had a right to do something that would not help him but ruin you, and he exercised that right you would call him a bad neighbor and a mean man. If any change in the present system would make the democratic party would make it, and no democrat need join the republicans. "Stay in the big house and eat your pie, don't go to the hog pen."

He denounced the internal revenue system with its oppressions, and urged its abolition. He cited the 6th district where the cost of collecting exceeded one-half of the amount collected. That the amount collected in the United States was \$140,000,000, while there was a surplus of \$150,000,000 in the treasury. He next expounded the tariff laws, which taxed the farmers for the support of the manufacturers. Showed the inequalities of such taxation, by which the rich man's diamonds were taxed 10 per cent, and the poor man's salt was taxed 64 per cent. The republican platform favored the continuance of this unjust tariff, while the democratic platform demanded its revision. The tariff question was elaborately discussed, and explained so clearly that every man could understand it.

Senator Vance's speech made a deep and permanent impression upon his hearers, strengthening the doubtful and rallying the wavering. Would that every voter in the State could have heard it!

Our Poor House.

Error Reasons: A few persons know how the county poor house is managed. I propose to mention what I have seen, and know about it for the past two years. There are about 28 inmates, most of them are old and afflicted with various chronic diseases. Under the management of the present Board of Commissioners and Superintendent, J. T. Farrell, inmates have fared better than I ever knew them. I have made upwards of fifty visits to the poor house the present year and I never hear my complaint. All say that they get a plenty to eat and comfortable bedding and clothing. The overseer is a kind hearted, Christian gentleman, and treats his kind. In addition to his good management and kind treatment to the inmates he has saved the county several hundred dollars in the way of raising on a small scale. He has made this year over 100 bushels of corn, 75 bushels of Irish potatoes, 75 bushels of sweet potatoes. He has done this work at his own expense and only gets \$200 a year for his services. I have been the physician to the poor house several years since the war and I can truthfully say that the county has never had a better Board of Commissioners and Superintendent of poor house than now.

State News.

Asheboro' Courier: It is authoritatively stated that the completion of the Cape Fear & Yadkin Valley Road is assured. We are glad to give publicity to such encouraging news.

Newbern Journal: Jas. G. Oden, a colored boot and shoe maker residing in this city, has gathered from his lot this year two crops of corn and now has the lot set out in orchards with a fair prospect of a good third crop.

Tarboro' Southerner: Mr. W. W. Brown, of Piety Grove township No. 2, killed a wild cat on Monday, 11th inst. The cat was jumping from a tree at Mr. Brown when he shot it. It measured from nose to tail three feet seven inches, and weighed 27½ pounds.

Monroe Enquirer and Express: On Monday evening a little son of Mr. Joseph Perry, who lives near Olive Branch, had a chinquapin ball to get into his wind pipe, which produced his death in about three hours, nothing that could be done for it availing to give it relief. The child was about two years of age.

Winston Leader: Some old signs say that "lightning never strikes a man more than once in the same place." But this assertion has been knocked into splinters, for Mr. Wilson Hester, has a poplar tree near his dwelling which has been struck by lightning three times, and the stump is still standing, about forty feet high, though dead.

Raleigh Visitor: The steam cotton gin, belonging to Messrs. B. F. Montague and Dr. W. T. Hodge, located in Wake Forest Township, was destroyed by fire about 9 o'clock last night. The cause of the fire is unknown. The gin was insured to the amount of \$2,500.—Nine convicts escaped from the hotel yard just north of the city last night by boring through the wall.

Montgomery Star: A very destructive storm passed through the lower end of this and Moore counties, on Sunday the 16th. It was in the form of a cyclone, and did everything in its path. Serious damage was done to the crops, orchards, etc. We understand that several houses were demolished but no lives were lost and none hurt. It was the first cyclone ever seen in that section, and created much terror to all in the neighborhood of its path.

Statesville Landmark: Mr. Ellis Hines of Alexander county, brings us the largest apple we ever saw. It was raised by Mr. Solomon Davis, and weighs 25½ ounces.—Dr. York usually devotes about 50 minutes of his hour to talk about prohibition. Tom Maj. Robbins gets up and says: "I once had a dog that after the balance of the pack had run a rabbit into a hole and I had twisted it out and gone on, would come up to that dog, stick his head in and stay there and bark all day. I gave that dog away."

Ways on Republican: Charlie Eaton of Mocksville was fatally burned by the ignition of the kerosene oil which he was pouring on a fire kindled in the cooking stove. The can exploded in his hand and scattered its burning contents over his person, causing his death.—As an instance of what industry on the part of the fair sex can accomplish, we were informed the fact, that Mrs. Jones of Yadkin, brought to our market 600 pounds of dried fruit her own product, and Mrs. Iddel a like amount. Quite a snug little sum was realized, the fruit selling at 12½ cents per pound.

News and Observer: The largest Democratic Convention ever held in Cumberland occurred in Fayetteville yesterday. G. M. Rose and A. J. Beattie were unanimously nominated for the Legislature; W. C. Troy for Judge of Probate; R. W. Hardie for Sheriff, and H. C. Fisher for Register of Deeds.—In the late murder trial at Halifax in which four colored men were on trial for the alleged murder of a white man, the jury was composed of twelve colored men. It is probably the first time in the history of the State that a jury composed entirely of colored men has been impaneled.

Salisbury Examiner: Montgomery county has the reputation of being the richest county in the State in gold. There is no doubt as to the truth of the assertion. A recent trip through a large portion of the county has had a convincing effect. The gold covered wealth of the county is not only evident, if not over but more than already found.—Few persons are aware of the extraordinary growth sometimes made by the water mallow vine. Dr. L. W. Coleman measured one near Organ church, a few days ago, which counted out 900 feet, lacking only 10 feet of a thousand. Of course this measurement comprised the branches of the vine, which did not seem to be more numerous than a bush.

Goldboro' Messenger: The Goldboro' cotton gin was lately with some one of our popular industrial enterprises. Work is rapidly pushed to completion and in a few weeks more the mill will be in successful operation.—We learned a while back that a young man named Merland, with a beautifully worked off program on the 10th of the month, with a beautiful young merchant who visited Baltimore a short time ago. We have investigated the matter and find that the fact is so, doubt the property of the real merchant, for on the occasion of his trip down the bay he lost such a lot as the above.

General News.

A widespread conspiracy is said to have been discovered in Ireland.

A sweet potato raised in Hillsboro' county, Florida, weighed nineteen pounds.

Frogs are reported in the Northwest, but so far not severe enough to injure the corn crop.

A boy of fourteen years killed himself in New Hampshire because his mother reproved him.

Fifteen soldiers were drowned and thirty others injured by the falling of a train at bridge near Essex, in Australia.

Admiral Seymour and General Wolsey are to be raised to the British peerage on account of their services in Egypt.

A man named Porter, at Sedalia, Mo., shot his wife and then shot himself on Saturday night. Cause, domestic troubles.

At Hot Springs, Ark., Charles Matthews, editor of the Hornet, was shot four times and killed in an affray with Col. S. W. Fordice.

At Woodcock, Ontario, a young woman committed suicide by making a fire and standing over it until she was almost roasted alive.

Mrs. James Benson, of Buffalo, N. Y., who had been suffering from fever for sometime past, put out of bed while delirious, and taking her youngest child, a boy of 2 years, with her, went to the river and jumped in.

A demobled daughter of James Cleveland, near Nashville, Tennessee, passed the faculty of six persons except the mother, on Wednesday night, by putting arsenic in the coffee. Mr. Cleveland has died and one daughter is in a precarious condition.

The heaviest rain storm since 1842 fell at Tarboro' last Friday night, causing immense damage to crops. The rainfall in a few hours was 7.74 inches. Bridges were swept away and the Wilmington & Weldon Railroad extensively damaged. A train ran into a wash out and was crushed, several injured, and the express messenger, W. D. Bryan.

A train carrying 8000 soldiers was wrecked in Kentucky last Saturday. A car jumped the track while going at high speed and five cars behind it were thrown down an embankment and crushed. Two attendants of the engine and a boy who was stealing a ride were killed. A cargo containing a tiger was let open and the beast escaped, but it was so frightened that it crept back into the cage as soon as it was placed in position.

An Impossibility.

Deserving notices are always appreciated. The exceptional cleanliness of Pades' Hair Balm makes it popular. Gray hairs are impossible with its occasional use.

How it was Done.

"How do you manage?" said a lady to her friend, "to appear so happy and so good natured all the time?" "I always have Park's Cherry Tooth-brush," was the reply, "and thus easily keep myself and family in good health. When I am well I always feel good at heart."

Best ever made, in fact, it is the only one that is so good. It is made in the United States, and is sold by all druggists and grocers.

A terrier dog at Annapolis, Georgia, has been found to have stolen a pair of pants, a shirt, and a pair of shoes, and is now being kept in a cage for its punishment.

McIntosh, Collins and Taylor, and others, attorneys at law, have filed a bill in the Superior Court of this county, asking for the appointment of a receiver to take charge of the assets of the late J. T. Farrell, deceased. The bill is based on the fact that the said Farrell was insolvent at the time of his death, and that the assets of his estate are being dissipated by his executors, Messrs. Collins and Taylor, and others. The bill asks for the appointment of a receiver to take charge of the assets of the estate, and to pay the same to the creditors of the estate.
