The trade- dress that is being made for her by the winds, afterward called by the friars first dressmaker of Hungary, is to be " winds of mercy," because they sided rent to all the illustrated journals of in the discovery of the New World, were only winds of despair to the sailers. They believed that the ships precious stones, and of rare workmanwere sailing down an inclined slope, stop. This competition is said to have and that to return would be impossible. shown the Hungarians that they can since it blew always from home. There was little to do in the way of trimming sails, for they sailed almost on a parallel of la itude from the Camaries to the Bahamas. Their severest labor was in pumping out the leaky ships. The og adventurers remained listles ly on deck, or played the then fashionable game of primers, and heard incredulously the shally reports told by Columbus of the rate of sacling. They would have been still more incredulous had they i nown the truth. "They sighed and wep"," Herrera says, " and every hour seemed like a year."

The same Spanish annalist compares Columbus to St. Christopher in the legend bearing the infant Christ across the stream on his shoulders; and the explorer was often painted in that character in those days. But the weight that Colombus had to bear up was a wearisome and unworthy load Sometimes they plotted to throw him overboard by a matorayre con distinct beion, Herrera says), intending to say that he fell in while star-gazing. Bu he, according to Peter Martyr, dealt with them now by winning words, now by encouraging their hopes (Mando ando reclin, ample operates. If they thought they saw land, he encouraged them to sirg an anthem; when it proved to be but a cloud, he held out the hope of land to morrow. They had sailed August 3, 1492 and when they had been out two months (October 3) he refused to beat about in search of land, though he thought they were near it but he would press straight through to the Indies. Sometimes there cause a contrary wand, and Columous was cheered by it, for it would convince his men that the wind did not always blow one way, and that by patient waiting they could yet return

As the days went on the signs of land increased, but very slowly. When we think of the intense impatience of the passengers on an occen steamer, after they have been ten long days on the water, even though they know precisely know. If we could send it back, saying going, and that they are driven by to day and a crab to-morrow; or a combination which was supposed to patient commander who was looking

Immigration. The ti-le of immigration continues to returns for the month of July give 65,010 as the total at all the ports, against 56,607 for the same month of last year. This makes a total of 528,-628 immigrants which have landed in this country for the seven months ended July 31, 1882, against 447,772 for the same period last year, and of which 339,992 landed at New York. Alluding to this vast immigration, the New York Journal of Commerce calculates that it costs at an average a thousand dollars majority, and the product is worth to the country more than its cost. Reckimmigrants, we have tuns imported in buman flesh, a value of over two hundred and fifty million dollars.
