

# The Chatham Record

THURSDAY NOVEMBER 10, 1882.

## LOCAL RECORDS.

**Do you hear enough news now?**

**The frost this morning looks like a young snow.**

**Chatham is the banner county of this Congressional district, being the only county that gave Cox an in creased majority over that of 1880.**

**Every Sewing Machine should have a "Path" hand attachment. It saves the operator's health and strength. Sold by all Machine dealers or by the Universal Attachment Company, 227 Fulton street, Brooklyn, N. Y. Price \$2.**

**R. T. Bennett is the man to go to Congress to make his bones. The Hump Bay Brothers are the men to make Warren, Roanoke, go, for the clever citizens of Chatham. They are thoroughly prepared to do all kinds of work, both in wood and iron.**

**Special offer for the next 10 days. W. L. London will have on his Job Lot Counter during the next ten days a large lot of Men's Heavy Bro gans, which can be bought for cash at less than New York cost. Also a job lot of Hats and Caps. Call early if you wish to secure a bargain. This offer will only hold good until Saturday, 25th inst.**

**New Goods! Beaman & Hendon are now receiving their stock of Fall and Winter Goods, consisting of a full stock of almost everything found in first class stores; the line of Ladies' Cloaks, Ladies' Hats and Feathers, and they will find Mrs. Hendon ready to dress them up in the latest style. Give us a call and we have no doubt you can be suited.**

**Among the many goods just received at London's is a new lot of Men's and Children's Hats and Caps. He has a beautiful Fur Cap for Girls or Boys. His new Dress Goods are quite a success, both in style and prices. He has just received another lot of those splendid Thimbleine Shoes for Women and Children—every pair warranted. Ask to see his hand made Boots.**

**Timothy Chesser (Tennessee)—Mr. Joe G. Mann of Baldwin township, informs us that he has raised this year three crops of tobacco on the same land. This beats my farming that we have heard of.**

**Braxton Farmers—Our forests now present a most beautiful appearance with their foliage of every hue and color. Many persons think that the leaves are colored by the frosts, but this is a mistake, for they change color simply by ripening at maturity.**

**Craig Myron—We are indebted to Mr. J. A. Scott of Bear Creek township, for a cotton field that ripened and was plucked over a year ago, and yet looks as fresh and well preserved as if it had ripened this year.**

**One Democrat—Mr. Thomas Robbins, of Galedale, now says, can claim the honor of being the oldest democrat in Chatham. He is 95 years old, and at the recent election gave his vote to the polls and voted for the straight democratic ticket from Congress to constable.**

**The Comet—We were mistaken in saying, a few weeks ago, that the comet, like the "liberal" party, would entirely disappear after the election, for that heavenly visitor is still visible in the early morning, though the "liberals" have vanished as the snow melts in the warm sunlight.**

**Singer, Crumpler—The closing exercises of the fall term of the Pittsboro Scientific Academy will be held tomorrow (Friday) night. The exercises will consist of recitations, declinations, dialogues, etc. The public are invited to attend, and we doubt not it will be a most pleasant occasion.**

**NATIONAL VOTE.—The sheriffs of Albemarle and Chatham met at Hertley's (half-way between home and Graham), on last Tuesday, and officially declared the result of the vote of this senatorial district. The majority for T. B. Womack, esq., was 149, which is rather different from the result that Faust bragged on during the campaign.**

**The First Ice—The first ice of the season was formed here yesterday, and a heavy frost whitened everything. It was the first touch of winter that we have felt. The frost that fell on the 25th of last month destroyed very little vegetation, and the weather since that time has been unusually warm. We have heard many old persons say that this has been the warmest autumn that they have ever known.**

**To Farmers—We invite the farmers of the county to write communications to the Record upon matters that particularly affect their interests. Any farmer who succeeded better than his neighbors with some particular crop, let him write a communication explaining the secret of his success, and in this way our farmers can learn from each other and thus promote the agricultural interests of the county. We would be pleased to publish any suggestion or information that would enable any farmer to make a better crop, and we hope that this invitation will be acted on.**

**George Bevan—Mrs. Nancy Bevan, of this township, has brought to the city's inn with a bunch of Moss-pink beans that last night when we Tuesday was thrown, crushing the shell, dislocating the shoulder, and otherwise injuring him. He died Wednesday evening.**

**Winston-Salem—We learn that four negroes illegally voted at Rockville in the late election. One of them, named Gib, is reported to have been born in this county two years ago, and voted in the painted box. He was arrested and voted, who was a white man. The facts are not known, but the negroes must have been in the majority. But they must be reported to have been United States citizens. Chatham County is a part of the United States, and the negroes are citizens of the United States. We hope that they will be allowed to do so again.**

**Winston-Salem—We learn that four negroes illegally voted at Rockville in the late election. One of them, named Gib, is reported to have been born in this county two years ago, and voted in the painted box. He was arrested and voted, who was a white man. The facts are not known, but the negroes must have been in the majority. But they must be reported to have been United States citizens. Chatham County is a part of the United States, and the negroes are citizens of the United States. We hope that they will be allowed to do so again.**

**Charlotte—Mrs. Nancy Bevan, of this township, has brought to the city's inn with a bunch of Moss-pink beans that last night when we Tuesday was thrown, crushing the shell, dislocating the shoulder, and otherwise injuring him. He died Wednesday evening.**
