

THURSDAY, MARCH 1, 1883

LOCAL RECORDS.

"Spring, Gentle Spring."
And now the March winds do blow.
Court week is two weeks from next Monday.
Be careful with your fires during these blustering March days.
Yesterday was the last day of winter, and nobody will regret it.

Today is the first day of spring, but vegetation is unusually backward.

Job Printing done at the Record office in the neatest manner and at lowest prices.

We are truly rejoiced to hear that William A. Guthrie, esq. of Fayetteville, has been entirely restored and returned home as sound in body and mind as ever.

No communication is published unless some responsible name accompanies it. For that reason we have not published two communications recently received.

Mr. Thomas Allen informs the public that he is ready to grind corn and wheat into the best meal and flour at Moore's mill, near Pittsboro.

Brynm & Headen keep the common School books.

Bynum & Headen are selling a first-class Sewing Machine very low for cash.

Bynum & Headen have a new lot of Furniture on hand.

A BUSINESS FAILURE.—The firm of Young, Petty & Co. of Raleigh has made an assignment to Maj John W. Scott. One member of this firm, Maj Robert E. Petty, is a most estimable gentleman, born and raised near this place, and his many friends will much regret to hear of his troubles, and sincerely hope that he may soon again be in successful business.

Boxing at Deane.—On last Saturday, a little ten-year old colored girl, named Lou Barnett, residing on the farm of Mr. F. W. Gattis, in Baldwin township, was boxed so badly, that she died in a few hours. She was standing in front of the fire and her dress catching fire she rushed out doors and was fatally burned before the fire could be extinguished.

A LOSE LIFE.—We have heretofore mentioned that a colored woman, of this place, named Fanny Lea, swallowed a sewing needle some years ago, and that every now and then the needle could be felt in a different part of her body, as it travelled about. About three weeks ago she pulled it out from near her right side. It had turned black, but was not broken. It had been in her body about eight years, but had never given her much trouble.

A LOSE CHAIRWOMAN.—One of our Pittsboro' boys, Mr. Rod Cotton, is in luck. A few years ago he removed to Winston and has become one of the successful townsmen of that prosperous town, and better still, on last Thursday, was married to Miss Maggie Lea, one of Winston's fairest belles. For several days he has been here with his bride receiving the congratulations of his many friends and on last Monday night a most pleasant entertainment was given them by Mr. and Mrs. A. G. Headen.

DEATH OF A BOY.—On last Thursday afternoon Mr. John T. Farrel drove his wagon into the woods for a load of wood, and as he did not return to the house for several hours his wife became uneasy and he was searched for and soon found lying among sections near his back a wagon, having been stricken with apoplexy. He was at once carried to the house and the doctors sent for, but their efforts were without success and he remains in a comatose state until death relieved him from his sufferings on last Monday night.

QUARTERS CONFERENCE.—The first quarterly conference of this year of the Methodist Episcopal Church, South, in this Circuit was held here on last Saturday. Notwithstanding the inclemency of the weather a majority of the churches on the Circuit were represented and a spacious present for the transaction of business.

CHATHAM'S GYMNASTIC.—Some time ago we mentioned that Jim Gilbert, a very tall colored man from this county, was on exhibition in the city of New York and was known as the "Palomoe Giant." One of our townsmen was recently in New York and while there visited the museum in which Gilbert was exhibited, and saw him. Gilbert seemed quite surprised when our townsman called him by his true name, but soon recognized his countryman and escorted him all through the museum showing him the different curiosities.

STATE NEWS.

LENOIR TROUBLE.—Last Thursday Dr Beall drew off the water from his lower pond and found in it 3,000 eggs. It was scarcely two years since he placed in it only 47 young ones.

ANNON TOWER.—Col. W. R. French, of Lenoireville, showed us a curiosity last Saturday in the shape of a mummified rat that was taken from the walls of Mr. Misi Wald's house, and is supposed to have been there over a quarter of a century.

FY FAYVILLE OBSERVER.—A Moore county boy, between sixteen and seventeen years of age, six and four inches high, finely proportioned, and is still growing.

WATER.—We are pleased to learn that this society is in a prosperous condition, and at its late meeting received twelve new members.

Hillsboro' Observer: Mr. Nelson Parter, 11 miles north of Hillsboro, had about 30 feet of his mill dam washed away by a freshet. The dam and mill were in 12 months. We see in Hillsboro' one or twice a week, a man 75 years of age, who has 42 grand-children, and 2 great grand-children. He never had a dollar to pay for his life, and was never on a bed a day, yet he comes to enjoy life as well as any other man.

More Gattis: Mr. R. J. Smith, a trader of Guilford county, led to the farm of Mr. F. W. Gattis, in Baldwin township, on Saturday, the 18th inst., attempted to cross Fork Creek, near Brewer's Mill, in Rowan county, which was fast with him and both his horses were drowned. The young man was found next day floating on a snag, and the horses were rafted off against a foot log. Mr. Smith made a narrow escape by swimming out.

Winston Sentinel: Our young friend, Mr. John Birch, has returned from Texas, after an absence of several years. He says the Old North State is just what it is, and will in future make it his home. —Thos. E. Longest, of Graham, receives the earliest appointment at West Point from this, the 5th District. —Miss Charlie Gady, a married woman 12 years, while operating at Shallos's cotton gin, near Brown's last Thursday, accidentally had her hand caught in the machine, which lacerated the member to such an extent as to render amputation necessary.

Kernersville News: A little girl of Mrs. W. M. Carter, in this place, accidentally snuck a shoe button down her trousers into the middle of last November. The little creature had once begun to cough and bring up mucus to communicate her trifling ailment to a physician, was called in, but was unable to give relief. Her condition grew worse from day to day, and the parents and physicians gave up all hope of her recovery. But last week, while the little girl was lying on her back, and preparing for death, she was visited by a messenger from the other side, and she began at once to improve, and is now convalescent.

News and Observer: Some days ago the house of Mr. W. H. S. Clark, in Swift Creek township, near this city, was entered by a couple of negroes, whose intention was to steal. They were chased away just in time yesterday. One of the thieves, named D. B. Barr, was captured in the country. As his captors were bringing him to a large, out to the city, he escaped on the way, and made a dash for liberty. No less than eleven negroes were fired at, but he was not hit. He was pursued, however, and finally captured at Rocky Branch. He was brought into the city and now occupies a cell in the jail.

Town of Southworth: Registered peddlers are again in evidence, and where before a bulky man and a woman, Mr. A. W. White, a young child, and a boy named John Bull, were seen, and Saturday afternoon, as some very much making too much. He had been given a bottle nearly full, but stopped up so that it was not thought that he would get any out, but he did succeed in doing so, and when discovered he had drunk nearly all in the bottle. Remedies were immediately applied, and in thirty minutes he had vomited up the remainder of the bottle, and he was in the streets, but this is to be attributed to the prompt discovery, for some scoundrels are prone to use considerable quantities.

William Star: On Thursday, the 22d inst., B. G. Ruppel, John Durham and B. G. Star, were out gunning in the neighborhood of Rocky Point, when Mr. D. W. Star, Durham and John were sitting on a log, suddenly it was found a cover, the shot taken at a deer in the face of his own, the two at the time of the shooting being on opposite sides of a small thick, and therefore he was not seen by either. Seven shot penetrated the skin of Mr. B. G. Star's back, one going entirely through, the hole of one of his ears and making a perfect hole and had been bored for an hour. The wounds were quite painful, but of course not serious.

Charlotte Democrat: On Monday morning the residence of Dr. P. W. Standish at Rockingham, was destroyed by fire with not an article of clothing or any of the furniture saved. The loss probably exceeds \$1,000. Mr. Standish was lying in bed, and his engine in the room, and he started up the yard to go to his chamber. When he got upon the back track on the south side of the yard, he reached just as an engine and tender was backing from the north side of the track. He stood still, apparently watching a train which was at the time going down the hill, and although the engine and tender seemed to be at hand, he seemed not to hear the warning and in a moment he was struck by the rear end of the tender which knocked him flat upon the track and engine and tender both passed over him, leaving him a mangled corpse where he fell. Both of his legs, his back and neck were broken under the terrible weight.

Charlotte Journal: A notorious negro woman, Ella B. P. of this place, received yesterday in the Infernal Court, sentence of imprisonment in the penitentiary for the fourth time in her life. —There is a mob in the lower part of the county who have a list from so much covered by his neighbors that he does not dare leave home for any length of time for fear of being seized. —At the sitting of the Superior Court in Statesville last week, the case against Marshall Matt, W. H. S. Carter, and C. S. Compton, were read and disposed of. The case against Matt was ruled for an appeal upon Mr. W. H. S. Carter, and the two latter for an appeal upon Mr. S. Carter. —At the last term of the Superior Court one of the jurors was convicted of some error in sentencing to work on the railroad incidents of the kind do not occur often. —A most beautiful representation of a ship made of table cutters was to be seen in the office of the Charlotte Hotel yesterday. It was made by Mr. Ed. Miles, a guest of the hotel who had come from Liverpool, England. It is a model of a ship of the line, and is a fine piece of work.
