Four Seasons.

Spring is the maiden divinely fair.
With violet blue in her golden hair.
At the balmy touch of her dainty feet.

A Marvellous Metamorphosis

CHAPTER I. TOO THIN.

"No, a hundred times no!" she exclaimed.
"And why do you refuse me," he pleaded.
"I am rich, well-educated, and move in the best society."

CHAPTER II. TOO FAT.

"Stand back! Give the lady air!"
were the shouts that arose as a crowd gathered around the stalwart form of the young lady.

CHAPTER III. TOO ELEGANT.

"I should ever find out who he is. I know I shall fall in love with him," said Miss Oleo.

CHAPTER IV. TOO UTTERLY TOO.

Miss Oleo occupied a box at Barnum's circus a few days after her adventure on the river, and as she gazed at the bewildering scenes before her, she became enthusiastic, particularly when muscular feats were exhibited.

CHAPTER V. TOO THICK.

The fog was thick on the river. The fog was thick on the river. And the galleys were chattering over No-shadows cast at the feet.

CHAPTER VI. TOO THIN.

"It is so provoking," said Miss Oleo to her friend Miss Margery, whom she was accompanying to the Desbrosses Street Ferry, about a year after her refusing Mr. Osseous, "that this fog should swoop down like the Assyrians upon the fold. It is so thick that I can scarcely see, and I know my crimps are all out of curl."

CHAPTER VII. TOO FAT.

"I don't care as much for that as I do the danger of crossing the river," replied Miss Margery, who lived in Jersey City.

CHAPTER VIII. TOO ELEGANT.

"If you are afraid I will go home with you," said Miss Oleo, bravely. "I would like nothing better than to run the risk of being wrecked, even on a ferry-boat."

His wonderful performance on this particular occasion was due to his seeing his former sweetheart as he was about completing his third somersault in mid-air.

"What a fine-looking man!" she exclaimed. "Now, if poor Bonaparte had such a splendid physique as that, I might have..."

CHAPTER IX. TOO THIN.

"I'm not surprised at that, for when he was courting me I used to blow him out of the front door with my fan. Poor fellow! I wonder what has become of him?"

CHAPTER X. TOO FAT.

"If that is true, I will go there this very week," said Miss Oleo. "I've always admired freaks."

CHAPTER XI. TOO ELEGANT.

"Stand back! Give the lady air!" were the shouts that arose as a crowd gathered around the stalwart form of the young lady.

CHAPTER XII. TOO THIN.

"No, a hundred times no!" she exclaimed. "And why do you refuse me," he pleaded. "I am rich, well-educated, and move in the best society."

CHAPTER XIII. TOO FAT.

"Stand back! Give the lady air!" were the shouts that arose as a crowd gathered around the stalwart form of the young lady.

CHAPTER XIV. TOO ELEGANT.

"I should ever find out who he is. I know I shall fall in love with him," said Miss Oleo.

CHAPTER XV. TOO THIN.

"It is so provoking," said Miss Oleo to her friend Miss Margery, whom she was accompanying to the Desbrosses Street Ferry, about a year after her refusing Mr. Osseous, "that this fog should swoop down like the Assyrians upon the fold. It is so thick that I can scarcely see, and I know my crimps are all out of curl."

CHAPTER XVI. TOO FAT.

"I don't care as much for that as I do the danger of crossing the river," replied Miss Margery, who lived in Jersey City.

CHAPTER XVII. TOO ELEGANT.

"If you are afraid I will go home with you," said Miss Oleo, bravely. "I would like nothing better than to run the risk of being wrecked, even on a ferry-boat."

CHAPTER XVIII. TOO THIN.

"No, a hundred times no!" she exclaimed. "And why do you refuse me," he pleaded. "I am rich, well-educated, and move in the best society."

CHILDREN'S COLUMN.

Just Tall Enough.

She took my coat—I reached tall. And she is not so very tall. The steps led upward from the hall: She stood, the little fairy.

The Child's Answer.

Little Nellie, my boy had lost her father, and her mother was poor. Her sweet temper and winning ways gained her many friends.

MURDEROUS IMPULSES.

Men Who Are Suddenly Seized With a Desire to Kill Somebody.

"Considering the number of cases of homicidal and suicidal impulses that come under the notice of experts in nervous diseases," a distinguished specialist remarked to a New York Sun reporter, "it is a wonder to me that so few tragedies from that source really happen."

Interesting Contrast Between Prices in London and in America.

A London letter to the Philadelphia Press says: There is no city in which you can get more for a sixpence or less for a guinea than in London. It is as cheap as London in London.
