THE ATTEMPT of a faction of the republican party to hold a State convention was a dismal failure. We published last week an account of the so called convention held by them at Raleigh on the 22nd of September, and mentioned that they had nominated a full judicial ticket. We also mentioned that the nominees for the Supreme court would probably not accept, and already our prediction has in part been fulfilled. Ex-Judge Bynum, who was nominated for chief justice, has published a letter most emphatically declining the nomination. Doubtless the other nominees will follow his example, and thus the democratic judicial ticket will practically have no opposition, and this is just as it ought to be. Our nominees for the Supreme court and the Superior court are all eminently worthy of the united support of all parties—of all the people of the State—and their unanimous election would be a fitting and deserved acknowledgment of their purity of character and judicial learning. North Carolina has never been blessed with better judges than those who will be elected in November, and the contrast between them and the judges who were elected by the republicans in 1868, shows the difference between democratic and republican supremacy, and is another proof of the benefit of democratic rule in our State.

Our people generally do not appreciate the great importance of having good judges, and a pure and learned judiciary. They usually take much more interest in the election of their county officers and members of the Legislature than in the election of the judges who pass upon their lives, their liberty and their property. And yet the value of having good judges cannot be overestimated. The democratic party then certainly deserves great credit for giving our people such good judges—such acceptable judges—that even republicans do not resist their re-election. And yet there are a few chronic grumblers and disappointed office-seekers who are trying to break up the democratic party.

MR. NICHOLS attempts to deceive the people by pretending not to be a politician or a partisan. He styles himself an "independent" and calls himself the people's candidate, and yet he has been and is now one of the most bitter republicans in the district and is a chronic office-seeker. He became a republican for the purpose of getting office and office he has he succeeded. Since 1873—a period of thirteen years—he has held office for about ten years. From 1873 to 1877 he was principal of the deaf and dumb and blind asylums after that he was a revenue officer under Col Ike Young; and then for four years he was postmaster at Raleigh, receiving a salary of $3,000 a year. Although he now pretends not to be a republican, yet in 1884 he was republican enough for Garfield to appoint him postmaster at Raleigh in place of ex-Gov. Holden.

Thus it will be seen that Mr. Nichols is a chronic office seeker, having received the large sum of about $22,000 in ten years from the different offices held by him. It is very natural then for him now to wish for another office, for a while a man once begins to eat out of the public crib he never wishes to stop.

HAZING is forbidden at the University of North Carolina, and those students who are guilty of it are summarily expelled. Two students of that institution were recently expelled for blacking the freshmen, and all good citizens will heartily approve their expulsion. The faculty deserve public commendation for their efforts in this behalf. Students who go to a public institution of learning, even though they be freshmen, are entitled to protection from injury and insult, and the college or school, that does not protect them, does not deserve patronage.

Our Washington Letter.

(From our Regular Correspondent.)

WASHINGTON, D. C., Oct. 1, 1886.

During the past week more than five thousand persons have been discharged from Government service in Washington, or those contemplated to be discharged. Over three hundred and sixty more record-books were received at the Government Printing Office and two hundred to the Washington Navy Yard. Every day or two hundred thousand dollars' worth of stamps are sold in the Government Departments and the work in the Government Printing Office will go on with a rush before. At the Navy Yard there will be less for the dockyards are now made with the intention of building a modern naval station and not an ordnance foundry. It is the determination of the present Administration with the help of Congress to improve the naval strength of the United States. Notwithstanding all that has really been accomplished some of the dailies are exposing some of the four previous Republican administrations' extravagance in the Navy Department. Now, while the Navy is to that of such a European power as Russia, Italy, Austria, Germany, France, Great Britain, Spain, Portugal, Turkey, Greece, Holland, Belgium, Denmark, and Sweden, Norway, Brazil, Chili, Argentine Republic, Peru, Hayti, Venezuela, Mexico, Guatemala, Costa Rica, Nicaragua, Honduras, Salvador, and other South American countries, it must be borne in mind that the vessels are by no means modern. Many of them are old wooden vessels and ironclads, and are of little or no use in time of war. Many of the vessels are only used for training purposes, and are not fit for service. Secretary Whitney is doing all he can to improve the service and recommends in his report that the following vessels be built: Two armored vessels of 6,000 tons each, two armored vessels of 4,500 tons each, two armored vessels of 3,000 tons each, two armored vessels of 2,000 tons each, two armored vessels of 1,500 tons each, two armored vessels of 1,000 tons each, two armored vessels of 500 tons
