The weather this week has been very favorable for saving fodder.

The town commissioners have levied a tax of \$35 on dealers in various and sundry goods.

Nights are quite cool, but the sun shines hot during the day, and consequently colds are prevalent.

When you go to Durham call at the store of Mr. S. R. Perry where you can get almost anything you need, and at the lowest prices. Read his "ad."

The Durham Furniture Co., as will be seen from their "ad." in another column, keep on hand a large and complete stock of all kinds of furniture, and the prices are very reasonable.

Mr. Spence Taylor, of this place, has been appointed a deputy collector in the internal revenue service for the counties of Chatham, Moore and Montgomery. An excellent appointment.

Miss Mollie Johnson, of Albright township, died very suddenly a few days ago. Cause of her death supposed to have been a congestive chill. She was a daughter of the late Zeno Johnson.

The North Carolina Teacher has begun its fifth volume and is a fit representative of the educational interests of the State. Its remarkable success is another proof of the energy and intelligence of its popular editor, Eugene G. Harrell, Esq.

A protracted meeting is being held at the Methodist church in this place, conducted by the pastor, Rev. R. T. Stephenson, who is assisted by Revs. A. H. Perry and James W. Clegg. Thus far not much success has rewarded their efforts.

Would call your attention to W. L. London's advertisement this week. He is receiving a large lot of reasonable goods. He is making shoes a specialty this season and has a tremendous stock on hand and coming in, from the finest hand-made to the heaviest Brogan.

The first bale of new cotton in this county, that we have heard of, was raised by Glover Arent, Esq., and sold on the 1st day of this month to Messrs. Wamble & Ginnings, at Monroeville. And by the way these enterprising merchants have moved into their new and commodious store, and expect to do a large business.

Would call the men and boys' attention to the splendid stocks of Cassimeres, Jeans and Kersseys now coming in at London's. Ask to see the Leaksville goods, the prettiest and the best for the money. He also has a nice lot of Sack Flannels made at Leaksville, N. C. Buy goods made in your own State and you will get better goods for your money.

Mr. Thomas C. Dixon, of Albright township, has presented the Record with the largest letter that we have ever seen. It weighs 144 ounces and measures around 14 1/2 inches one way and 13 1/2 inches the other way. It was grown on a tree in Mr. Dixon's yard, and he says that there are a dozen more specimens on it nearly as large as this one.

J. J. Thomas & Co.—It affords us much personal pleasure, as it is also gratifying to our county pride, to publish the "Announcement" in another column of the new fruit of J. J. Thomas & Co. Mr. Thompson is one of our many Chatham boys who have contributed so much to the building up of Raleigh, and his success is another proof of what intelligent energy and steady application to business can accomplish. For several years past he has been the bookkeeper and confidential clerk of Capt. Thomas, who is the leading cotton dealer of Raleigh, and the fact that Capt. Thomas has now taken him into co-partnership is sufficient proof of Mr. Thompson's high standing as a business man, and is itself a compliment of which he is justly proud. Another reason why this firm should be popular in Chatham, is the fact that our esteemed countyman, Mr. M. T. Williams, is one of its chief clerks.

COLORS CELEBRATION.—Last Friday was a day that will long be remembered by the colored people of this community, for on that day the corner stone of the new A. M. E. church was laid in grand style. A large crowd was present and all seemed to enjoy the occasion to the utmost. A brass band from Sanford greatly enlivened the delighted hearers, and the booming of the old cannon (which was fired several times in honor of the occasion) aroused their enthusiasm to the highest pitch. It is not often the corner stone of a church is laid amid the booming of cannon and the music of a brass band! Colored masons from Raleigh and Haywood took part in the ceremonies, and were the first ever seen here. But the most conspicuous characters of the day were the gaily decorated marshals, as they proudly dashed about on their prancing steeds. The church, when completed, will be one of the largest and most costly churches in this county.

DWELLING BURN.—On last Tuesday afternoon the usual quiet of our town was disturbed by the alarming cry of "fire," and the ringing of the church bells increased the excitement, and quickly everybody was running to the scene of the fire, which proved to be the dwelling of Capt. John W. Taylor, about three-fourths of a mile from town. But before help could arrive the house was wrapped in flames and was soon destroyed with nearly all its contents. All the out-buildings, however, were saved, though it was hard work. Too much credit cannot be given those men, both white and black, who worked so hard in fighting the fire. The dwelling was quite a large and comfortable one, and we much regret to hear there was no insurance. The fire originated in the cook room, probably from a defective flue.

A CHATHAM INVENTION.—One of the most important and useful inventions of this century was the Fan Belows, which is used in propelling air into mines and for various other purposes, and we never knew until a few days ago that it was the invention of a citizen of Chatham. And yet such is the case, the inventor having been the late Jesse Dixon, who was born and reared in Albright township, and died there in 1873 in the ninetieth year of his age. His nephew, Mr. Thomas C. Dixon, showed us on last Monday the original letters patent that were issued to Mr. Dixon for the invention. It is a parchment yellow with age, dated June 11th, 1827, and is signed by John Quincy Adams, President, Henry Clay, Secretary of State, and William Wirt, Attorney-General. These signatures are very plainly written and are as legible as if made only a few months ago. Mr. Dixon made a model of his invention in brass and sent it to Washington City by one of his neighbors (Joseph Marshall) in a one-horse wagon. At that time (1827) Hon. John Long, of Randolph county, was a member of Congress and he accompanied Mr. Marshall on his journey to Washington, traveling all the way in the one-horse wagon. What would a Congressman now think if he had to travel to Washington in a one-horse wagon!

Mr. Dixon made no money out of his great invention, which ought to have been a fortune to him. His patent was for only fourteen years, and, as at the expiration of that period he did not have it renewed, any person could have a belows made like his invention.

THE DEAD ATIVE.

Chicago, Sept. 6.—A Times correspondent says: Several years ago Martin Polk robbed the State treasury of Tennessee of several hundred thousand dollars while serving as State treasurer. He fled but was subsequently arrested and returned to Nashville. In due time he was reported to have sickened and died. His body was shipped from Nashville to Bolivar, Tennessee, where it was buried. Now comes news that one Gambale, a prominent citizen of Anniston, Ala., has just returned home from an extended visit in the city of Mexico, and while there he met Polk on the street and talked with him. He made further investigations and found Polk in business in that city. The affair has created no little excitement in this part of the State. Gambale was well acquainted with Polk while he was treasurer of this State.

Crudity to Mules.

From the Charlotte Home Democrat. "There are at least one hundred and fifty mules brought into and sold in Mecklenburg county yearly. Think of it! Don't you know fifty mules ought to be more than supply the wear and tear of the mules in this county? This is proof to our mind that we kill by hard work, bad treatment, and starvation, one hundred head of mules every year. We know one man whose mules are always poor, back and shoulders sore. This man buys all his feed, is always hard up and in a strain, and can't get credit for five dollars. We know another man whose mules are always fat, never scoured up, and he never buys any feed, and can get credit for any amount desired. One of these friends is poor, lives hard and has no friends.

The other is well off, lives well, and everybody is his friend. One is never in a strain, the other is always in a strain. One is happy, the other is miserable. One is the builder of his own fortune, the other is the wrecker of his fortune. How can any man get along, how can any man expect the Lord to prosper him in his business who is so cruel to his stock and so reckless of his own interest? The law ought to be enforced against every man who mistreats or abuses his stock. Who will put the ball in motion? If men were made to take care of their mules and horses in this county, it would be a clear saving in dollars and cents yearly to the county, or rather to the people of the county, of at least fifteen thousand dollars yearly. How can we help being poor so long as we kill up our stock, buy all our home supplies from the north, and don't raise enough on the farms to foot the bills made during the year? Ought we not to be poor, and do we deserve any better fate? We saw nine mules in town Saturday, and the owners of each ought to be indicted, convicted and punished for cruel and inhuman treatment to animals, and we have no doubt there are two hundred such cases in the county. Poverty and hard times will always follow in the wake of such.

A Theatre Burned.

LONDON, Sept. 5.—The theatre at Exeter took fire this evening during the performance of the Romya Rye. The occupants of the pit, after an awful struggle, escaped, but many of them were greatly injured.

There was only one exit from the gallery, and the rush there was terrific. Scores were trodden under foot and suffocated. A fire escape was brought to the window, and many inside were rescued. Sixty corpses have been removed. The injured survivors were sent to the hospitals.

A Town Afflicted.

LOCKPORT, Pa., Sept. 2.—This town is suffering from an epidemic of black diphtheria. Out of a population of 2,000 people nearly half are down with the disease, and 13 deaths have occurred within the past five days. The victims are seized with black vomit and usually die in two or three days. An old viaduct, which formed a part of State canal, was destroyed by dynamite, leaving stagnant pools of water which, it is believed, caused the epidemic.

Collections of Internal Revenue for July last were \$10,097,879, being \$361,411 more than the receipts during the same month of last year. There was a decrease of \$178,540 in collections on spirits; an increase of \$312,700 on tobacco, \$204,727 on fermented liquors, and a decrease of \$3,296 on miscellaneous objects.

The Signboard, published at Dunn's in Hargett county, says there are forty marriageable young men in the corporate limits of that town with only one marriageable young lady.

At Flemingsburg, Kentucky, on Friday night, a negro who committed an assault upon a young lady was taken from the jail by one hundred masked men and langed.

A brakeman, named Nordaby, leaped from his train into the Housatonic river and rescued a lady from drowning.

The steamer Avalon, of the Maryland fleet, was destroyed by fire Sunday night.

Some of our most prominent citizens have been cured of chronic rheumatism by that wonderful pain-killer, Salvation Oil. Price 25 cents.

"Why, Jones, what a hoarse you have in your throat!" "Yes, I raised it from a cold!" in my head. I've too much fire stock! "Well, like cure like, Dr. Bull's Cough Syrup will cure you. The Bull will quickly scare the hoarse away."
