From over the hills, with a breath of flame. From over the hills old Jack Frost came. Came so softly that nobedy knew,

Till the land a beaut ful picture erew The eim leaves turned to a golden brown. Each willow was decked with a golden crown.

The thistle down broke from its prison cell, And the nuts from their clinging burrs as

The maples flamed on the green hillside. As over t'e hills, with a breath of flame, Old Jack Frost, the recking, came. —E and S. Thomas to Frank fraction.

THE LOST WILL.

About 20 years ago there died in married, and his eccentricities made his name a fam list one in several counties. again he would have his house crowded question of which it was interested every with his relatives. While fa her and relative. mother were dead, he had three every sa riffice to please him.

man's composition withit. I think he knew the woman by sight, I could get but when I took held at her hand them removed that all his relatives experted no trace of her. A nobber could not make fluit er of the epolis. A bolt of a slice of his wealth, and he intended have hitder his trait more successfully. lightning Lad killed one of the horses that each one should have it, but he Wasn I found that the hual was to be and the man, but the woman had only preposed to make them execute as far as executed, I notified every sheriff in they could. If he know that his brother that part of the state. I get out e reu-James was planting can, and in a largand sent them to town marshals, great hurry to get through, he would contables, postmaters, and farmers, send to him and insist that he hunt or but no good resulted. fish or go looking over the country for Taes, one day, I sat down to put some plant or root moded for sickness, myself in her place. For all I knew If his brother Heavy was extra busy in them she was with the old man when he and milk and vegatable.

U cle Tom, as everybody called him, tees. He had male a will, as boiled over with indignation. He sent supply of water for the engine. for his lawyer to come and make a new will, and the lawyer, of course, brought on y a few days in ascertaining that the old one. He saw this laid on the Mr. Tha cher, dressed in her best, did clock she'f, and it was lying there when cattrely completed that day. Martin paid her fare and was carried to Cin said he might want to make some other changes, and so he did. His mater Macwho was an old mail, was with him that day, and after the lawyer had gone of the well to receiver a lost backet. She would make her keep clear of the he was timble and afraid, and the result she need not expect a dollar.

Nor was this all. Having got his hand in, as it were, the old man went for another trother, and force! a supcut the three persons off with a legacy. of \$100 each. He signed the new will and placed it with the others, say no be would keep both for a few days and see order to show his contempt for his relatives, he sent for a weman name: That cher to keep house for him. This woman was a willim, about 43 years old, and was looked upon as half erary and the other half foolish. She was employed in the village of Landy work. Martin, gave out that he would more than once that not one of his rela tives should ever get a dollar of his

One night, two months after the her to another fearling hour. W. Thatcher women went to keep house for him, he get a bad fall while bringing but she had changed agai, and no one

many months afterward. The old old man was found dead in his bed, the

were missing. With all that money at course, and the relatives gave me the case to work up. No one knew, until southern Ohio a queer old character Loverhauled the asker in the fireplace, named Thomas Matts. He was never that anything had been burned. I least one of the wills had been do-He lived in a little log hou e on a farm stroy d. So far as I could tell, both about four miles from a village, and might have been borned at the same

It seems I curious why Mrs. Tastcher brothers and four sisters living, and in had gone away, and still more curiou the same county. One day he might that she had examped observation. As meet one of them and hand him a #20 no one had met her in the village or on gold place. The very next day he the highway, it must be concluded that would pass the same person by servicent she had reasons for history. If one of speaking. As he was worth about the wills had been preserved, she prob. and burning, while one horse by stone \$200,000, all made by the sale of oil abity knew of its whereabouts, as the dead and the ct or was plunging about wells found on his lands in Penasy vie whole cabinet had been hunted over On one sole of the warming the body nis, and as his relatives were at poor, and ever again without bringing it to of a woman, on the other tide that of a note of them fare I offend him. If he light. My first step, therefore, was to man. I leaped out and accured my treated them coldly they put up with discover her, but when a farty sharp horse, and the mon was the first apit; if he invisted on a me family stay man pits him of against a half idea he preached. He elethes were on fire ing with him for a week they made may be beaun. I make a cir. at to over his breat, and he have an direct therty in the around on horseback, and, let'd. One glamer satisfied me that he There was a ayer of humor in the old while I may a hundred people who was dead. The woman lay in a heap,

his saw mill the local man was sure to died, and it might have been her hand send up a message to him to come down which held one of the wills to the and take a witch hazel rod and go flone. Just who should fly and wand-ring over the hills to locate hide herself when not guilty of anymetals. There was only one had in the thing was a purz'o. So for as we could house, and yet the old man would in determine she had taken nothing. One sist that a famile of eight come and day Mortin had gone with her to the visit him and sleep where they could, bank and drawn out and presented to Twice a year he killed a lamb. The her the sun of \$300. This she had rest of the time he lived on pulding taken, at was her right; but the few and assume charge of things, and then delars he had in his poe'cot were there drove back to the city with me prisoner. when we searched the deal body. I On the way in she fully expanied was over 70 years of ago when I first had not thought to overhand her wards everything. When Ma tin found him knew him, and it must have seem dito gade, but when I came to do so I got a self about to die he told her his relatives that his mended to live to pointer. Saw had dressed berse'f in to burn the old with. In her bean hundred. As the years went by her best, and gone without taking even nervousness, and being unable to he really seemed to improve, and it was a hand sa'chel. Her best was a black real, she burned the wrong one a cold day when he couldn't think of silk, a fine rel viawi, a faviroushte. When he discovered this he be ated hesome new trick to play on these who bonnet, and fine shoes. Sie would not in as fere ble language as he could call sexiously waited for him to turn up his only look very much like a lafy, but she up-indeed, he fell back and did was you I not set out for a walk across the wet while carning her. Ferring that she known in a certain law office, dividing for dwor along the multily highway. She had committed some awful crime, and up his wealth pro rate, but one day would take the train at the nearest hoping that if she carried the other something eccurred to determine him to point, of course, and that happened to decument off with her she might except revoke it. He had sent for his brother be at a station not overthing rods from all councernees, sie dressed her eff. Henry and family to come to him at the old man's cabin and on his land, took the paper and her money, and once. Henry was sawing lumber on a Presight and accommodation trains walked ever and boarded the train. contract, one of the children was ailing stopped there always for water, and the and he returned word that he could not regular passenger trains sometimes. For come. This was the first time he had instance, the express for Cacinnati fair and just under the circumstances, the messenger returned the old man would at this c unity station to get a

actually board the express that night as he went awar. The new will was not it stopped for a moment, and that she cionati. She had four weeks the star of me, but I had strong hopes of find ing her. I seas nell that the fact her being simple-minded and Martin wanted to lower her down in of never having travelled much tels. She doubtless femed she would was that she was ordered to pack up be barred for the old man's death, and and leave, and was told plainly that a searc's made for her. In that case she would hide herself. I had m mind made up when I reached Cincin nati to look for her among the board as heuses, and look I disk. After a vain search of a week I got one of the regufar detective, and is another week we got track of her. In going into the city she had entered into conversation with a fellow-passenger, and he had recommended her to a boarding house kept by his aunt. The, g va com at the house, but soon caw that she was queer. The situation sharpened her wits; and she claimed to by a Mrs Rise of Chic go, who had come to search out relatives. As she never wen out received no let us and employed no a sixtance he story was not believed. and she was an about of wonder to the she one day paid her bill and walke

off but one of the board to followed

He had to be helped knew where she was. It took us three to bed, but only a portion days to locate her again, and this time of what followed was known for we were too late by an heur only.

In making her second charge M s man felt that his last hour had came. That cher had gone to a boarding house and he got rid of her for a few minutes | kept by a woman who had a brother on by sending her out to the bara. Which a farm. He suppled her with vegetowill be meant to burn no one will ov r bles, and as he came in one day Mr. know, but he got up and burned one of Thatcher saw him, and at o ce decided were duly scaled and to go out to his farm. She arranged for attested, and both were equally good in her board, bought herself a chary dress law. That he did burn one of them or two, and the pair had been gone was sur . Thirty hours later some one ab ut an hour or two when we rang that happened to visit the cabin, and the bell. The detective was busy on another case and decided that he could not go woman had disappeared, and the wills with me. I therefore got a horse and buggy and drove off alone. It was state there was great excitement, of about 3 o'clock in the afternoon of a June day, and I was hard y clear of the city when I neticed that a thursder storm was coming up from the direction in which I was hearted. I drave fast, found scraps of paper, proving that at hoping to make the ten miles before I was cought, but when seven miles from the city the storm broke. The only shelter I could secure was an old wagon sometimes he was alone for mouths, and time. to e had been, anyhow, and the shed, but while the thunder and light ning were severe, but little rain fell.

In the half hour I was under the shed the lightning struck near my three times, and I was greatly relieved when the storm passed on. I drove fo ward for about a mile, and then sublenty erm upon a curious sight in the high way. A farmer's wagon was smoking been stunned. My first move was just what are physican would have so on mended. Thosen dathe coller at her throat to give he Imgs a chases to play. As the collar flow open a paper was displayed. I tend of for it, an I one look told me that it was the last will

and to tament of Jones Martin. Thatcher, but I should never here known her, dressed awahe was She came to while I was releasing the plung. ing horse and putting out the fire in the wagon. The accident had come about as I supposed, and in half an how she was quite herself again. I went to the n-arest farmer, got him to come back

Under the will I had recovered all the relatives shared alice, which was less than a month after her arrival --

World's Telegraph-Telephone Lines.

The total leag h of the telegraph lines of the world amounts to 557.011 Europe, 216, 190, America, 163,642; Asia, 46 8 D. Australia, 24, 214, and Africa, 12 061 miles. There ase to be added 950 submarine califet, 774 of which are laid in European seas, and have a total length of 3200 miles while the remaining 176, with a length of cable of \$5.850 miles, belong to companies. The respice of these lines recurried out by 160,000 offices.
