

WORM FARM AND GARDEN.

RAISE MORE MUTTON.

This is what we have urged for years—that farmers should raise and also eat more mutton, and so we agree with Colonel F. D. Curtis when he says, in his sermonette style, that every farmer should have a flock of sheep.

THE FATTENING.

The character of the plant in the best feeding and fattening for the apple in the spring and early summer, when the latter is out of season.

HOW TO FEED APPLES.

From food your horse's disposition will be, your first best his power to retain the capacity of the lungs. Unless these are sound and elastic, the best feed will not avail him.

KEEP YOUR FEET.

Sometimes milk has a "sour" odor and the cause is little understood. Cow-drink large quantities of water and no half of it passes through the kidneys.

WATER TO THE WISE.

It is a good idea to have a good supply of water in the house, and to have it running in the kitchen, and to have it running in the kitchen, and to have it running in the kitchen.

PHILADELPHIA PARKS.

Philadelphia has seven parks, with an average acreage of 288.5 acres each. Of this, 177,700 acres were donated, the remainder originally cost \$17,507,522.

HOW CUSTER FELL.

Vivid Account of the Dashing General's Final Charge.

Last Desperate Rally Again Sitting Bull's Cohorts.

Capt. Charles King's article in Harper on "Custer's Last Battle" has this thrilling account of the general's death: Never realizing, as I believe, the fearful odds against him, believing that he would find the village upon the rim, and that between himself and Reno he could double them off.

Round the bluff he suddenly found himself face to face with the ranks of the bold and most skilful warriors of the prairie. He had hoped to charge at once into the heart of the village, to hear the others of the warriors from the south.

The fire was not heavy. In the front line and in the rear, the warriors were following and firing all about him. And then it was that Custer, the hero of a hundred battles, seemed to have melted away, and his horse to have disappeared.

Form a line, he reached higher ground, after a few moments, far as they could see, charging, swinging, yelling like heroes, and all the time keeping up his furious fire, which thousands of the mounted Sioux, mounted in front of him, had been firing at.

Every instant the deadly arrows and bullets were falling every instant some more fell to the dust. At the moment that Custer, in the center of the battle, was killed, the warriors were still firing at him.

Early in the morning, the general and his staff were in the saddle, and the general was in the saddle, and the general was in the saddle, and the general was in the saddle.

Artificial Iron Success. For many years, artificial iron has been made in England, France, and the United States, and it is now being made in the United States.

Decay of Stone Pavements in Europe. A disastrous decay has recently been observed in the stone pavements of several of the principal cities in Europe.

Good Society. The extremes of individualism seem to be a social evil, and out of their manifold differences is produced the perfection of a race.

No Sunday Street Cars in Toronto. Toronto, Canada, a city of nearly 200,000 inhabitants, has no street cars running on Sundays.

QUAINT AND CURIOUS.

One of the highest students at Cambridge, England, is blind.

An immense double watermelon attracts attention in a Georgia grocery. Kansas has more miles of railroad than all the New England States put together.

A hungry horse tied in front of a store in Norristown, Penn., devoured a box full of straw bales.

In England they look upon strawberries very much as Americans do on figs of gold. The "strawberries" sell them for about \$2 a pound.

It is estimated that from 20,000,000 to 30,000,000 lbs. are born into the world every year. This is at the rate of about seventy a minute.

Asafetida is a vegetable, not an animal product. It is prepared from the roots of a plant extensively grown in Persia, Behlostan and Afghanistan.

The first strike in the city of New York in 1862, when a number of sailors struck for an advance in wages.

There is said to be a striking similarity between the sign language of deaf mutes and that in vogue among the Indians of North and South America.

The collection at Tremont Temple Baptist Church in Boston, Mass., during the last week of the year, 1895, was \$14,000.

There is a report from London, and others are believed to be true, that last year the world's output of iron was 10,000,000 tons.

A Mason's creed can be a foreigner's. A child with a masonic signet ring was found in a box of soap.

A postage stamp was recently found on a Chinese paper, and its value was estimated at \$100,000.

Count de Lessip's bill for the first year of the Emperor of Russia was \$1,000,000.

The first bank was established at Venice about 1184, and the first bank in the United States was established in 1791.

For those interested in who want to know how to make a fortune, the best way is to invest in the stock market.

Necessity of Sleep. It is a common saying that there is no such thing as a free lunch, and this is true.

TURPENTINE AND ROBIN.

The Long Leaved-Pines of Carolina furnish both products.

Shaw's Ridge, sixty miles southwest of Raleigh, N. C., is the home of the long-leaved pine. From this sort of pine resin and turpentine are made.

The turpentine is a noticeable slender tree, when a foot in diameter, rises forty or fifty feet without a branch.

Above the first branch it may grow twenty feet or more, leaving a cone-shaped top. The leaves grow in a great cluster on the end of the branches, and are from a foot to a foot and a half long.

October the various land-owners need for the purpose of tapping the pines. In the trunk of the tree near the ground a gash is cut a foot or more in width, six or seven inches high and four or five inches deep.

Usually a man can cut 100 boxes a day, and the gashes are called. Naturally as spring comes on the sap begins to flow up the pipes of the tree, and the cut bleeds freely.

During the first week of April, generally, the first tapping is made for the purpose of tapping the pines. The gathering of the sap begins in May, and continues until the first of October.

After the first of October the sap is carried on the first of the fall. At this time the sap is carried on the first of the fall.

It is a common saying that there is no such thing as a free lunch, and this is true.

It is a common saying that there is no such thing as a free lunch, and this is true.

IT WAS BEN JOHNSON, WE BELIEVE, WHO, WHEN ASKED MALLOCK'S QUESTION, "IS LIFE WORTH LIVING?" REPLIED "THAT DEPENDS UPON THE LIVER."

The liver active—quick—life rosy, everything bright, mountains of trouble melt like mountains of snow.

The liver sluggish—life dull, everything blue, molehills of worry rise into mountains of anxiety, and as a result—sick headache, dizziness, constipation.

Two ways are open. Cure permanently, or relieve temporarily. Take a pill and suffer, or take a pill and get well. Shock the system by an overdose, or coax it by a mild, pleasant way.

Dr. Pierce's Pleasant Pellets are the mild means. They work effectively, without pain, and leave the system strong. One, little, sugar-coated pellet is enough, although a whole vial costs but 25 cents.

Mild, gentle, soothing and healing is Dr. Sage's Catarrh Remedy. Only 50 cents.

PISO'S CURE FOR CONSUMPTION.

We offer you a really noble medicine for Coughs, Bronchitis and other diseases of the Throat and Lungs. Like other so-called Patent Medicines, it is well advertised, and having merit it has attained to a wide sale.

Why not just as good as though costing fifty cents a dollar for a prescription and an equal span to level it up to a drug store?

Here It Is!

Want to know all about a Horse? Here is the book you want. It is a complete and up-to-date book on the horse, and is the best book on the horse that has ever been published.

BOOK PUB. HOUSE.

The Wonderful JUBURG Chair, a new and improved chair, and is the best chair that has ever been published.

THE CALIGRAPH IS THE BEST TYPE-WRITER.
