The Chatham Record

THURSDAY, DECEMBER 1, 1892.

LOCAL RECORDS.

—Dogwood, persimmon and hickory timber wanted at the Pittsboro' Shuttle Mill.

—A second hand two-horse wagon and one-horse wagon for sale cheap by B. Nooe, Jr.

—For monuments and tombstones call on Robert I. Rogers & Co., or write for price list and designs, Durham, N. C.

—5000 Bushels Cotton Seed wanted by O. S Poe & Son within the next fifteen days. Will pay 15c. cash, or 17½c. in trade.

—5,000 bushels of cotton seed wanted by Bynum & Headen, for which they will pay 15 cents in currency or 17½ cents in trade.

—There were twelve marriage licenses issued in this county during November—eight to whites and four to blacks. During December there will be many more.

—Christmas Goodies. Bynum & Headen have received raisins, citron, currants, prunes, figs, apples, buckwheat, oat meal, cocoanuts, nuts, mince meat; also, celluloid starch, &c. Call and get your supplies.

—Dr. W. H. Edwards, of Wake Forest, will visit Pittsboro' on Monday, Tuesday and Wednesday following the third Sunday in every month, and will be prepared to do any kind of dental work: office with Chapin & Headen.

—The annual season has again arrived for killing "the biggest hog", and the Record is ready to publish all returns. Mr. Richard Riddle, of this township, heads the list with a "pig" that he killed last week weighing 420 pounds. Next!

—You will find the largest and cheapest stock of shoes in the county at W. L. London & Son's and they are selling them very low for cash. A splendid line of Cassimeres, Jeans and Kerseys. They have a large stock of Blankets, white and colored.

—And so the comet did not destroy the world, on last Sunday night, as some timid and sensational persons seemed to fear. At this place the sky was cloudy and no star, comet or other heavenly body could be seen, greatly to the disappointment of many who expected a brilliant meteoric display.

—One feature about W. L. London & Son's Holiday stock is that there is something for everybody. Something for everybody's purse. The variety they show makes the selection of gifts easy, and you can confidently count on getting just exactly what you want for very little money.

—Some of the young ladies and gentlemen of this place are preparing to give a public entertainment during the Christmas holidays, for the purpose of raising money to help buy the stone for Chatham county to place in the proposed Confederate monument at Raleigh. It is proposed for every county in the State to have a block in that monument, and of course Chatham must have one in memory of her dead heroes.

CHRISTIAN CONFERENCE.—The North Carolina and Virginia Conference of the Christian Church held its annual session last week at Apex, in Wake county, with Rev. P. H. Fleming as presiding officer. The attendance of delegates was large and the proceedings very interesting. There are eighty-two churches in this State and four in Virginia, and their membership is nearly 7,000. Several of the churches are in this county, and their members are among the very best citizens of Chatham. A new church at Lexington was admitted to the Conference, and Mr. W. C. Wicker was ordained a minister.

INSOLVENT TAX PAYERS.—In another column Sheriff Taylor publishes, as the law directs, a list of insolvent tax payers allowed in his settlement of last year's taxes. The remainder of the list will be published next week. In reading this long list (and it is a long list every year) all citizens who pay their taxes are naturally indignant that able bodied men can escape all taxation and yet enjoy all the privilege allowed by law. It does not seem right or just that any able bodied man should evade paying his proper share of the public taxes, and then vote to make other people pay taxes!

OUR COUNTY OFFICERS.—Next Monday is the time when the term of our new county officers will begin, and that is the day when they are expected to qualify and enter upon the discharge of their duties. On the same day the constables are also required to give their official bonds.

Although the Record did all it could to prevent the election of our new officers (believing that simple justice demanded the re-election of the old officers), yet as the people—the sovereigns—have decided otherwise we gracefully yield to that decision and will cheerfully aid our new county officers in any efforts that they make to advance the best interests of our good old county.

THANKSGIVING DAY.—Last Thursday being Thanksgiving Day all business was suspended at this place, the stores and offices in the courthouse all being closed, and our streets were almost deserted, resembling their appearance on Sundays. It was a beautifully bright day, but very cold, the coldest day we have ever known so early in the season. The huntsmen were out in full force, enjoying their favorite sport of shooting partridges. The only church open for religious services was the Episcopal church, and only a small congregation attended that. Some of the ladies of that church sent a Thanksgiving dinner to the inmates of the Home for the Aged and Infirm, as has been their custom for several years.

A QUICK TRIP.—On Thanksgiving Day the editor of the *Review* with his wife left Wilmington at 5 o'clock in the morning, ate dinner and spent five hours and a half here, and was at home at 11 o'clock that night. If any one, fifty years ago, had predicted that this could ever be done he would have been thought to be crazy. Years ago some of the rice planters near Wilmington would come here to spend the summers, riding in their carriages all the way, and the journey would take about five days. And now, just think of the wonderful progress of this age, you can come from Wilmington to this place, remain several hours, and return to Wilmington, all in one day!

For the RECORD.

No Money in Cotton.

ONLY AS A SURPLUS CROP.

One cannot fail to add something new to his store of knowledge if he is a constant reader of some good farm paper, for it teaches us all that one should care to know about the farm and farming affairs, and if every one would heed its sound advice concerning diversity of crops, quit wasting so much time in trying to get rich by making cotton, put more and better attention to raising corn, wheat, peas, potatoes, grasses and all grain and vegetable crops, and raise their meat at home, the cry of hard times would soon cease. The farmers would be able to put more money in their pocket, wear better clothes and wear a brighter smile on his face. But so long as we neglect our grain and grass crops and have to send to the North and West for corn, flour and bacon and pay for it out of cotton at six cents per pound we must expect to remain poor and dependent on others for help. It should not be so, if we would all look at the matter right and strive to live at home by proper economy we would in a few years surmount the difficulty and change the old song of hard times to peace, plenty and prosperity. It seems that any man of common sense ought to know that if we did not prosper when we could get 12½ to 18 cents for cotton there is no possibility of doing so now while we only get from six to seven cents for cotton. Unless we change our mode of farming and raise more grain, grasses and good stock, and raise less cotton and make it a surplus crop, we will never have any better times. This we can do, even our poor renters have a chance here to raise everything needed at home and owe nothing at the end of the crop season except rent, and rent here is a small item compared with the supply bill usually contracted or with the then merchant at the beginning of each year. It is these supply bills that plays have with the farmers. It is these bills that incense us to sell cotton at any price the merchant sees fit to offer for it right here is where the low price of cotton hurts the worst. If we make our cotton a surplus crop then the low price will not be so heavily felt. Then let us cease for a while to grumble with our government officials about hard times and unwise legislation, and turn about and lay wiser plans for ourselves and all pull together in one reformed movement and better times with more money in pocket will be the result of our efforts. We have the soil, climate and seasons here suitable and well adapted to almost every kind of crops; all kinds of grains, grasses, vegetables and fruits grow to perfection and do well here. We can make our supplies at home and when we do this, what more do we need or what should we care for the low price of cotton? But if we raise our supplies at home, raise less cotton and make it a surplus crop, we can command better prices and a small crop bring us more money than it brings us now.

We have a good many men fretting and grumbling about hard times and trying to fix the fault on some one else—generally the government—and are never willing to acknowledge their own faults and bad managements. Permit me to say to such men that they must begin to reform themselves—reform should begin always at home—follow the precepts of those whom you see and know to be more thrifty and prosperous than yourself, and you will soon see that the government has had nothing to do with our present dependent condition, and it will never grant us any free money. If we get it we will have to work for it the same as we have always done, and well earned treasures are more enjoyable than gifts.

The secret success of the farmer is in good fences, plenty of all kinds of grains and grasses, good stock of all kinds, the right kind of tools—such as the Oliver Chill Plows—with the right use made of them—such as deep plowing and good cultivation—and saving and caring for all that he grows.

P. T. WOLFE.

The great pain annihilator!—Miss Maggie W. Bradford, Estsville, Va., under recent date writes: "My father suffered from pains in his hips, a sprained wrist, &c., which were promptly cured by Salvation Oil. It is a household article with us. For aches, pains, sprains or bruises of any kind it is an excellent remedy."

The vote in California is so close that the result is not yet known.

State News.

Charlotte Observer: Chas. Ware, a white boy 12 years of age, whose home is at Mt. Holly, met with a painful and serious accident Thursday, while out hunting. He was accidentally shot in the leg, receiving both loads from a companion's gun in the calf of the leg. The wound is such a bad one that it is thought that the leg will have to be amputated.

Newton Enterprise: David Yoder whose age is 93 years and 3 months walked a mile and a half to the election at Shuford's box and there voted for Cleveland and the whole Democratic ticket. His first presidential vote was cast in 1824 for Jackson. He says he voted three times for Gen. Jackson and three times for Cleveland and has voted the Democratic ticket for 70 years and is proud of his political life.

Sanford Express: Mr. Allen Byrd, Treasurer of Harnett county was robbed of $700 a few days ago. The money was in his trunk and while he was away the thief entered his house and carried the money off. —A Third partyite of Chatham informed one of our merchants last week that every candidate on the Third party ticket had been elected except President. The poor, deluded fellows think because Chatham has been captured by the Gideonites that they have swept the whole country.

Monroe Enquirer: Johnny Huey, aged about 6 years, the youngest son of Mr. James C. Huey, was smothered to death in a pile of cotton seed. The hands on the place were engaged in hauling corn and when they left the lot with the wagon he was playing on the pile of seed. When they returned, not seeing him anywhere they began searching for him and found him in the pile of seed, dead. It is supposed that he had dug a hole in the pile of seed and that they had toppled over on him.

Wilmington Star: Information was received by the Star yesterday that Archie McPhatter, colored, concerned in the murder of deputy sheriff Livingston, of Richmond county, was captured yesterday morning by a colored man named Marshall Maxwell, near Moss Neck, in Robeson county. The prisoner was lodged in jail at Lumberton and will be sent to Rockingham, Richmond county. He is badly wounded by gunshots in the shoulder, hands and legs, and when found was unable to walk. The wounds were inflicted by the sheriff's posse in Richmond, who were trying to arrest him.

Raleigh Carolinian: There is no lack of applicants for the postoffice here. It is a good office, worth about $4,000 a year, and whoever gets it will be in luck. The names most frequently suggested in connection with the office are S. A. Ashe, N. B. Broughton, Chas. M. Busbee, B. R. Lacy, G. E. Leach, A. M. Powell and W. C. Stronach. We print them in alphabetical order. There may be others, but these are the names most talked about. It is rumored that Bunn will back Stronach; Vance will back Busbee and Busbee's friends hope that Ransom will join Vance in favoring him. It bids fair to be an interesting contest.

Washington Messenger: We are exceedingly sorry to learn that Mrs. Nolan, wife of Capt. James Nolan, superintendent at Carolina Beach was probably fatally burned last Saturday about one o'clock. Her dress caught fire while she was burning grass and brush in the back of her garden. Mr. Winner saw her running towards the beach with her clothing in flames, and he ran to her and put the fire out, but not until she had suffered terrible injuries. —Dr. W. W. Lane returned last night from New York with Miss Edith Fulford, the young lady who a few months ago, got the scalp torn from her head by the machinery at the Industrial Works in this city. Some kind young ladies of this city raised some money to have an operation performed on this unfortunate girl's head, and Dr. Lane took her to Roosevelt Hospital, where the operation was skillfully performed. The surgeons engrafted skin over her scalp, and when she combs her hair over the wound it can hardly be noticed. The hair will, however, never grow where the scalp was torn off.

Shelby Review: Last Tuesday evening in Cleveland county at the home of his father, John Noland, son of William Noland, died a most horrible death from hydrophobia. About five months ago young Noland was bitten on the hand by a dog supposed to be rabid. He went to Lincolnton and applied a mad-stone to the wound. The stone adhered repeatedly and it was thought all danger was over. Some days ago Noland complained of feeling badly and difficulty in swallowing water, and Monday while attempting to drink was seized with convulsions. He begged to be taken home and while on the way was seized with convulsions on crossing every stream. On reaching home he begged his people to tie him to prevent his doing any harm. Dr. B. F. Falls was sent for, but in spite of all this skilled physician could do, Noland died the next day, after most horrible suffering. After death it was found that the unfortunate man had chewed his tongue literally to pieces. We learn that Dr. Falls says it was a typical case of genuine hydrophobia. Mr. Noland was 11 years old.

Thousands of lives are saved annually by the use of Ayer's Cherry Pectoral. In the treatment of croup and whooping cough, the Pectoral has a most marvelous effect. It allays inflammation, frees the obstructed air passages, and controls the desire to cough.

The Hotel Zinzendorf at Winston was destroyed by fire on last Wednesday night. Loss $125,000 with insurance for $100,000. It will be rebuilt as soon as practicable.
