

LOCAL RECORDS.

For sale or rent—the store house in Pittsboro known as the "old Burke corner." Apply to H. A. London.

—Mr. William J. Womble, of this township, has a saddle that he has been using for 45 years, and it is still in a good condition.

—Wanted.—25 or 30 boys and girls desiring an education at Fair View Academy, for particulars write to R. B. Lamberty, Riggsbee's Store, N. C.

—For monuments and tombstones of the latest and prettiest designs write to Robt. J. Rogers & Co., proprietors Durham Marble Works Durham, N. C.

—Mr. Hasten P. Straughan, while at Mr. W. P. Hadley's mill, on last Saturday, had a fainting spell and fell out of the mill, injuring himself quite seriously.

—Dr. John H. London, of Raleigh, will be at Pittsboro on the first Monday in every month and remain three days, prepared to do any kind of dental work.

—Why don't you subscribe for the Record and stop borrowing a copy every week? Is it because you are too stingy or too poor to pay three cents a week for it?

—Bynum & Headen still have on hand a nice line Alpaca Socks (short, medium and long), sizes 7 1/2 to 12. Great bargains offered in ladies' dress goods and straw hats.

—Messrs. H. D. Mason and Joseph B. Burk have been appointed magistrates in place of Messrs. C. S. Holloman and J. A. Alston, who were elected by the Legislature and declined to qualify.

—Mr. A. J. Bynum, of this place, has the largest cow that he has ever seen. It was weighed on the town scales, a few days ago, and weighed 1140 pounds, which is more than most horses weigh.

—The next annual meeting of the Methodist Conference of this (the Fayetteville) district will be held next week at Aberdeen, in Moore county, beginning on the 20th. Bishop Duncan is expected to attend.

—Dr. W. H. Edwards, of Wake Forest, will visit Pittsboro on Monday and Tuesday following the third Sunday in every month and will be at Moore on the following Thursday and Friday, prepared to do any kind of dental work.

—They still have at W. L. London & Son's a few suits of extra cheap clothing. These are good suits but very low prices for the cash. They are also selling straw hats at cost for cash. Come and see how cheap you can get a lady's hat at London's.

—At England's school house, in Cape Fear township, some colored people had a celebration on the fourth of July, when a general fight took place in which pistols, knives and rocks were freely used. Several negroes were wounded, three of them quite seriously.

—You can now get fresh trout ponds by ounce or pound at W. L. London & Son's. They have a full stock of nice farmers which they are selling very low for the cash. In fact you can now buy more goods for one dollar cash at W. L. London & Son's than you ever could for \$1.50.

—The cultivation of tobacco has increased considerably, of late years, in Hadley township, which used to be considered one of the poorest townships in Chatham. While taking the tax lists of that township last month, Mr. S. P. Teague ascertained that the last tobacco crop was sold for \$15,000.

—On last Saturday afternoon a violent windstorm swept through a part of this county. On Mr. A. E. Lambeth's plantation, near Lockville, considerable damage was done. A large tree fell on and crushed the dwelling of one of his tenants, and although the family were in it at the time none of them were hurt.

COMMISSIONERS MEETING.—As required by law the county commissioners met here on last Monday, for the purpose of revising the tax lists and hearing complaints about the valuation of property, of which however there were not many.

They ordered that the list tubers be paid for listing the taxables of their respective townships as follows: W. F. Vestal \$15, W. C. Mann \$15, J. A. Caviness \$17, John McCreer \$17, R. M. Goldston Items.

Goldston, N. C., July 10, 1893. Ho, for Goldston! The season has changed, and our climate is now as warm as any one can wish for. Our people are now having all the nice vegetables they can use and most besides. Mr. L. F. Paschal made the first shipment of tomatoes from Goldston (of his own raising) on July 4th, after having them so plentiful through June that they had become tired of them and had to stop or throw away. We are having more good things to eat than we deserve. What more can we ask?

Our farmers are very busy now laying by their crops and threshing their wheat. Wheat is good and threshing out well. Corn crops are very promising. Cotton is a little like its price, rather small.

People are complaining a great deal about hard times and it seems that some of them are trying to do their work with one hand and hold the other on their pocket books to keep from spending their money. No wonder that money is scarce. But notwithstanding all this, Goldston stands solid as a rock and continues to build up and grow, both in size and in business.

Mr. T. M. Pymon has a number of carpenters now at work building him a large and fine dwelling house. Mr. J. R. Bivens is building a boarding house here for the use of his school, which will open August 7th. Mr. Bivens is expecting a good school regardless of the hard times, and we believe he will have it.

Our well known township constable, Josiah Tyson, says he has never been accused of telling a lie. What if we could all say that?

Miss Josie Golden has returned home from visiting her friends at Maxton.

Miss Eva Bryant, of Jonesboro, Mr. Fred Green, of Randolph county, and Mr. P. R. Phillips, of Harper's Roads, all returned to their homes last week from visiting their friends at Goldston.

Mrs. E. A. Rives, of Winston, and Mrs. N. T. Maxwell, of Studman, are now visiting their relatives and friends in Goldston.

Another car load of beef was shipped here today for butchering purposes. Our people are neither dead nor tired of beefing.

We have not heard of any newly appointed postmasters for Goldston yet but we know Uncle Sam will not forget us.

Letter From Butler's Home.

Goldston, N. C., July 11, 1906. Editor Record.—I eagerly peruse the Record's columns every week. It is like a letter individually and collectively, from friends at home. And when it contains the "Star City Budget" it is still greater to be sure to me, that place having lately been my home. While I am fast forwarding an attachment for my present home, Goldston, I do not forget old Chatham. I shall ever hope for success for her and all her true citizens. While she is under a cloud of Third partyism, she still has many true and loyal Democrats, who will never desert the ship, and as one of their co-workers, I devoutly wish them Godspeed.

Upon the place under heaven are the breezes more invigorating, the flowers more fragrant, or the birds singing sweeter, the sun shines brighter or is friendship warmer, than among the verdant hills of Chatham.

And so, at last Chatham has begun to need the cementing and inspiring influence and presence of Marion Butler! This chamber, this "friend of the people" who was instrumental in Elisha Clegg's nomination for Governor, and who turned traitor to him; this great embodiment of all the jewels of consistency, who now abuses things that less than a year ago he praised, is called on to help cheer and encourage the forces in Chatham! Did he tell you of the good the present administration is doing? Did he tell you that it has already saved the tax-payers several million dollars in the matter of pensions alone? It is a pity that Mr. Cleveland did not hear Butler's ridicule of the extra session. Butler owes it to the people to see Mr. Cleveland at once and tell him and explain to him that this thing was all wrong. In the light of Marion Butler's superior knowledge at times, Mr. Cleveland would do less than to resign and let Butler receive the dear people!

It would do the honest, hard-working, but misguided farmers of Chatham good to see the elegance, grace and ease, and air of superiority with which Mr. Butler, in unadorned solitude, struts along the streets of Goldston. How far do you suppose his love for you would carry him with you, in this July sun, along your cloudy breezes? Yet, he can sit in his office and write calmly, and travel around and preach calmly, with his expenses paid, and it is all right, and he is doing a grand and noble work, teaching the people how poor and how bad off they are and the people are making themselves worse paying the bill.

Hurray for E. M. Keck and Henry Alfred Womack Keck, of Kinston! I congratulate my friend Jim, on this acquisition to his Democratic forces. May they both live long and prosper. About the first and last words I ever heard "Jew" Siler say were: "Hurray for Cleveland."

Very truly yours,

R. M. Patterson.

A railroad train struck a buggy containing Mrs. John Gaus and two children, at Rich's crossing, in Indiana, last Sunday. All three were killed.

State News.

Concord Times: Mr. Hark Kiser, of Forest Hill, has a cow that gives as much as 18 quarts of milk in a single milking. During the month of June she gave 130 gallons of milk, or an average of 5 gallons a day, and from this milk 41 pounds of butter was made. Where is the cow that can beat that?

Wilmington Review: Eliza Gault, a colored woman who keeps a boarding house on South Water street, has been taken into custody in the shape of an angry and three inches longer when she took from the ground a spring chicken. How that chicken ever managed to swallow the nail and never remain a mystery. As well as that of the man who feeds his chickens on nails to make them fat and heavy.

Oxford Ledger: Fred Smith, a bright, intelligent colored boy 10 or 12 years old, was a white pig some 2 months old that followed wherever he goes like a dog. Whenever the boy lays down on the grass the pig will walk up, lick him on the face and will quietly join him in a rest. If any one attempts to interfere with the boy he will show fight. The Alliance warehouse at Henderson was closed up and will not be opened again for the sale of leaf tobacco. This one by one the institutions run by the Alliance cease to exist. The third party has killed not only the Alliance, but wrecked nearly every business in which Alliance money was placed.

Charlotte Herald: Along the line of the Genicon & Gold Road in this county a valuable deposit of coal has been found. It is said to equal, if not superior to the Egypt and Missouri, indeed, one of the richest counties in the state. Its wealth is far in excess of what its most sanguine citizens can imagine. Our resources are enormous, and all that is needed to bring the county to the front is the development of its vast natural resources. Our people ought to give more encouragement to the investment of capital in their midst. Our valuable timber, mine and water powers will never amount to much until they are worked and developed. Encourage capital.

Montre Enquirer: That excellent farmer, Mr. J. B. Gentry, of Cape Fear township, was in town yesterday with a number of hams of his own raising. While in town Mr. Gentry and his wife looked at the furniture store and bought a fine suite of walnut furniture. While Mr. Gentry and his wife were calling, their produce and laying the furniture, there was another ham on our streets attracting general attention by its beautiful marbled appearance. The ham was of the Democratic party and its decorations were the business of the country, under a Democratic administration, were such that a farmer could not hope to make a living. We dare say that the farmer who was willing to be slain of Democracy did not bring any extra produce with him, nor did he cheer his good wife by buying chickens for her home. No, after the ham of his own raising, he went to the market to attend to such matters as beautifying their homes and attending to their own business.

Rockingham Herald: A bright good like has been told us on one of Rockingham's most excellent married women as follows. Some days ago, when no one was at hand to do the milking, this lady, who had been out visiting, we suppose, and had on an elegant and costly dress, having attached thereto a train, went out to do the milking with her usual. After taking her seat and having the milk pail about half full, the cow had finished milking, and seeing a part of the dress folded up and laid to one side, started to get up that. After eating, as was told, about 2 years of the train, the lady's attention was soon turned towards the object pulling away at her dress and seeing that the cow had swallowed several yards of her dress, immediately screamed, turned over the milk and frightened the cow so that she ran around the lot, carrying the lady with her. Just about the time the husband stepped in and finding the house vacant and hearing screams of distress, ran to the lot where his eye rested upon the form of his lovely wife who was dancing around with the cow. His prompt relief saved the wife of what might have been a serious accident.

A Fatal Explosion.

Lenoir, July 8.—Of the 147 persons imprisoned by an explosion yesterday in Ingram's country, 100 men, 10 women, eight men and a boy have been released. All hope for the others in the pit has been abandoned.

Bodies are being brought to the surface rapidly. Eighty eight have been recovered already. The corpses at the mouth of the pit, as they are brought up and recognized by relatives and friends, are distressing. Two men were brought up late this afternoon unconscious but breathing. Physicians at once took them to charge and they probably will recover.

Six men, imprisoned behind a huge mass of debris but unharmed, were dug out this evening. When they appeared at the mouth of the pit they were greeted in a most touching manner by relatives and friends.

No reason has been given for the explosion, but the conjecture is that it was caused by the carelessness of a miner in opening his lamp.

Killed by Lightning.

Wisconsin, July 10.—Luther and John Vignam aged respectively 41 and 43 years, were struck by lightning and killed five miles west of Winston Saturday evening. Their sister, 6 years of age, was also knocked down and badly injured. The

boys were working in a meadow with their father. Seeing a storm coming up, the father left his children, two sons and a daughter, to play under a large tree near the edge of the meadow until the rain was over. They went but just as the object came leaping up against the tree a flash of lightning came down the tree, hitting the two boys and stunning the sister.

Fatal Fire at the Fair.

Womble's Fair Grounds, Concord, N. C., July 10.—A finey constructed building, erected by the Womble Iron Company, at Concord, used for cold storage purposes and for storing milk, and situated near the 8000 South street entrance to the Exposition Grounds burned to the ground in a little over an hour this afternoon, sending to death, as far as is known at midnight, at least eighteen men and injuring nineteen others. The full extent of the death wrought may never be known, as the building collapsed totally in so short a time after the fire that many people who entered the building hoping to render aid before the peril under which they were plunging themselves was realized, were caught like rats in a trap.

Drowned in Deep River.

Greensboro, N. C., July 10.—Crisp, Murdock, a farm hand, was drowned while bathing near Lakeview yesterday in Deep River. Murdock could not swim. He got in water and took a nap. A Henry, a friend, came upon him, but was unable to help him, as he was unable to swim. The body of the unfortunate man has been recovered. He leaves a wife but no children.
