

MERRY CHRISTMAS!

Before another issue of the Record reaches its readers the joyous Christmas tide will have come and gone. Its near approach is already felt and seen on every side, and everybody is looking forward to it with feelings such as no other occasion or season inspires. It is at this season that man's better feelings and nobler impulses assert themselves, and now more than at any other time do we all realize that all the world is kin.

Hard indeed must be that heart that is not now softened and moved by the kindly feelings, which at this happy season makes us all draw nearer to each other in our common humanity. What a pity that this kindly feeling does not continue all the year—through one Christmas to another!

And old Santa Claus will soon make his annual visits, and bring joy and happiness to the hearts and homes of so many. There is probably no greater pleasure enjoyed in this world than that of the children eagerly looking forward to the visit of this mythical person, and their delight is indescribable when on Christmas morn they excitedly take from the well-filled stocking hoards of precious treasures. The very recollection of such pleasure will make the oldest wish that he were a child again.

And yet in this peaceful and innocent age there are some who would take away this great pleasure and demolish the traditional legends of dear old Santa Claus!

To each and all its readers the Record extends the greetings of this joyous season, and wishes you—ones and all—a very Merry Christmas!

The Silver bill, introduced by Senator Voorhees last week, is simply carrying out the pledge made by Congress in the repeal of the purchasing clause of the Sherman law, and should convince every one that the democratic party is in the front rank and will not desist until silver as money. This bill is of so much importance that we publish it in another column, so that our readers may fully understand it. The Voorhees bill, which was passed in the extra session of Congress, expressly pledged the government to the use and coinage of gold and silver money, and now the bill of Senator Voorhees is simply fulfilling that pledge. When Senator Voorhees, as Chairman of the Senate Finance Committee, took the lead in repealing the purchasing clause of the Sherman law he distinctly and repeatedly stated that the repeal would be followed by other and later legislation in favor of silver money. And he is now preparing to do this. We are pleased to learn that he thinks this bill will be passed in the Senate by a large majority.

This is good news for our people to receive during this happy Christmas season, and we are also pleased to state that the House committee will certainly report favorably a bill to re-establish State banks of issue. It will certainly be cheering Christmas greetings for the people of the United States to hear that at least 2,000,000 silver dollars will be coined every month and that any and every community can establish a State bank and issue all the paper money that its local needs may require.

Bishop Lyman, of the Protestant Episcopal Church, died quite suddenly at his residence in Raleigh on the 6th inst., aged 78 years. His funeral was one of the most impressive ever seen in this State, and he died the high esteem in which he was held by Christians of every creed. He was remarkably vigorous, bold, boldy and mentally, for one of his advanced age, and only a few days before his death he preached with the force and ability of one in the prime of life. He was not only devoted to the duties of his Episcopal office, but as a citizen of North Carolina he was active in the development of her resources and in the promotion of her material prosperity. His successor is Bishop Cheshire, who providentially was elected his assistant last June.

THREE new States will be admitted into the Union during the present session of Congress. They are now the territories of Arizona, New Mexico and Utah. Already the House has passed a bill, by a large majority to admit Arizona. It is thought that all three of the proposed States will be democratic, and, if so, then the admission of six new democratic senators will give the democrats a good working majority in the Sen-

ate. These three territories are just as fully entitled to be made States as were the territories that were admitted during the last republican Congress. Indeed there is much greater reason for their admission, and they would have been admitted several years ago if the republicans had not opposed their admission because they would have admitted States. Arizona has an estimated population of 225,000, equal to that of Idaho and Wyoming, while Utah has a population nearly as great as a nation, far more than the combined population of Nevada, Idaho and Wyoming.

The Voorhees Silver Bill.

The following is a copy of the bill introduced by Senator Voorhees for the coinage of silver dollars and the retirement of gold and paper money under \$100 value:

It is enacted, That whenever the amount of profit from the sale of silver bullion under the acts of February 22, 1875, and July 11, 1890, or which would result in the coinage of such bullion, shall be equal to or more than the amount of secondary weight and fineness, with full legal tender quality, at the rate of not less than 250,000,000 per month, and such amount shall be covered to the Treasury.

Section 2. That when all the silver bullion or profit and interest, specified in the first section of this act, have been covered to the Treasury, it shall be the duty of the Secretary of the Treasury to purchase each month silver bullion at the market value in quantities sufficient to meet the demand for the coinage of silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars.

Section 3. That when all the silver bullion or profit and interest, specified in the first section of this act, have been covered to the Treasury, it shall be the duty of the Secretary of the Treasury to purchase each month silver bullion at the market value in quantities sufficient to meet the demand for the coinage of silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars.

Section 4. That when all the silver bullion or profit and interest, specified in the first section of this act, have been covered to the Treasury, it shall be the duty of the Secretary of the Treasury to purchase each month silver bullion at the market value in quantities sufficient to meet the demand for the coinage of silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars.

Section 5. That when all the silver bullion or profit and interest, specified in the first section of this act, have been covered to the Treasury, it shall be the duty of the Secretary of the Treasury to purchase each month silver bullion at the market value in quantities sufficient to meet the demand for the coinage of silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars.

Section 6. That when all the silver bullion or profit and interest, specified in the first section of this act, have been covered to the Treasury, it shall be the duty of the Secretary of the Treasury to purchase each month silver bullion at the market value in quantities sufficient to meet the demand for the coinage of silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars.

Section 7. That when all the silver bullion or profit and interest, specified in the first section of this act, have been covered to the Treasury, it shall be the duty of the Secretary of the Treasury to purchase each month silver bullion at the market value in quantities sufficient to meet the demand for the coinage of silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars.

Section 8. That when all the silver bullion or profit and interest, specified in the first section of this act, have been covered to the Treasury, it shall be the duty of the Secretary of the Treasury to purchase each month silver bullion at the market value in quantities sufficient to meet the demand for the coinage of silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars.

Section 9. That when all the silver bullion or profit and interest, specified in the first section of this act, have been covered to the Treasury, it shall be the duty of the Secretary of the Treasury to purchase each month silver bullion at the market value in quantities sufficient to meet the demand for the coinage of silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars.

Section 10. That when all the silver bullion or profit and interest, specified in the first section of this act, have been covered to the Treasury, it shall be the duty of the Secretary of the Treasury to purchase each month silver bullion at the market value in quantities sufficient to meet the demand for the coinage of silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars.

Section 11. That when all the silver bullion or profit and interest, specified in the first section of this act, have been covered to the Treasury, it shall be the duty of the Secretary of the Treasury to purchase each month silver bullion at the market value in quantities sufficient to meet the demand for the coinage of silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars.

Section 12. That when all the silver bullion or profit and interest, specified in the first section of this act, have been covered to the Treasury, it shall be the duty of the Secretary of the Treasury to purchase each month silver bullion at the market value in quantities sufficient to meet the demand for the coinage of silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars.

Section 13. That when all the silver bullion or profit and interest, specified in the first section of this act, have been covered to the Treasury, it shall be the duty of the Secretary of the Treasury to purchase each month silver bullion at the market value in quantities sufficient to meet the demand for the coinage of silver dollars, and to be ready to coin the same into silver dollars, and to be ready to coin the same into silver dollars.

Bankrupt Railroads.

Some staggering figures appear in the total showing of the railroad aggregates for the year. Just now there are no more railroad receiverships in sight for 1903, so the Railway Age ventures to make up its annual annual book of rail-road work. In bankruptcy cases the record is unprecedented. Over 11 per cent of the entire mileage of the United States, representing over 12,000 miles of the entire transportation, has gone into the hands of receivers. The largest in the list of receivers is the Southern Railway, which has a total mileage of 21,287.7 miles. The second largest is the Chesapeake and Ohio, with a total mileage of 11,287.7 miles. The third largest is the Pennsylvania, with a total mileage of 11,287.7 miles.

Sad Death of Buck Jones. Washington, Dec. 18.—News of the death of General Alfred D. Jones on the steamer Florida, while en route from Shanghai to San Francisco, was received at the State Department this morning from Mr. Cooper, United States consular agent at San Francisco. Mr. Cooper said the body had been embalmed and would be shipped to Raleigh. It is the home of the deceased. General Jones had been in the United States for some time, and his death was a great loss to the country.

Christmas Tree for Charity. Assayeur PAUL S. J. Dec. 17.—The First Baptist Sunday school at Ashby Park is the first institution in town to respond to the numerous appeals for aid which come from every part of the township. In view of the annual Christmas celebration, with the customary gifts from pupils to teachers and teachers to pupils, there will be a special entertainment. The price of admission to the Christmas festival will be, for men and boys, a large potato, and for women and girls, a large apple. Of course other gifts will be received as the price of admission, but the officers have made it plain that the gifts shall be suitable for distribution among the poor.

The city of New York will pay for the lighting of its streets, avenues, parks, bridges and public buildings next year nearly \$1,000,000.

A Warning to Delinquents. An exchange says that an officer accompanied to the office of Hales for a number of days. He reported that he had seen a number of delinquents who were not paying their taxes. He said that they were very poor and that they were in a very bad way. He said that they were in a very bad way and that they were in a very bad way.

Charles Hopkins, a democrat, has been elected mayor of Chicago to fill the unexpired term of Carter Harrison.

Prof. D. H. Hill, of the Agricultural and Mechanical College at Raleigh, has been tendered the presidency of the Arkansas University.

The annual catalogue of Yale University for the 1904 year has appeared and it shows a total enrollment of 2,292 in all departments.

Capt. James N. Smith, aged about 72 years, was instantly killed by the passenger train on the Scotland Neck Branch road, last Monday, near Scotland Neck.
