

CAN it be true? Is the church "on the side of human slavery—and not on the side of liberty?" Is it possible that any man or set of men will answer this question in the affirmative?

Yes, there is such a man and apparently such a set of men right here in North Carolina.

At the recent annual meeting of the State Alliance, held at Cary, by president, Dr. Cyrus Thompson, his speech then made is reported as making the following extraordinary statement:

"THE CHURCH TODAY STANDS SIDE BY SIDE WITH SLAVERY—ON THE SIDE OF HUMAN SLAVERY—AND NOT ON THE SIDE OF LIBERTY."

So extraordinary and startling was this declaration, coming from the official head of a respectable organization, that we really thought that there must be some mistake—either Dr. Thompson had been incorrectly reported or had not stated what his words implied. But we were not mistaken. He was correctly reported and meant exactly what he said. And not only that, but the *Constitution* (the paper of Senator Marion Butler, the ex-President of the State and National Alliance) boldly endorses this extraordinary assertion. In a long editorial last week the *Constitution* says:

"We have no hesitation in saying that Dr. Thompson is right."

"We will go one step further and say that the State is on the side of slavery."

The *Record* will not attempt to take issue with a statement of this nature—stands on the side of human slavery and not on the side of liberty—we would not insult our readers by such a discussion any more than we would discuss the character of a God!

The *Biblical Recorder*, in commenting on this sensational assertion of Dr. Thompson, says that "he is too poorly informed, too quick to speak too reckless of statement, not to say too ungodly, to lead any respectable body of men." And then the *Recorder* goes on to say very emphatically:

"The statement is not true. We can speak for the Baptist church, and we are prepared to show that it is the strongest friend and the greatest advocate of freedom."

So here is the *Constitution* endorsing this extraordinary statement of the President of the State Alliance and pronouncing it true, and here is the *Biblical Recorder* denouncing him and declaring his statements not true. Can any Christian man, whether he be an Alliance man, Baptist or any other good fellow, hesitate in deciding which is right?

And yet there are some who are prejudiced that they will not denounce the *Record* and its enemies of the Alliance.

And by-the-way we have heard of a single individual in the paper condemning this slanderous charge against the church.

The Roster of North Carolina troops prepared by Major Moore and published in 1881, is very imperfect, as has heretofore been stated by the *Record* and as acknowledged by Major Moore himself, who did the best he could. We are pleased to see in last Sunday's *Chatham* a communication from Major W. A. Graham calling attention to this, and suggesting "that a full and complete list be prepared by some survivor who would be able to make a full and complete list of the names that were omitted in the company, and that the next Legislature be requested to publish a full roster." We heartily favor this suggestion, but we fear that it will not be carried out. It would be a plan if every county could have a man that which the *Record* is publishing for Chatham, and that the publication of a full and complete list (by companies) of soldiers who federate soldiers from the county. We find it very interesting indeed taking, but we intend to accomplish it, even if Chatham shall be the only county in which such a work is done.

Is last week's issue of the *Record*, published at Plymouth, is a very interesting "write-up" of the town of Roper, in Washington county, of whose existence very few of our readers were aware. This town is only ten years old and yet has a population now of 1600 and does an immense business in lumber. It was built and employing about 850 men.

A silver convention is called to meet at Raleigh on the 25th day of this month, and, although the call is signed only by democrats, the invitation is intended to embrace members of all political parties, regardless of their convictions on other subjects. While the published call states the proposed meeting is a "convention", yet it will be a conference or mass-meeting of all persons who wish to attend and not of duly accredited delegates. The purpose of the meeting presented in the call is to "discuss" the "silver question" and to "organize" a "silver party".

What will be the democratic candidate next year? That is the question that comes to the mind of every patriotic citizen who comes to Washington, Ohio, for the purpose of attending the "convention" for a third year. It is a question that will be discussed and decided by most of the delegates. The democratic candidate for the year 1896 is a question that will be discussed and decided by most of the delegates. The democratic candidate for the year 1896 is a question that will be discussed and decided by most of the delegates.

Weekly Weather Crop Bulletin.

Central Office, Raleigh, N. C.

The reports of correspondents of the Weekly Weather Crop Bulletin, issued by the North Carolina State Weather Service, for the week ending Sunday, September 7, 1895, indicate generally a very favorable week for work and for ripening of crops. The temperature was above normal, excepting on Monday and Tuesday, with maximum temperatures as high as 80 degrees. There was abundant moisture. Local rains were reported on a few days, but the week was generally a very favorable one for the crops.
