PITTSBORO', CHATHAM CO., N. C., OCTOBER 31, 1895.

NO. 10.

The Harvest.

"Tis a blessed toil from the teening soil To garner a nation's brend. Let the farmers sing at their harvesting, For by them the world is fed. Though banks may full, and in ruin's gale

The fruitful soil is the bank of God. And its wealth no knowe can steak

When the rain and son their good work have

In the grain-fields far and wide, Lo! the reaper bands, with armed hands, Through the toppling barvests glide.

And the swatts of gold from the "cradles rolled.

Gild the soil by the scytles faid bare.

As a ridge of mist, by the smalight kissed, Gild the broader fields of air.

The binders little who follow the soythe For the treasures it crops and leaves. As with longh and song they harry along, But the happiest scene is the last, I ween,

When over the yielding leavn The last lead is borne from the fields close

For then is the "Harvest Home," O were I the lore of neres broad, With the strength my land to till, I'd follow the plow with a beaded triox, And renounce the "gray gooses-quiti. For of fields of thoughts, though with pri-

tiener-wronght. The baryest oft is sparned, But the seeded field, with a solid yield, W. R. Bannen, in the Ledger.

## LONE HAND DICK.

BY OWEN BALL

He was a outer, lonely, chap, was: Dack, though he was neither old nor Many'n fellow among us at Lulu flat would have been glad enough to chum with Dick, for he was as stendy as a file and as hardworking as they make 'em, but somehow nobody ever proposed it. There was something, I don't know what, about him that sort of choked you off before you could get alongside to do besi-

He went by the name of "Lone Hand Dick"-not that his name was Dick particularly, but, bless you! that don't matter on the flat, Somebody called him "Lone Hand" because he worked by himself and and nothing, and I rection somebody else called him. Dick because you can't go on seeing a man every day and not call him something.

Dick was one of the first, if he want't the very first, on the flat, When I got there he was fusicking there were not half a dozen more speak. And with that the girl rose within five tailes. He was friendly enough, too, - for the matter of that, Dick was always friendly. It was Dick that showed me where to get water, and laid me on to the run of the stuff when I asked him, but outands of that he wouldn't go.

Ha was a young fellow, not more than thirty anyhow; tall, active and midding strong, box. There was something about his the you couldn't help liking when you got to know it. None of your laughing, touch-and-go | Fil find him for you in the morning." fices, that don't mean anything when you do know them; no, nor yet, your nergood, but a quiet face-real quiet tom, the same steady, dogged, hope a face with a lot of meaning kind of becawork that he'd always done. drained out of it. The flat wasn't to Stokes dropped on to the st in it. So far as I could guess, Dick the trees, and dick was below us, and wick, so us to be lighted by it, is a had about his share and no more. If it might be thosty cards accev-

day, and by the middle of the next back the veil to book. I dooked at week Ludu flat was a guid field. Where her then, and I tell you I could have the requisite number of hours. The they sprung from I'm blest if I kmow, but come they did, wagons full of them, traps, coaches, bullock drays, the dark, that was. She just gave one horses and donkeys, and one or two, though they didn't hardly count, be ing off color, on camels. In a neck the flat was like a town; in a month we had two banks and were falking about a town half and a member of

It didn't suit Dick, Long before the end of the first week he had struck his tent -an uncommon onemade tracks. After a day or two I missed him. He hadn't gone very far, though, and after a bit I came across a man that had seen him workgully just about buy enough for one over the nearest range. It wasn't more than a week or two after that one day, both of her hands to him across the just as I had knocked off work, a oung chap comes up to me-a quilldriving boking chap at that and says he: "Mate, do you happen to know a chap by the name of For-

restor? They say he was on the day

"Like? Well, he ought to be like that," and he pulls out a photograph and passes it along to me.

Clooks at it. "Dick." says L. "You know him, mate?" he says,

looking at me sharp like, "Weil, mate, and suppose I did; what o' that?" for it comes into my mind about the trouble as we thought that, atranger?" sava L.

wan' to find him."

"Oa yo do," says L "Got a fortune for him, mate?"

"Well, no, not that I know of, anyhow, but there's a party come in that wants to see him -wants to see him Hooks at him. "What for?" says

for, mate?"
"Oh, you needn't be suspicious, it's

w gentleman and a body," kaya he-"Why didn't you say there was a lady before?" I says, "I might know the party, and again I mightn't, but Indies nin't common. I'll see the

buly, mute, anyhow," I went done with him, though after all I wasn't sure. It was Dick in the picture right enough, but wasn't our Diek; the picture wasn't to say a "shevyy devry" come to that, but it had been meant for Dick once,

It was after bank hours and the door was short, but he took me round by the side late the manager's office. There was a man there and a girlyes, she was only a girl, I could see that, although she had a thick will over her face. The man was a swell, "Do you know Mr. Forrester, my

"Not much," says I short. He turns round on the clerk anguily, 'He doesn't know him by that name, but he seemed to know the photograph you gave me, sir," the clerk said. The girl stirred uneasily in her real; the man turned to me leading. . You know somebody like the picture?" he

I looked at the girl; she seemed to be listening eagerly, "Well;" I mid, "I have seen somebody it might have been ment for once,"

"We want to see him."

"Yes," says 1. "What for !" The man booked at me angrily, "What for, my man, and how does gratulations. that concern you?

"Well," says I, "I don't rightly know, nor I don't know how it concerus you to see him."

The near looked at me as flores as a and took a step forward. 2005, sir, she said, in a soft, low conce that shivered a bit as she spoke. "On, air, know; I must see him!" She had clasped her two lambs together; they were small hands and very white, and they shook as sho spoke. It was for that much. "Yes, mive," says I. "It horn lanterns to prevent drought. might be the party, or again it mightn't, for he's changed if it is, but

It was a lonely spot where we found scowling, yellow-log faces that mean wight. He was working in the bot- oil, the wick being placed in a little

"There," I said, stopping short say rich, not at first anchow, trif. Jim. and pointing to him, "is that the man. mating to the very earliest form of oil your looking for, miss?"

but she had trembled so much that out he was asked, but I don't think he the man had given her his arm to help the that it does not get dark before gone on looking. Ab, that was some thing like a face a face to think on in-

her hand. 'Stay here, Oh, George!' eury. Then she went down the slope, and with a quick, smooth sort of walk, She didn't seem rightly to walk, only to go, and to go quick at that. In minute she was close to. Duck

"George," she said only the onword, "George?" The word came up to where we were standing, and I tell

Dick lifted himself from his work and stared standly round, as if he doln't rightly know what it was. Then ing by himself in a little corner of a he west her, and with that he falls back a step, like a man dazed.

"the George!" and she held heap of white clay. "Come back, George, Come back, It is all found cost They all baltieve you now. You're cheared at last eleared at last, Come back, George-back to me."

He stood for a moment or two like Cleared !! be exclumed, hoursely "Cleared! Oh, my God!" then he clutched wildly at his throat, staggered and fell-fell at her very feet

She was on her knees at his side. Il started to run down the slope, and I was at her side in helt a minute, but she didn't want me. She had raised his head and leaned it against her breast, and she would let solvedy Dick might have been in. What of touch him but herself. And there sh knell among the wet clay, helding "Come along up to the bank. We Dick in her arms, the tears running down her face and falling on his. I got a little water and poured it on his head, and at last he began to come to I bays my hand on the man's arm. "I recken, mate, you and me's not

I pulls him away. We got a eart and we moved Dick I, taking a draw of my pipe. "What to the bank, but it was another wick aforethey could move him any further. Then they left,

wanted here, not much," I says, and

It might have been a couple of months later that I got a Melbourne paper through the post. There was a mark at one side, and opposite to that an advertisement.

December I, by the Right Revered the Bishop of Melbourne, Mary, only daughter of the Hon, John Lester, of Toorak and Dungalla Station, to George Wingfield Forrester, eldest son of Albert Forcester, M. P., of Wingfield Hall, Her-fordshire, Eng-

By and by I came across another paragraph, "The fashcountle wedding that took place yesterday at Toorak had all the special interest which attaches to the last set in a very scusational drama. The circumstan ces of the celebrated Duncaille nameler trial, although new two years old are still fresh in the memory of the public. The confession of the real grammal, while it happily restores Mr. Forcest er to his friends and to society, affords a remarkable instance of the unreliability of even the strongest errounstantizi evidence. The refusal of the jury to agree upon what seemed auquestionable evidence of guiltappeared to us at the time, we confess, a lamentable failure of justice, and we said so-It affords us great pleasure now that we are able to offer both to Mr. Forrester and the public our hearty con-

### A Queer Clock.

Amount the effects of the late J. F. Davies, which are to be sold by J. S. Pitt next month, is a cur one form of about in a corner all by funcoif, and Gomer in a tight place, but he doln't might clock, which is not described in any of the histories of checkmakings and in believed to be altogether unique. Water clocks and sand clocks. are known to have preceded nore me you will tell us, I'm sure. I must chanical timepieces, and Asser attribe intes to king Alfred the Great the adoption of candle clocks, with wax candles twelve inches long, which Good Housekeeping, no harm, success, Leonbl have sworn in twenty minutes, and were put in

This clock is more modern rendering of the same idea. It consists of a light stand east in lead in the form of weamHestick on the top of a glass Dick, and not another soul was in evhipler usel as a reservoir for the projection at the bottom, very much like the Isoleith ink stands which are now in use, and, of course approxi-She band of metal, on which are marked he had precedup a fortune, mind you had said nothing as we came along, the hours from hour to twelve, and then on to five, presumably with the her. Now she seemed to pull herself four, and that by five everybody Stokes struck the deep lead on Fri- logother all in a moment as she threw ought to be up and about. The stock of oil was no doubt, calculated to last relie, presumed by the British Museum authorities to belong to the last een tury, is quite perfect and is likely to look and then a sab. "Stay here," excite a good deal of interest among she said, motioning the man back with untiquaries.—Bristol, England, Mer-

A Text of Love. This tile is told in the Orient: A lady one day found a man following her, and she asked him why he did as His rouly was, "You are very beauti ful and I am in love with you. " COB you think me beautiful, do you? than I am. Go and make love to her," On hearing this the man went to see the sister, but found she was very ugly, so he came ouck in an angra mood and asked the July why she had swered, "Why did you tell menfalse hood?" The man was surprised at this accountion and asked when he had done so. Her mover was: "You said you loved one. If that had been true, you would not have gone to take love to another woman,"

"Admiral Dot," the well-known dwarf, now runs a hotel at White Plains, N. Y.

### BHILDREN'S COLUMN.

### CHALK W. SCHIEFS

Shape pieces of chalk into super, danties the bottoms evenly, and me natches for musts and son do staffs. Mark some of the ships with black ink, and leave the others uncolored. Place the rival ships in a pracer plate, close to ma magnery time, and pour vinegar in between the forces, You will hear a sleep hissing sound like componentians, and the ships will at once move forward, leaving tracks of form in their wake. Their spread pherena and they near the divid ing line, and they come together with a crash and homps, striving to push one another out. Sometimes the but the is very exciting, the victorious side being the one with most ships ! left in the centre. The chemistry chas may be able to explain why the ships are set in motion, -Donahoe

#### DON'T SEED HIM.

Don't enuls a losy because he wear shubby elathes. When Edwar, the inventor, first entered Boston, he wore a pear of vellow lines breezhes in the depth of winters

Don't englea boy because of the ignorance of his parents. Shakspeare the world's poet, was the son of a man who was madde to write his own

Don't winds a boy because his home s plane and unpertonling. Abrohand Lincoln's early home was a los-

Dan't shub a box because he chooses humble trade. The author of the "Pilgram's Progress" was a finker.

Don't sunb a boy faces see of dull news in his lessons. Hogarth the cele brated painter and energyer was a storad buy at his lauries.

Don't suub a boy becau e he stutterm. Demosthenes, the great orator of Greece, overcame a barsh and

Don't shall a boy for any reason. Not only because he may some day containip you in the cace of life, but because it is neither hand nor right.

## WHY WAS SHEET SO TRAPPAT

I was calling on a friend the other vening, and just alopsed into the sitting-room, I heard her say to her little daughter: "It is your bettime, early, and then she will be bright for her lessons to morrow,"

The little girl was sitting in her pupa's easy chair, holding in her lay | was detailed to worm imped note the a large doll. As I sat down, I sawake confidence of Dr. Bradford, Book was very basy brashing it hair and way's assenvery exrefully, to see that everything he kept me posted on the more was just as it should be.

prefty her heir is, and how becoming captured Mrs. Smith, the woman she is dressed," I sould. The little cirl was pleased that I should notice

"Not to-night, little one," I said "Phile't I hear manama say it was ber Little girl's bedtime?"

The mother very quietly began to tall to me, while the little girl went on fixing dollie for the night. Only for a moment, however; then the little girl slid very slowly out of the bug chair, gave ber nemma three lone sweet kuses, with a pleasant goodnight for us all, and with dollie hagged tightle in her arms, went moments we heard her striging a soft little inlinky to her linky,

Very likely the little girl could not have told what made her feel like singing, but I know. It was because, instead of tretting over not being allowed to sit up longer, she had cheerfully obeyed her mother's wishes, -Child's Hour.

## A Good Impression.
