LOCAL MATTERS.

—Wanted Eggs, cash for them. Deliver at my residence, Willie Chapin.

—One of the most attractive places in Pittsboro is the fruit and confectionery store of John L. Council, agent. Call on him.

—Dr J Haughton can be found daily at his office in the Central Hotel, over the office of Womack & Hayes prepared to do all kind of dental work

—We are requested to announce that a concert will be given at the court-house tonight (Thursday) for the benefit of the colored Methodist church at this place. Seats reserved for white people.

—On last Monday night Dr. and Mrs. Chapin gave the young folks of this place a "shoot" party which was much enjoyed. Each guest represented some book, and many of the costumes were very appropriate.

—Look at the advertisement of the popular store of W. L. London & Son and see the bargains they are selling in shoes. Slight wear with the iron is but a pun when it comes to economy. Never has such a chance been offered before. 50 pair will go at a big sacrifice.

—Mr B. N. Seaton, of this place, has an order for a large quantity of oak timber for the government works at Charleston, S. C. Before filled several car loads of timber to be sent to Governor Mountme. There is an almost unlimited supply of the best oak timber in this county.

—Watch these notices and you will save money. Buy well—Sell well this week at the popular store of W. L. London & Son and you will find Low Prices and Large Sales. Just received a new line of Ladies' Shoes, worth $3 each, for $1.90. Our 50 cent counter will bring cents in any money. A few more overcoats and other garments just as cheap.

A Correct Count.—The census-taker of the good county of Rear of Deep River township are to be commended for the correct list of the county's inhabitants which he has furnished. He has evidently taken all pains to visit every house in his district and to get the number of inhabitants correct. Some people were not at home when he called, but he left cards requesting them to call at his office and give the information desired. This they did promptly, and the census-taker's list is correct to a unit. Rear of Deep River has a population of 1,200 souls.

Make Hay.—In another column is reprinted from the Country Gentleman and Cotton Planter's Manual a table of yields to the acre of various crops. We commend this table to the serious consideration of our farmers, and we do so with the more confidence because we have frequently had occasion to refer to it and to note how correctly it gives the yield of clover and other grasses. Were they would not be able to do as well as that Georgia farmer and clear $75 to the acre, yet they can certainly make more by raising the best fodder crop that is possible to be adapted to the cultivation of clover and other grasses and it is strange that the fact does not seem to be more appreciated. Hay would be a more certain crop than either cotton or corn, and is less affected by unfavorable seasons.

In preparing to plant their crops this spring we would urge our farmer friends to sow more clover and other grass seed than ever before and by a fair experience find out that hay is the most profitable crop that they can raise.
