Siler City Siftings. SILER CITY, N. C., June 28, 1898. The most interesting topic of the day is the school. Prof. S. T. Abbridge, of Pamlico county, a graduate of Trinity College, and Prof. J. L. Griffin, of Pittsburg, a former student of Wake Forest, were in town last week, prospecting for a school. They were unanimously endorsed by our citizens and the owners of the academy will be responsible in the event they will take charge of the school. The members of the M. E. church have put blinds to the building and given it a new coat of paint. It adds very much to its appearance, and it is now quite a pretty edifice. The members of the Baptist church have decided to improve their building. At an early date they will repair and make other improvements in the interior of the building. While the trees have been arraying themselves in their new robes of verdure, our town has imbibed the same spirit, and today under the touch of the painter's brush, she is presenting a very clean and beautiful appearance. The new building to be used as a hotel, owned by Mr. C. E. Johnson and named after our county is a very pretty and commodious building and adds much to the appearance of the business-section of the town. A movement is on foot among the colored population to erect a M. E. church building. They are succeeding very well in their efforts and expect to build at an early date. Mr. E. M. Hatley has purchased lots on the stage road, and proposes erecting a handsome residence at once. Quite a number of our people will attend the picnic at Dunlap on the 4th, and are anticipating a very fine time. Miss Ida Siler, who has been confined to her room for some time in a case of convalescence, and will soon be able to be up again. The District Conference of Fayetteville district will convene at this place, beginning on the 29th of July, and embracing the fourth Sunday. R. E. A. Bishop will occupy the chair. A large delegation is expected besides a number of visitors from other points. We extend a cordial invitation to our Pittsburg friends, and would be pleased to have many of them visit our town during its session. Mr. Willie Brooks, superintendent of the M. E. church, spent Sunday in town, visiting his M. E. Sunday school. He was accompanied by his wife, and were the guests of Mrs. B. N. Mann. Miss A. B. Hamilton, of Greensboro, N. Mann has been confined to his home for the past six weeks, he is going to be improving slowly, and is just beginning to be able to go around home. He is absent from his parsonage place in the church, and his many friends will be glad to see him moving on as usual as soon as possible. Rev. W. W. Crayton, our new pastor is doing good and effective work among in this year. It is through his perseverance and energy that the M. E. Church has received its improvements, as he has done the work his own personal supervision. He has the church on a higher spiritual plane than it has been for some time, and he is deserving popular with all denominations, his work being true, sincere and for the edifying of all.

Miss Bessie Tucker, accompanied by her niece, Annie Mann, will leave for Asheville Friday morning to spend a month, visiting in "America's Switzerland." Miss Molly Barker is visiting friends in Robeson county.

ROBIN AGAIN.

Washington Letter.

WASHINGTON, June 24, 1898.

More Spanish rumors; more caution, hesitation and delay! The fears of delay in landing Gen. Shafter's army after it reached Admiral Sampson's fleet were all realized. The army arrived at Santiago on schedule time, last Monday, but it was two days later because of the wild stories stating that the Spanish garrison at Santiago consisted of 40,000 men, and it is officially understood that Santiago is not to be attacked until the reinforcements which have been pushed from Camp Alger about of the auxiliary cruisers Harvard and Yale at Newport News, shall have joined Gen. Shafter. It looks as though that cable station at Guantanamo Bay, which put the Administration in communication with Shafter and Sampson, was re-opened a few days ago, soon. Perhaps if there had been no orders from Washington there would have been less delay. It is now said officially, of course, that the movement against Porto Rico has been suspended until the Santiago campaign is over and that while available army may be sent to help Shafter take Santiago, but operation in the conduct of such a campaign would

policy that could be adopted. Representative Carmack, of Tennessee, don't fancy the talk of an alliance with England, and doesn't believe that the people do, consequently he has offered a resolution declaring that this country looks with disfavor on every suggestion of an alliance with any European power. Among the volunteer brigadiers nominated this week was the notorious Adelbert Ames, whose career as a carpet-bag Senator from Miss., and as governor of that state, both under the military regime and during the short time that it was under negro domination, must be well remembered in that state. His home was in Mass., before he became a carpet-bagger, and he has resided in that state since the respectable people of Mississippi virtually drove him out of their state. He is a son-in-law of the late Benjamin F. Butler, and was educated at West Point. A prominent citizen of Mississippi, now in Washington, says of the political situation in that state: "A thorough fusion has been effected between the silver republicans, the democrats and the populists, and they expect to elect John Lind governor. The republican machine, which is run by men who are in office only for what there is in it, is offensive to thousands of good citizens who will help to throw out as carpet a clique as ever disgraced a state. Every candidate on the fusion ticket is able, clean and popular."

The debate on the resolution for the annexation of Hawaii has not reached the filibustering stage in the Senate, and it may not. Some of the anti-annexationists have said that they did not expect good filibustering would do, and that after they had stated their objections they would not expect taking a vote. The fact that many democrats, regardless of their opinion of annexation, think it would be a good thing for Congress to remain in session while the war is going on, may play a more important part in postponing a vote on an annexation than is now apparent. It is well known that the republican programme is to hurry adjournment after the annexation resolution has been adopted by the Senate.

John Simpson managed to pour a hot lead into Representative Grosvenor for his representation of the democrats, the silver republicans, and populists in his speech in the Ohio republican convention, in which he charged him out of every ten of them with having voted against every appropriation for the conduct of the war, except the first one for \$50,000,000, before he was shut off on a point of order. Jerry said after reading that portion of Grosvenor's speech containing the charges, "The assertion as regards the vote of members on this side is false. Every man on this side has voted for every appropriation bill, and no man would have cast the resolution upon a large portion of the resolutions, contained in the speech of the gentleman from Ohio, were he not dead to all sense of honor and truthfulness, having in his possession the facts with which the gentlemen must have been familiar."

The democratic Senators have decided to vote on the bill recently passed by the House, authorizing volunteer soldiers to receive a commission in their regular regiments, regardless of the grades they may have adopted to do it. Their ground of opposition is that the bill, which recognizes the right of the Federal Government to extend the polls at Congressional elections, is a name recognition clause by the notorious Federal election law, which was repealed a few years ago, which has always been opposed by the democratic party.

Don't Neglect Your Liver. Liver troubles multiply with increasing rapidity, and the man who neglects to keep his liver in perfect order, is like a steam boiler that is not kept in perfect condition. It is a well known fact that a large number of diseases are caused by an impure blood, and a large number of these are caused by a diseased liver. A single course of Dr. Williams' Pink Pills for Pale People will follow the true course of nature, and will be followed by all kinds of liver troubles.

The Populists of the third district have nominated Congressman John E. Fowler for re-election.

To Bombard Spanish Cities.

Washington, June 27.—The administration today finally came to a decision to send an American squadron to the Spanish coast and into the Mediterranean. Several times since the war broke out, rumors to the effect have been circulated that the project had matured. It required the Spanish movement toward the Philippines by Cervera's squadron to decide the Navy Department to adopt this bold stroke. The first announcement today through a bulletin posted at the Navy Department of the government's intention was received with interest. There was a suspicion that the story was being planned to deceive the Spanish government. However, later in the day, when the details of the vessels selected for the expedition were announced, the Spanish government was informed that the expedition was not planned to be a surprise, but to be a demonstration of force.

The vessels selected for the expedition are the USS Oregon, USS Albatross, USS Thetis, and USS Albatross. The expedition will consist of a fleet of six vessels, and will be commanded by Admiral Dewey. The expedition is expected to depart for the Philippines within a few days.
