Attitude of the Spaniards Beyond American Acquiescence.

**GOV. CLOUGH'S BLOOD UP.**

New York Politics—Great Ovation to Roosevelt, 20,000 People Present—Van Wyck Also Given a Reception; a Number of Gold Democrats Attended.

PARIS, France. (By Cable).—The United States peace commissioners began their usual three hours' session at 10 o'clock Saturday morning. They are understood to have taken into consideration suggestions and counter propositions from the Spaniards, of which the Americans now have enough to engage their attention at the daily session. It may be regarded as quite likely that the Spaniards have already outlined their expectations and that they are beyond the line of possible acquiescence by the Americans. The latter are now acting along well considered lines, consistently and with a definite end in view. They have to some degree disclosed American expectation and determination. The Spaniards, however, seem unable or unwilling at the outset to understand or believe the Americans have at the outset put forth their requirements, and that they are destined to remain unyieldingly firm. The peace process is being delayed by the attitude of the Spaniards. While the Philippines have not yet been reached in the deliberations this question is doubtless relatively not far distant, and at that point is likely to come the full stress of the diplomatic controversy. Referring to the Philippine phase of the negotiation The Chatham says: "The question was somewhat touched upon, though not discussed Friday, but there was enough to indicate serious difficulties when it comes up."

**Governor Clough Incensed.**

The following telegram was sent by Governor Clough, of Minnesota, to the War Department: "Adjutant-General, Washington. No one claims that reinforcements were needed at Walker. I have not been asked for assistance from that quarter, though I do not think that General Bacon has won the victory by himself. I am confident he is well and ready to go, but as you have received your order yesterday, you can do what you like with your orders. The State of Minnesota will try and get along without assistance from the War Department in the future. H. M. Clough, Adjutant-General." General Corbin visited the White House and showed it to the President. An order was sent to General Bacon, directing him to confer with Governor Clough, and to maintain troops along the line of the California coast. The report of trouble in that quarter will prevent any danger to the people and to ally their slaves.

**New York Politics.**

New York City, Special. An estimate of the number of well-wishers that thronged the streets leading to the Union League Club and the club house itself Saturday night at the reception tendered to Colonel Theodore Roosevelt by 25,000. When the Colonel was about to depart, shortly after 10 o'clock, the crowd began clamoring loudly for a speech. He finally decided to say something from the front steps. A mighty roar was heard when he appeared, and was introduced as "The Governor." His short address was tumultuously received. Justice Augustus Van Wyck, the Democratic nominee for Governor of the State, was also given a rousing reception at the Manhattan Club, as were several other candidates on the State ticket who were present. The occasion was a most significant event, not only by the presence of a great crowd, but by the presence of many gold Democrats, prominent among whom was John G. Carlisle.

**Germany's Settlement Changing.**

There has been a great change in German public opinion on the subject of the possession of the Philippine Islands by the United States. The feeling toward America, generally, is much more favorable than it was a couple of months ago. Many German newspapers, especially the conservative ones, are now in favor of the German government's policy of supporting the United States in its struggle with Spain. It is believed that Germany does not dream of putting obstacles in America's way.

**Wounded by American Tobacco Co.**

After negotiations extending over several months, the American Tobacco Company of New York, has finally purchased the immense tobacco works and warehouses owned by the Drummond Tobacco Company, of St. Louis, Mo., of which Harrison L. Drummond is president. The plant is one of the largest of its kind in the world. The cash price was \$5,500,000, paid by the American Tobacco Company in certified checks drawn to the order of Harrison Drummond, president of the Drummond Tobacco Company. There were no stock considerations.

**Indian Tribes Not Over.**

Reports from Walker, Minn., indicate that the Indian tribes are not over. A large apprehension prevails among the settlers along the Foreston branch of the Great Northern, and they have asked for military protection. Two battalions of the Minnesota National Guard have been sent to Deer River and Lake Lake. They are equipped with a machine and a field gun for each battery, and each man carries a rifle and a revolver.
