Our unfortunate war with the Filipinos—lamb-like in comparison with all fair-minded men. It is probably the most humane fighting people that ever existed. We boasted so long and so loudly of our country being the "land of the free"—should not be the country and the people to be the first to set the example of subjugating and enslaving a people who are struggling for their liberty and independence.

It is a shame and disgrace to the age we live in, and a burning shame to the Christian religion that we profess, that we are trying to subjugate a people who are fighting for their liberty and independence, and who have set up a government of their own, and have been recognized as belligerents by the government at Washington. Our volunteer soldiers are being sent home from Manila as fast as transportation can be had, and the regular army is being hurried there to take their places. Why this change of base? Why this hurrying forward of troops to subjugate a people who have never harmed us nor our country? Why this sacrificing of the lives of our brave boys in the Philippine Islands? Why this starving of our soldiers in Cuba? Why this robbing the soldiers of their rations? Why this exposing our soldiers to the deadly fevers of the tropics? Why this withholding of the necessary hospital supplies for the sick and dying soldiers? Why this withholding of the necessary transportation to get the sick and wounded soldiers home?
