If the same set out to think of the same set out to think of for, no matter frow long-suffering the customer. It is no easy matter to re-

customer, it is no easy matter to re-mold the female form divine. And, to say the least, this new fig-ure in penaltar even if it does bear the

stamp of society's approva! It has lowered the waist line to a marked de-gree and has increased the size of the bust. With ultra-fashionable women bust. With ultra-fashiomable women the normal waist line is now a thing of the past. The new waist line is two and a half melies in front lower than it used to be and about an inch in the back. By a novel adjustment of the corset lacings the bust is increased in size iron, two to four inches the wait is small nearly, netwithstand in that the key and control of the corset lacings. ing that this is a common sense age, and the hips are nerely normal, though they have the appearance of looking smaller than they actually are per-haps because of the mercanol size of

the belt of girdle proper is worn, tion.

This new shape, with its long small which and the and once, is not nearly very light colorings, as injurious as it would seem, and trimmed force is the reason why. Though the correct is as digitally, the lacings are large in exact imitations. there is the reason why Though the correct to lace! Injuly, the lacings are not drawn in to any special degreeum in below the ribs. Thus the ribs are left free and are not pressed in against overs and very wide bands on a large the vital organs, as used to be the case. ath tight lacing when the waist line such fight heing when the New York hats either plain or frimmed dournal.

The Dutch Bousewife.

The Dutch woman is before and cove of white silk cords arranged in above all things a housewife. Inthest har fore of home comes very mear akin to worship, and the greatest compliment that can be paid to her is silk cord or gold timed. econditinent that can be paid to her is to praise the heatest and ascentises and investment of the heatest that is her king loss. Size its farmers all the world even for her remarkable cleanuress, and even in the very pose quarters of the stine, where the hunses are small and growded to rether, the sandows are daintly disched with customs of sportess white, there are small side, the property of the control o white the rooms well swept and vidy, the humble furning carefully dusted and polished. The desire for clean lines, in fact, almost amounts to a craze, and housewives and servants alike crime a size. and polished the design of brake, which is formed to very self-and stormy of a reciprocating brake shoe-holder, between the design of brake, which is a reciprocating brake shoe-holder, between the design of brake, which is a reciprocating brake shoe-holder, between the design of brake, which is a reciprocating brake shoe-holder, between the design of brake, which is a strong partiality for a strong partiality for black Chantilly lace in the form of the value any symptoms of treat instead of against the wheels.

Even in well-to-do families a domestic training is considered a natural and necessary adjunct of the daughter's education, and each has certain household duties apportioned to her. She is likewise taught to make her own dresses, knit her own stockings, and to keep her own wardrobe in reput Nor does she shirk these duties. See it is to be feared so manyof her English sisters do, on the contrary, they ac-certed out faithfully, cheerfully und as a matter of course, and at is due to as a matter of course, and it is the to this excellent training in her guilflood days that the Dutch woman is each an excellent housewife. We targht go further and say its having that the ing that the Dutch guil has earned the reputation of being. Tree and hight of heart, and a strayer to the feeling. beart, and a stranger to the locality of commi," since she stalways health fully and helpfully amployed. The cools Bealth.
