(C)

One, a high-prise, stood out before them, painted and advened most hid-cously, and led the correspondent with contactions and chanting more violent contorious and clauting more violation and weird that the others. His long brows arm would outstratch toward is portion of the semicircle, and that we tion of it would throw themselves upon the ground and best themselves, calling alond the name of Lilinokalani. It was evidently an invocation to that is but to a science of the second sec

It was evidently in invocation to the goals to resort the queen. The priest make a detour of the wor-shiping line, teaching first one, then another apon the bend, all the waite emitting horrible eries groans, while, to the cheat they kept up constantly. These so teached areas and followed bins thereare their news detout sole Those so teached arises and followed him, throwing their arms about, roll-ing their eyes and manicking their leader and, if possible, outdoing him in awfal noised. Gradually this pro-cession increased and the excitement of the could increase I also. The leader struck intra wild, faintistic dance, and those following took it up. Then they who still remained in the semicircla hear the air with their hands, smoot their nulars toorthar and emitted their paints together and emitted Strarger and larger grow the circle

and hereer grew their passion. Suddenly, the dancin t column hav-ing grown to over half the number of ing grave to over half the number of worshipers, if erns tax parsa. The followers of the priod stool trem-bling, qualing with excitance, their feverish threa for religing extremes shown in their bloodshot eyes and participations. Apart from them was a tent. To this tent the prior danced slowly, his worshipers hereing up the chart and standing expectantly, as if something desirable ware to come.

desirable were to come, The print emerged from the fent,

The prior energy of come, The prior energies from the feat, carrying a small white kid. He took up his out providen near the fire, and facture his basic of frances, he chanted sole and y over the kid. Then, putting it can the ground, he draw a knife arrow his throat, catch-ing in a cap the blood that flowed from the stricken immediat. The kid gave a bleat and fell over-dead. Now the fervar was at its highest. The priorit took the cup of blood, and disping his fingurentiat, analited his followers on the forwhead, as he danced along the line. They howled, shricked and ground most herridy, The wome, being all control of thea-nelves and carifier aside their resorve, threw themselves out from flowerids and performed wonderful feats of writhing, twisting and suggrestive con-toritors. tortions

All the time the subject of their chant, the sale idea in their siricks and cries, was the resonation of Queen Lilinolalani. The sacrides to the gods was to propirate thom and make them mills upon the depend queen. I felt a sensation of chilly horror when I let a sensation of call a larger when I looked at the s facation. If their bloodletting scorifices storged short of human blood it would be a gratify-ing surprise, so feroricus did they

look. The dance began again, more fervid
