

Mrs. Weisslitz, president of the German Women's Club of Buffalo, N. Y., after doctoring for two years, was finally cured of her kidney trouble by the use of Lydia E. Pinkham's Vegetable Compound.

Of all the diseases known with which the female organism is afflicted, kidney trouble is the most fatal. In fact, unless prompt and correct treatment is applied, the worst kind of addition occurs.

Being fully cured, Mrs. Weisslitz has in her career, given careful thought to the best means for the relief of women's ailments. Lydia E. Pinkham's Vegetable Compound, she says that it cured her kidney trouble. It is a natural remedy, and is composed of the most valuable and purest of the vegetable kingdom. It is a natural remedy, and is composed of the most valuable and purest of the vegetable kingdom.

**Read What Mrs. Weisslitz Says.**

"Dear Mrs. Pinkham:—For two years my life was simply a burden. I was unable to do my work, and I was in pain all the time. I had kidney trouble and I had been doctoring for two years, but I was not getting any better. I had been told that I should use Lydia E. Pinkham's Vegetable Compound, and I did so. Within three months I was cured. I am now able to do my work, and I am in good health. I feel that I owe it all to your medicine. —Mrs. PAULA WESSLITZ, Buffalo, N. Y."

**Proof that Kidney Trouble can be Cured by Lydia E. Pinkham's Vegetable Compound.**

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address: Lynn, Mass.

**A Golden Rule of Agriculture:**  
Be good to your land and your crop will be good. Plenty of Potash.

In the fertilizer, it is the most important element. It is the most important element. It is the most important element. It is the most important element.

**CAPSICUM VASELINE**  
Aids in the cure of all skin diseases. It is the most important element. It is the most important element. It is the most important element.

**DAVINI TONIC**  
A Boston physician's discovery. It is the most important element. It is the most important element. It is the most important element.

**AGRICULTURAL**  
The heavy use of oil meal with fat tending to make the flesh rather soft and oily, something not desirable in beef production and especially objectionable in the production of pork, says W. A. Henry.

**Device for Cutting Corn Fodder.**  
A correspondent sends the Ohio Farmer a sketch of a fodder truck he uses to cut corn fodder, using the top of a wagon.

**Low-Down Farm Wagons.**  
Any farmer who has struggled to lift heavy loads to the box of the ordinary farm wagon realizes the value of the low wagon, but there is more in the low wagon than its load use.

**Plan of a Hoghouse.**  
In looking over this plan the farmer must be considered that the hoghouse must be built on a level, and that the floor must be made of concrete.

**Feed and Cooked Feeds.**  
It is said that uncooked grain is as a rule, preferable for strong healthy horses in hard work, and it is not a rule, but a general principle.

**Having Cheap Feed.**  
The farmer who grows the bulk of the feed for his own use and grows it intelligently, that is, with the single idea in mind of obtaining a crop rich in protein rather than a heavy crop of something which has considerable less feeding value.

**Packing Apples for Market.**  
All fruit should be neatly and honestly packed, whether in the small box, where deception is easily detected, or in the barrel, where less liable.

**Farm Notes.**  
Broken straps often lead to broken bodies in the pig. It is a good plan to put them on a time with some oil and stow them away in a safe place.

**An Ancient Copper Mine.**  
The Anglo-Saxon mine, the largest in Europe, is a mine of copper. It is a mine of copper. It is a mine of copper.

**The Faithful Mule.**  
In case the mule of the chief of the

**Hair Falls**
