Card of Thanks.

MR. EDITOR:—May I express through your paper our deep gratitude to the people of Pittsboro for such a bountiful welcome? Since Pittsboro people have a reputation for loyalty to pastors, we were not surprised to see the names of Christians other than Baptists on many of the gitts that came to our home. But a few written sentences poorly express our appreciation and we beg time to prove by deeds that which words fail to reveal.

L. M. HOBBS, Pastor Baptist church, Pittsboro.

Sore Muscles.

Prominent athletes throughout the country find that the best treatment for sore muscles after severe exercise or hard work of any kind, is a hot bath at bed time, which opens the pores. This should immediately be followed with an application of Chamberlain's Pain Balm vigorously rubbed into the skin. This liniment removes all stiffness and soreness and has become a favorite rub down, as it acts promptly and keeps the muscles in excellent condition. For sale by G. R. Pilkington.

Letter-From "Buck."

MR. EDITOR: To write a letter when I have nothing to say reminds me of the women in a scarce time for vegetables to cook. I have heard it all my life—"Well, I wonder what I will get for dinner?" But they find something, and maybe I will do likewise.

Of course you all know that King Alfonso is married, and the papers had to tell all about the wedding and his bride's fine dress as if it would do us any good. Well, of course, we aren't all alike, but I had rather have her presents and fixings than to have her. I can't see any use of giving the King and Queen and the President's daughter so much advertising when they marry, as it is a leap in the dark at best and when the light is turned on it may end in a divorce.

Well, we have all been having a mighty good time since the good rain came, and to add to our joy the doctors all went to Charlotte to the Medical convention and left the old men and women and their sick patients to do as best they could. But all things worked in our favor, and the women kept on hoeing cabbages while the men were too busy in their crops to think of a doctor. And then to make it better nearly all the sick got well. I see 85 young doctors got their diplomas to hand out pills, and if I was a preacher I would feel it my duty to say "Lord, have mercy on the sick."

I don't know when the millennium is coming, but if a big lot of doctors, lawyers, teachers, graduates and drummers will have anything to do with it by adding the few democratic candidates to the list it may come in 1906. I tell you there is mighty little fun electioneering when every other man you see wants to swap votes.

Now you all know that the religious denominations have lately held conventions, and they say that there are mighty few candidates for the ministry. But I don't know why there are not as many men preparing to preach when cotton is 11 cents as there were when it was 5 cents. I might go to preaching if I had to go to another civil war and get my salary in Confederate shiplasters at that. But I am not fool enough to go into it for the pay that there is in it now. I would not accuse any man going into the ministry for the money that is in it unless I knew he was too lazy to work, and then I would want him to preach to that other fellow all the time.

I see in yesterday's paper that Capt. McLaughlin of Co. K, 26th Regt., is dead. He was wounded at Gettysburg in the left hand, and was clerk of the court in Anson county 28 years. Chatham ought to have loved to honor her crippled also.

I have about quit writing to the papers. It takes all my time when I am not resting to hoe cabbage, chop cotton and keep up with all the conventions, commencements, lynchings and reading letters from men who have been called from their daily occupations to serve the dear people as candidates.

I staid all night not long since with a candidate and he and his wife made everything so pleasant. Yes, we had bull-frog for supper and it was the finest I had seen since I was a boy. When I came home Mrs. Buck said she believed I had joined the Holy Jumpers. Then I explained to her that it was just a frog.

That Wadesboro lynching causes me to think that people are not very far removed from brutes if they have a good chance to show it. Now I want to give a little free advice to Messrs. A. H. Perry, J. W. Perry and all the rest of the candidates for the Legislature, and it is this: Pass a law to sell all the public land and take the money and the convicts in the penitentiary and build fertilizer factories, make and sell fertilizers to the farmers at a little above cost. I think that would help the farmers as much or more than the dispensary. I hope the next Legislature will be a regular trust buster. I am glad they won't have to spend any time with the law on whiskey, as we have all quit drinking, and if nobody else is helped the jug maker is. I hope they won't pass any law making us give in empty jugs. I think they ought to be like dogs, not taxable.

Excuse me for my long letter but I have to keep up with the conventions, the medical societies and commencements. I know it does the parents good to see their boys and girls come home with diplomas, and it ought to, and if they are made of the right stuff they will do much good and be a blessing to the world. You may see them on the streets or at drug stores drinking cocoacola. If you haven't it's not their fault. I wish girls had been graduates in my day. I bet they make court-ing mighty entertaining and very de-staining, but that will all wear off when you go to maintaining. A graduated cook and a graduated farmer are as scarce as bald-headed women. I never knew why education makes people want a shady job, but there are some non-educated that like shady places too. Buck.

To Patrons of R. F. D. Routes.

LOCKVILLE, June 11, 1906.

MR. EDITOR:—If you will allow me space in your paper I shall appreciate it very much. I wish to make a few practical suggestions for patrons of R. F. D. routes.

First. You will be doing your carrier a great favor if you will stamp all your mail before putting it in the box, either by putting the ordinary stamps on, better; by using the government stamped envelopes, with your name written on the upper left hand corner. This will guarantee delivery or return of the letter.

Second. In case you should not happen to have either stamps or the stamped envelopes wrap the necessary amount in paper and fasten to letter in good manner, remembering that in cold weather money put loose in the mail-box is hard to get hold of with cold fingers, or with gloves.

Third. In addressing your letters do not write about the middle of the envelope, because the letter has to be plainly postmarked and the address may be partly blurred by being struck by the postmarking stamp. You will also help the handling of the mail by always putting stamp on upper right-hand corner.

Fourth. In addressing a letter to a visitor or some one who is not a regular patron of a rural route or postoffice, you will be helping the service by marking on the envelope in whose care the letter package should go. If you have visitors who are expecting mail, kindly give the carrier their names by putting a slip in the box, thus notifying him.

Fifth. In regard to boxes, help your carrier by having a good one in a good easy place to drive up to, and oil the hinges occasionally. Mail boxes are protected by the government, and tampering with them by any one not interested should be reported at once to your postmaster, whose duty it is to report the matter to the Department. Anything deposited in boxes is counted mail matter and is subject to postage rates. All packages should be well wrapped and securely tied, and valuable letters and packages should be registered.

J. J. HACKNEY, Carrier, Route 1.

Unknown Friends.

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoea and all forms of bowel trouble. For sale by G. R. Pilkington.

Striking Miners Shot.

Indianapolis, June 8.—The new mining town of Ernest, on the Buffalo, Rochester & Pittsburg Railroad, five miles from here, was the scene early today of a conflict between a detail of State constabulary and striking coal miners, in which two strikers were killed and eight wounded, three fatally.

Shortly after daylight a body of strikers, headed by a brass band, marched from Union mines, in Jefferson county, to receive one of the mine officials expected from Punxsutawney. On the way to the station the marchers encountered a detail of twelve members of the State constabulary and as they passed a member of the band fired his revolver at the troops. No one was struck, but the constabulary immediately retaliated with a volley from their carbines.

When the smoke cleared eight strikers were lying on the ground and the others had fled precipitately down the hill. Two of those shot were killed instantly and the six others were seriously wounded.

During a thunderstorm which visited Mt. Airy last week, the residence of Mr. G. C. Welch was struck by lightning. The building and all the furniture, except a few pieces on the lower floor, were entirely consumed by the flames. The lightning killed a dog, but none of the family was injured.

If your stomach troubles you do not conclude that there is no cure, for a great many have been permanently cured by Chamberlain's Stomach and Liver Tablets. Get a free sample at G. R. Pilkington's drug store and give them a trial. They also cure constipation and biliousness.
