Official Declaration of the Principles of North Carolina Democrats.

The Democracy of North Carolina, in convention assembled, renews its allegiance to the principles of constitutional government, through laws enacted and executed in the interest of the whole people, without favor to individual or class, and it pledges itself to continue the just, wise and economical administration of public affairs, which have obtained in State and ocunty since its return to power in 1899. We congratulate the people of the State that, under Democratic auspices, there has been established throughout the borders of the State a reign of law and liberty, peace and progress; that our people are no long-lican rule, but safe in the protection of law and enjoying the freedom which comes from security are direct-

In and off the North Carolina its operation, the assurances made by the Democratic party to the people, its being made, by Republican legislathat no white man would be disfranchised thereby, have been fully verified, and the predictions of the Republican party to the contrary proven false. After a test of five years the wisdom of the amendment is recognized and aquiesced in by all political parties, and is accepted as a solution of a vexed question.

We congratulate the people upon the beneficent effect of the temperance legislation enacted by the Democratic party, and aprove and endorse the principles enunciated in the Watts bill and the Ward bill regulating the manufacture and sale of li-

of the traveling public. Favors Forest Reserve.

We favor the Appalachian forest reserve and the construction of the inland water way from Norfolk, Virginia, to Beaufort inlet, North Carolina. While both of these projects involve great benefits to the State, they are also of national importance. The one preserves our mountain forests and conserves our water supply promotes the public health, maintains our water power and aids agriculture, the latter will open up a free outlet North and South for the waterborne trade of eastern North Carolina, equalize traffic rates and promote the prosperity of our people. Its construction will also greatly increase the coast-wise trade between the South Atlantic and North Atlantic ports. We urge our Senators and Representatives to continue their efforts to secure legislation for the establishment of the one and the construction of the other.

Equal Rights to All.

We reaffirm our adherence to the time honored principle of Democracy of "equal rights to all and special year's the Republican party has been in absolute control of all departments of national government with power to change unjust conditions and to rectify evils. Yet, during that time. colossal combinations of capital have dominated the people, and illegal perversion of corporate laws have stifled competition and unfairly limited the opportunity of the individual citizen. Wealth thereby illegally obtaintrol legislation and corrupt elections. No honest effort has been made, or tion to cure or eradicate these evils. We denounce the hypocrisy of the Republican party which, while pretending to legislate against these conditions, deals only with the symptoms and not with the disease. The unfrir, tyrannical features of the socalled "protective tariff" have made these things possible, and no permanent relief can be secured until its | enacted obnoxious features are removed. To remedy this evil we demand a thorough revi-ion of present tariff laws.

Trusts Denounced.

The growth of the trusts and other inordinate and dangerous combinations of capital, the tremendous and rapidly increasing absorption and centralization of the wealth of the country in the hands of a chosen few, all due to premeditated and systematic legislation in behalf of special interests by the Republican party, demand a change in the policies imposed upon the country by that party and make the passage of restrictive laws an imperative necessity.

We denounce the appalling system of corruption heretofore practiced by the great insurance companies, whereby money intrusted to them for the benefit of widows and orphans has been devoted to the enrichment of favored individuals and to the campaign fund of the Republican par-
