constabulary. The presidentes promised to support the American authorities and to furnish information that will lead to the extermination of the Pulajanes.

There are various causes for Pulajanism in the Island of Leyte, dating back to Spanish times. The disarming of the municipal police by Governor De Veyra, his political op-ponents say, caused the recent disturbances

It is asserted that had the late First Lieutenant John F. James, of the English Infantry, possessed correct information he would not have

gone out with a small force. The fight occurred in the darkness and the troops were the victims of a bolo rush of superior numbers, during which their rifles were of no use. The bodies of Lieutenant James, Contract Surgeon Calvin D. Snyder, Privates William J. Gillick and Mathies Zeck have been buried at Taclobau. Governor Ide has decided to appoint a commission consisting of Governor De Veyra, General Lee, Colonel Taylor and three presidentes to visit the disaffected districts and hold meetings of the town councils to impress the people with the necessity of

lajanes. The outlaw band numbers about 100, and is being greatly increased by forcing peaceful farmers to participate in raids, threatening them with death if they refuse. These recruits are armed with bolos, as the real Pulajanes do not trust them

A special term of the court has been ordered at Tacloban to try the prisoners. It is understood that the leaders will get the extreme penalty of the law, but that the misguided natives will be dealt with leniently. Governor Ide and General Wood consider that the situation is well in hand and expect no further sighting. It is probable, however, that additional troops will be put in the field garrisons. The hotbed of the disturbances covers an area approximately thirty by twenty miles. Martial law is deemed unnecessary, for General Lee is practically in control.

Column Three Hours Passing Reviewing Stand - Delegations From Many States.

Minneapolis, Minn.-The men of the Grand Army of the Republic paraded here. The old soldiers were greeted by cheers that drowned the roar and crash of their many bands. The streets were filled with spectators, and during the progress of the parade the streets were packed solidly. ' At the head of the column and behind the police came the Cook Band and Drum Corps, of Denver. The twenty-two young women who form a drill corps and are a portion of the Cook organization were especial favorites with the multitude, and were given a continuous ovation dur-

ing the parade.

Next came the chief marshal of the his chief of staff, General Fred B. Wood, Adjutant-General of Minnesota, who was followed by regimental and staff officers of the Minnesota National Guard. This comprised the escort of the Grand Army, and then, marching in even ranks, with their formation superbly kept throughout the parade, came the first of the old soldiers, the Columbia Post, of Chicago, acting as the personal escort of Commander-in-Chief Tanner. This organization has made a record at many previous encampments. Its showy uniforms of dark olive green and its marching won great applause. Following the ranks of the men from New York came the scarlet banner of Massachusetts, with a strong delegation behind it. New Jersey and Maine marched next, each with a fair-sized representation, and then came the first of the far Western States, California and Nevada being came to the front once more with the co-operation in exterminating the Pu- | men from Rhode Island, New Hampshire and Vermont.
