

H. A. LONDON, Editor.

As predicted last week by The RECORD "peace prevails" and there will be no bloodshed or conflict of arms between the State and Federal authorities.

By this agreement those two railroad companies are to obey the railroad rate law passed by the last Legislature until its constitutionality is decided by the Supreme Court of the United States.

The people of North Carolina and the railroad companies are to be congratulated upon this agreement and compromise. If the law is finally decided to be constitutional (as we think it will be) prosecutions and penalty suits had been multiplied (as they would have been) against the railroad companies, they would have been bankrupted.

Gov. Glenn deserves the thanks not only of the people of this State but of every State for his success in forcing the railroads into this agreement, which is almost a complete surrender on their part.

After a long and sensational trial a verdict of not guilty was rendered in the case of William D. Haywood, the secretary and treasurer of the Western Federation of Miners, who was on trial for the murder of Gov. Stuenkel of Idaho.

Fatal Fire in New York. New York, July 29.—Eighteen bodies, most of them charred and mutilated beyond recognition, already have been carried from the ruins of the six-story tenement at No. 222 Christie street, which was burned in the early hours of this morning.

The tenement has long been known as "the Three Deuces" and has been the very hot bed of Italian murderers. Black Hand tragedies were often traced to plottings in the house and the place had a criminal record not equalled by any other house in New York.

All the States are deeply interested in the final decision of these North Carolina cases, and it is to be hoped that the Supreme Court of the United States will render a decision clearly defining the power of Federal judges in annulling (even temporarily) the law of any State.

One reason why the Southern Railway Company was anxious for a "cessation of hostilities" was the fear of the Governor calling an extra session of the Legislature. If that had been done there is no telling what our law-makers might have done detrimental to the Southern Railway.

Preacher Dying in Pulpit. Knoxville, Tenn., July 28.—Rev. W. F. Smith, a Presbyterian minister of this county, was stricken with apoplexy in the pulpit of the Presbyterian church at Madisonville this morning. He was dwelling on the uncertainty of life in his sermon and had just uttered these words:

"It may be the last time I will ever speak to you," when he began to totter. Friends rushed to the pulpit and caught him. He died tonight. Rev. Mr. Smith was 65 years old and a past grand master of the Masonic grand lodge in Tennessee.

Somebody has defined a Republican as "one who believes in the greatest good to the smallest number." Nothing could be more exact.

Washington Letter. From Our Regular Correspondent. Washington, July 25, 1907. The dull, hot season is upon us. The capital city has long been deserted by the legislature, executive and judicial branches of the government.

The Acts of the last Legislature are at last published, or at least some copies of them are published and have been sent to the members of that body. It may be some time yet before copies are sent out to the magistrates, or are for sale.

The acts thus far published are only the public laws, which are 1019 in number, exclusive of many resolutions, and make a volume of 1519 pages. The private laws, incorporating banks, railroads, etc., will be published in a separate volume.

The people of North Carolina do not wish to be stirred up this year with an exciting campaign for the Democratic nomination for Governor, and we are pleased that no one of Mr. Kitchin's competitors has accepted his challenge for a joint canvass of the State.

Gov. Glenn Congratulated. Raleigh Correspondence Charlotte Observer, 29th. Congratulatory telegrams from all parts of North Carolina and from other States are pouring in on Governor Glenn by reason of his great victory in the railway rate case.

The dull, hot season is upon us. The capital city has long been deserted by the legislature, executive and judicial branches of the government. Not a cabinet officer remains, and the chiefs of divisions and many subordinates are away on summer vacation.

The Acts of the last Legislature are at last published, or at least some copies of them are published and have been sent to the members of that body. It may be some time yet before copies are sent out to the magistrates, or are for sale.
