Attorney General Bonaparte called to the conference Solicitor General H. M. Hoyt, of Washington; Edwin M. Sims, of Chicago, United States district attorney for northern district of Illinois; James H. Wilkerson, of Chicago, Mr. Sims' first assistant, and Frank B. Kellogg, of Minnesota. Mr. Hoyt, Mr. Sims and Mr. Wilkerson arrived here and had a conference in the afternoon with the Attorney General. Mr. Kellogg arrived and participated in the two conferences which were zeld later and which ended with the giving out of the following statement by Attorney General Bonaparte:

"The government will make every effort in its power to secure a revision of the Circuit Court of Appeals for the seventh circuit in the case of the Standard Oil Company of Indiana, either by the Court of Appeals itself, or if necessary by the Supreme Court of the United States. In spite of treatments the disease gradually spread until nearly every part of his body was quite raw. He used to tear himself dreadfully in his sleep and the agony he went through is quite beyond words. The regimental doctor pronounced the case hopeless. We had him in hospitals four times and he was pronounced one of the worst cases ever admitted, From each he was discharged as incurable. We kept trying remedy after remedy, but had gotten almost past hoping for a cure. Six months ago we purchased a set of Cuticura Remedies. The result was truly marvelous and to-day he is perfectly cured. Mrs. Lily Hedge, Camblewell Green, Eng-land, Jan. 12, 1907."

In Mississippi where the Government pays little attention to roads. the value of farm property has increased .38 per cent in five years. In Illinois where hundreds of miles of hard roadways have been constructed since 1900, the average increase of farm lands has been almost 60 per cent., notes the New York American. This country will have arrived at its highest point of prosperity when there is a better system of canals, when the great rivers are dredged and made navigable, when every State is gridfroned with hard roadways. The sentiment for national action concerning these needs is so strong and so insistent that it must ultimately bear fruit.

## WONDERED WHY

Found the Answer Was "Coffee."

Many pale, sickly persons wonder for years why they have to suffer so, and eventually discover that the drug -caffeine-in coffee is the main cause of the trouble.

"I was always very fond of coffee and drank it every day. I never had much flesh and often wondered why I was always so pale, thin and weak.

"About five years ago my health completely broke down and I was confined to my bed. My stomach was in such condition that I could hardly take sufficient nourishment to sustain life.

"During this time I was drinking coffee, didn't think I could do without it.

"After awhile I came to the conclusion that coffee was hurting me, and decided to give it up and try

working men are paying the penalty.

THE PLATFORM.

The Republican and Democratic parties are not only responsible for these conditions, but are committeed to their indefinite continuance. Prodigal of promises they are so barren of performance that to a new party of independent voters the country

must look for the establishment of a new policy, and a return to genuine and popular government.

Our object is not to introduce vioent innovation or startling new features. We of the Independence party look back as Lincoln did to the Declaration of Independence as the fountain head of all political inspiration. It is not our purpose to attempt to revolutionize the American system of government but to restore the action of the government to the principles of Washington and Jefferson and Lincoln. It is not our purpose either to effect a radical change in the American system of government, but to conserve for the citizens of the United States their privileges and liberties won for them by the founders of this government and to perpetuate the principles and policies upon which the nation's greatness has been built.

The Independence party is, therefore, a conservative force in American politics, devoted to the preservation of American liberty and independence, to honesty in elections, to opportunity in business and to equality before the law. Those who believe in the Independence party and work with it are convinced that a genuine Democracy should exist; that a true Republican form of government should continue; that the power of government should rest with the majority of the people and that the government should be conducted for the benefit of the whole citizenship

ciation of Cincinnati protested to rather than for the special advantage We denounce the so-called labor

planks of the Republican and Demoeratic platforms as political buncomb and contemptible claptrap unworthy of national parties claiming to be serious and sincere. Such insincere and meaningless declarations place a low estimate upon the intelligence of the average American workingman and exhibits ignorance of or indifference to the real interests of labor. The Independence party

condemns the arbitrary use of the writ of injunction and contempt proceedings as a violation of the fundamental right of trial by jury. From the foundation of our government down to 1872 the Federal judiciary act prohibited the issue of any injunction without a reasonable notice

until after a hearing. We assert that in all actions grow-

ing out of a dispute between employers and employes concerning terms

We advocate the popular election of United States Senators and of judges, both States and Federal and favor a graduated income tax and any constitutional amendments nee-

essary to these ends. ARBITRATION IS FAVORED. The Independence party declares for peace and against aggression and will promote the movement for the settlement of international disputes

by arbitration. We believe, however, that a small navy is poor economy and that a strong navy is the best protection in time of war and the best preventive of war. We therefore favor the speedy building of a navy sufficiently strong to protect at the same time both the Atlantic and Pacific coasts of the United States. We rejoice in the adoption by both the Democratic and Republican platforms of the demand of the Independence party for improved nation-

al waterways and the Mississippi inland deep water project. We favor the extension o fthis system to the tributaries of the Mississippi by

the government is imperatively demanded by the circumstances of the case and the possible consequence if this opinion should stand as authority without question by the government. To this end an application for a reargument of the case and a motion for a modification of the opinion will be submitted to the Circuit Court of Appeals on behalf of the United States at the earliest possible mo-

ment. "Other appropriate steps will be aken afterward, their character to be determined by the court's action upon this application. The pending prosecutions in which the giving or receiving of rebates or offenses of like character are charged will be pressed to trial and judgment by the government with all possible energy and as promptly as may be practicable. In the view of the government's legal advisers the reversal of the judgment in the case recently decided in no way affects the merits of that controversy or the necessity and duty of bringing to punishment if possible in this and any other cases, any indi-, vidual or corporation shown to have evaded or defied the laws."
