"At first an eruption of small pustules commenced on my hands. These spread later to other parts of my body, and the itching at times was intense, so much so that I literally tore the skin off in shreds in seeking relief. The awful itching interfered with my work considerably, and also kept me awake nights. I tried several doctors and also used a number of different ointments and lotions but received practically no benefit. Finally I settled down to the use of Cuticura Soap, Cuticura Ointment and Cuticura Pills, with the result that in a few days all itching had ceased and in about three weeks' time all traces of my eruption had disappeared. much

Not every resident of Florida knows what a superior dish for the table is a stone crab. It is to Southern waters what the lobster is to Northern. George Lizotte, of Pass-a-Grille, fenced in a portion of Boca Clega Bay some time ago and planted his water farm with stone crabs to pre vent the extinction of the species. He is studying their wants and habits. and believes he can largely increase their numbers yearly. Capt. Cason of Pass-a-Grille, is preparing to fence in a second stone crab farm of large proportions. There is an enormous demand for the stone crab from the numerous visitors to the island, and the supply, though great, is being rapidly depleted .--- Florida Times
