About 80 persons went from here to Raleigh last Thursday on the Seaboard Sunday school excursion, all of whom seemed to enjoy the trip.

Mr. H. M. London has been appointed by Gov. Kitchin a delegate to the National Irrigation Congress which meets at Pueblo, Colorado, September 26th.

Joe W. Mann at Bynum is receiving daily a full line of Fall shoes which it will pay you well to inspect before buying elsewhere. Try him and be convinced.

Dr. L. E. Farthing, of this place, is one of the 111 delegates recently appointed by Governor Kitchin to represent North Carolina at the international congress on hygiene and demography at Washington City September 26th.

We are requested to announce that Rev. R. B. Lineberry will begin a series of meetings in the Baptist church here on Monday night after the second Sunday in September. He will be assisted by Rev. C. L. Greaves, of New Bern.

A local council of the Junior Order was established here last night, the Manddole council conducting the installation ceremonies. This order has grown very much in recent years and it is hoped that the newly established council here may prove to be a flourishing one in every way. The Pittsboro council starts out with a membership of twenty-seven.

Miss Rose Elizabeth Robertson, daughter of Mrs. J. B. Robertson, of this township, was married to Mr. Chester C. Remsburg, of Middletown, Md., on the 4th of this month at Baltimore, Md., and left immediately for Atlantic City for ten days and visited Philadelphia, Baltimore, Washington, D. C. They will be at home after August 20, at Middletown, Md.

Rev. H. O. Nash, the new rector of the Episcopal church here, and family were the recipients of an unexpected, though by no means unwelcome, "pounding" last Friday night. Besides members of his own congregation, quite a number of others joined in the pounding, showing their cordial and friendly feeling at having Mr. Nash and family come into our midst.

Mr. C. W. Hanks claims to be the champion turtle fisherman in this section. On last Thursday night he set seven hooks baited with frogs in the pond at Hailborn Lodge, near here, and the next morning found six large turtles on the hooks. He caught a turtle on every hook but one, and but for the fact that it wasn't a good night for turtles (to quote Mr. Hanks), he thinks that hook also would have caught a turtle.

—Read the advertisement of the Durham Land and Security Company offering for sale desirable lots in Durham and its suburbs.

—The Seaboard Air Line will sell round-trip tickets next Tuesday to Atlantic City for only \$11.50 from Moncure, good for fifteen days.

—Reports from the county continue to come in which point to a sweeping Democratic victory next November. The Republicans have about given up all hope of any possibility of electing anyone on their ticket except sheriff and register of deeds. When the votes are counted in November, they will realize that it was a forlorn hope as to electing those two officers also.

—Mr. Joseph C. Blake, who was nominated by a unanimous vote as one of the Democratic candidates for county commissioner, has declined to run because his business will not permit him to serve. The county executive committee met here last Monday and nominated Mr. W. H. Ferguson, of Hickory Mountain township, to fill the vacancy. He is one of the most progressive young farmers in the county and lacked only a vote and a half of being nominated for commissioner at our recent county convention.

Superior Court.

On account of the sickness and absence of some witnesses in several of the cases, which were expected to be tried last week and had to be continued, court adjourned Friday.

In addition to the case of Stout against Perry, which was mentioned in our last issue, the following cases were disposed of:

N. W. Dixon against T. H. Wilson was an action for the recovery of damages in a horse swap, and the jury gave the plaintiff \$80. The plaintiff alleged that the defendant represented the horse to be sound, whereas it was a "stump-sucker." It remains to be seen what effect this verdict will have upon the horse-swapping business at our courts.

The suit of Florence Dowdy against James T. Dowdy was for a divorce from bed and board, the plaintiff alleging ill treatment by the defendant. This case was closely contested, and the jury, after being "hung" one afternoon and night, rendered a sort of compromise verdict, finding that the plaintiff had been ill-treated but that she was also to be blamed. Each side made a motion for judgment, but the judge reserved his decision until next court.

The case of W. D. Bright against J. Beale Johnson was for the recovery of money alleged to be due on a contract for sawing lumber. After the trial had been in progress for over an hour a compromise was made.

In the case of Millard Johnson against Perry & Hackney a non-suit was taken by the plaintiff.

Compromise judgments were agreed on in the suits of Roderick Lean & Co. against Fox & Son and Griffin & Bynum against H. A. Mills.

Breaking Quarantine.

A colored woman, named Bella Atkins, was tried here yesterday before R. M. Burns, J. P., and fined \$5 for violating the quarantine law.

A short time ago she had the small-pox near Haywood and was quarantined by Dr. Farthing, the county superintendent of health, and, before recovering, she broke out from the quarantine and attended a meeting of the colored lodge. Such conduct cannot be too severely condemned and it was very proper that an example should have been made of her as a warning to others who may be afflicted with an infectious or contagious disease should not be allowed to endanger the lives of others by exposing them to it.

Back in the Forties.

Happening to pick up an old legislative document of 1846-7 some figures are gathered that may be of interest to some of the readers of THE RECORD. In 1846 Chatham county had 488,034 acres of land, valued at \$1,053,590. Value of town property in 1846 was \$49,125, and the taxes were \$29,46.

There were 3,765 polls in the county in 1846. In 1848 there were 629 militiamen in the county. This troop of soldiers had 15 muskets, 58 rifles, 397 shot-guns and any quantity of corn stalks on drilling days.

In 1848 Chatham's population was 14,116. There were 1,475 white children. The county received \$1,922.92 for its school fund.

In 1847 John Harmon was sheriff. More could be said but this is enough for the present. SAM JONES.

European Crops Fall Off.

Washington, Aug. 13.—Foreign crop reports gathered by the Department of Agriculture indicate that the harvest in Europe will not be so abundant as had been anticipated. Climatic conditions have been adverse in central and northern countries; notably Russia and France; where excessive moisture, unseasonably low temperatures and violent storms have resulted in much impairment of cereal growth.

In Austria-Hungary and Germany declines in agricultural prospects are officially confirmed. Italy has fared well this year, and Roumania and Bulgaria have gathered record crops. The yield in other countries has been only a fair average.

At Wallace, Idaho, Monday, hundreds of pounds of dynamite hung to the limbs of trees on the high points surrounding the city and exploded in the hope that the effect might produce rain to check the devastation by forest fires. The rain came and was a heavy one.

Thirty-two passengers, several of them women, and seven sailors, were drowned yesterday when the German steamer Elsa rammed the Spanish steamer Martos off the African coast in the Mediterranean and the Martos sank.

Mark Mebane, a negro, aged 52 years, and several head of cattle were killed by lightning in Pasquotank county during an electrical storm last week.

Belgian Exposition Buildings Burned.

Brussels, Aug. 15.—It will take many days to place the Belgian exposition, partly destroyed by fire yesterday, in a fit condition for reopening, although a large majority of the buildings are still intact. The loss caused by the flames which swept through the "white city," is believed to be between \$6,000,000 and \$10,000,000. This is carefully confined to the Belgian and British sections, but the damage by smoke and water has been general and will add materially to the total loss.

The American sections escaped the fire and the art exhibit it was in a building two miles distant from the flames. The recovery of valuable collections of jewels helped to reduce the first estimates of the loss. The magnificent collection of precious stones owned by Belgians, and valued at \$3,000,000, was unharmed from the ruins unharmed.

There was considerable pillaging after and during the fire. Gendarmes caught a number of the looters who had in their possession scores of rings and bracelets from the French jewel exhibit. It is believed that Parliament will vote extra credits for the people clearing away the ruins and constructing new buildings.

Frauds on Indians.

Sulphur, Okla., Aug. 15.—Details of an alleged scheme by which "land grabbers" organized themselves at the expense of minor Indians were related at the congressional investigation into Indian land affairs today.

In one instance, it was asserted the cost of disposing of the property of an 18-year-old Indian was \$2,075, more than the property brought. The condition which permitted this and similar deals was declared to be "a disgrace to Oklahoma."

Hearing that the scheme prevailed generally, Representative Phillip P. Campbell, of Kansas, a member of the investigating committee, put on the stand James Yarborough, a Chickasaw Indian by intermarriage.

"Do you call this sort of thing grafting or just plain stealing?" asked Mr. Campbell after the witness had related the circumstances.

"Well, the people down our way think it is a scandal that the laws permit such a thing and we think it is time Congress take notice of it."

The probate court at Durant allowed the guardian to sell for \$2,800 a tract of 140 acres of allotted land owned by an 18-year-old Indian.

The guardian then put in a claim on the proceeds. The claim included \$850 for acting as guardian, \$1,650 for improving the land, \$500 for a barn, \$50 for posts, \$250 for fences, \$68 for witness fees, and more money for other purposes.

Train Kills Two Girls.

Special to the Charlotte Observer.

Thomasville, August 14.—This morning about 8:30, Vada Cook and Hazel Myers, two little girls between 8 and 10 years old, were killed about five miles north of this place by northbound passenger train No. 44. The two girls accompanied by their mothers had gotten off train No. 11 from High Point at Lake and were coming up the railroad track to a Mr. Freedles, a relative of theirs, who lives a mile north of Lake. As they were coming up the track they met a freight train going south and getting out of the way of the freight train got in the way of train 44 going north. The two little girls were struck in the back of the head and their skulls were crushed, killing them instantly, the mothers barely escaping death by being only a little further away from the track.

Floods in Japan.

Tokio, August 12.—Fully two hundred persons are dead, thousands are homeless and more than ten towns and villages have been swept away by floods that are raging throughout many districts.

More than 30,000 houses are submerged in the lower parts of Tokio alone. Communication is at a standstill. Railroads have been washed away, telegraph and telephone lines are down and it probably will be days before the full extent of the enormous damage can be learned. Starvation today is facing thousands of people whose homes and crops are gone and the government is preparing to go to their aid.

An Unusual Accident.

Special to the Charlotte Observer.

Wilmington, Aug. 13.—Dr. W. D. McMillan, county superintendent of health, and at present acting city superintendent of health, met with an accident today in a most extraordinary manner. In ringing the door bell at the residence of one of his patients it was necessary to give a twist to the bell and in doing so his right shoulder was dislocated. He was carried to his home and a physician summoned to render the necessary attention. He hopes to be out in a few days.

Houses Cave-in Without Warning.

Staunton, Va., Aug. 23.—The cave-in which occurred here yesterday in the heart of the city continues to alarm residents and there has been a general exodus from adjacent buildings. The fire house is now sinking and the public school building is threatened. A large portion of the two-story residence of Prof. C. L. Wilson has entirely disappeared in the crevice and the backyard has sunk thirty feet below the house level. It is now believed that the phenomenon was caused by an arched-over creek which has been undermining the buildings adjacent to it. The city officials have sent for engineers to investigate the situation and to decide how to check the creek from making further inroads on buildings within the city.

The theory held by government geologists is that the trouble was caused by water percolating the limestone, which underlies that entire section, and thus has weakened the foundations of buildings and caused them to give way. Mr. Van Horn is familiar with the geological structure of that portion of Virginia and from press reports he judges that dissolving limestone is responsible for the trouble.
