lican party!

does not know Butler!

Why should Butler leave his say of Butler: very lucrative practice as a lawthe Republican campaign? Why did he work so long and industriously, and spend so much money, to capture the control of the Republican party? Does anybedy think he has gone to all this trouble and expense from purely patriotic motives?

Butler is such a schemer and is so selfish that everybody must know that he is influenced in this campaign by some deep-laid plan "to feather his nest." Everybody who knows him knows full well that Butler is for Butler every time, and that he expects to be well paid for all the time and money he has expended in his effort to secure control of our State government.

How can Republicans expect to make their party "more re- abuse! spectable" by selecting Democratic deserters as their candidates? Who ever heard of an army having as its leaders the army? And yet that is what the Republicans are doing in this

In the first place, they have selected as their nominal leader, as the chairman of the State executive committee, a man who had never attended a Republican convention until he was nominated for Congress two years ago, Mr. J. Motley Morehead. Their candidates for Congress in the fourth, sixth, seventh and ninth districts were all strong Democrats until very recently, Cooley, wall, Charles Hickman, convict-Meares, Parker and McNinch. ed of wife murder, escaped from ter and did not attempt to an-Were these recent Democratic deserters selected as Congressional candidates because the Re- breaking was discovered by a publicans had no old-time Re- trusty, distributing breakfasts, publicans fit to run?
