# Chatham Record GENERAL WOOD FAVORS A BIG VOLUNTEER ARMY

UNITED STATES ARMY NOT PRE-PARED FOR WAR, SAYS THE CHIEF OF STAFF.

## TO RE-ESTABLISH CANTEEN

General Wood Paints a Gloomy Picture of Shortcomings of U. S. Army in Annual Report.

Washington.-Maj. Gen. Leonard Wood, chief of staff, paints a rather gloomy picture of the lack of preparedness of the army in case of war in his annual report to the secretary of war.

There are weak spots in many directions, he says, and most serious is the shortage of field artillery and ammunition, a fault which should be immediately attended to. General Wood declares that there is a great lack of reserve seacoast ammunition, and that at the present rate of appropriation by congress, it will take more than fifty years to obtain a reasonable supply of ammunition for the coast defense and a still longer time to secure the necessary number of field artillery guns and ammunition. If the regular army and organized militia be no such possibility as betting on at war strength were called to arms now, says General Wood, there would be a shortage of more than 50 per cent, in the field artillery necessary to equip them. As this force would represent only a portion of the force called to arms in case of war with a first class power, the gravity of the situation becomes apparent.

General Wood strongly urges the passage by congress of the bill pending for raising a volunteer army in time of war. He says this will cost nothing in time of peace, and will save the government millions of dollars in time of war. The present law is so unsatisfactory and vague that the general staff cannot make preparations in advance for its execution in event of

Other needs of the military service are set out in the report, including the addition of 610 officers to replace those detailed from line duties for staff and militia work; the creation of a reserve of not less than three hupdred thousand men who have served in the regular army or militia; the concentration of the army in large posts; the re-establishment of the canteen, and finally the increase of the signal corps and the acquisition of

J. C. Johnson, Cigarmakers' Organizer, Left Florida Upon Advice of. Citizens' Committee,

St. Louis, Mo .- The American Federation of Labor unanimously adopted resolutions protesting to Governor Gilchrist of Florida against the so-called mistreatment of union men in the Tampa cigarmakers' srtike troubles, and demanded that the governor accord adequate protection to the striking men.

The protest followed the receipt of a telegram by President Gompers announcing that a man named Johnson -an organizer for the union stationed at Tampa-had been ordered out of town by the citizens.

The Florida governor and the Tampa mayor and sheriff were subjects of condemnation when President Gompers and other delegates declared that union men were not receiving the protection of the authorities. The president, in a speech, declared that with three men in jail and one dead as the result of the lynching, it was time for something to be done.

# FIRE BURNS MANY GIRLS. SIMPLY A WASTE OF MONEY

Explosion of Gasoline in New Jersey Box Factory Results in a Very Sad Tragedy.

Newark, N. J.-In ten minutes 25 girls were burned alive Saturday morning, or crushed to death on the pavement in leaping from the windows and fire escapes of the fourstory brick factory, at the corner of Orange and High streets.

The rush of the flames was so incredibly swift and threw such unreasoning terror into the huddled working girls on the top story. that the body of one was found still seated on a charred stool beside the machine at which she had been busy when the first cry of "fire' petrified her with fright.

The building was a four-story structure occupied on the two lower floors by the Newark Paper Box Company and the A. A.
