

WHEN the stock law was first agitated in this State there was so much opposition to it that many of its opponents resorted to violent means and methods to resist its enforcement...

THE opposition to the stock law has generally abated and disappeared wherever it has been established and tried. In many counties, when the stock law was first established, its opponents were so violent in their opposition...

THE University of North Carolina is to be congratulated upon another victory won in an inter-collegiate debate. On last Friday night a most interesting debate was had at Chapel Hill between two students of our University and two students from Tulane University at New Orleans...

These inter-collegiate debates are very improving and should be encouraged more than they are. The subjects selected are usually of a practical kind and the study of them greatly improves and informs the young debaters...

THE next annual reunion of the North Carolina Division of the United Confederate Veterans will be held at Winston-Salem. That was decided on at the last meeting, held last August at Wilmington...

ROOSEVELT'S chances for the Republican nomination continue to improve. His latest victories are his carrying Texas and Maryland. In the latter State there was an especially strenuous and bitter contest between him and the latter was quite confident of success.

The Democratic aspirants for the presidency had varied success in those two States, Wilson carrying Texas and Champ Clark carrying Maryland, and the race for the nomination seems to be between those two candidates.

His many friends are grieved to hear of the critical sickness of Col. Ashley Horne, who was stricken with paralysis, on last Monday, near Greensboro when on the train going to the Confederate reunion at Macon. He was removed from the train to a nearby hotel at Greensboro and at once received all the treatment that medical skill and loving hands could minister.

THE Mecklenburg county Farmers' Union, at a meeting held last Saturday, adopted some resolutions that we commend to the favorable consideration of every county union, and which are as follows:

'First, That the Farmers' Union is positively not in partisan politics. 'Second, That the Farmers' Union is backing measures and not men.

'Third, That it does not favor any candidate or set of candidates—nor does it oppose any.' That which makes the adoption of the above resolution the more important and significant is the fact that the chairman of the committee that prepared them was Dr. H. Q. Alexander, the conservative and level-headed President of the State Union.

It is well for the Farmers' Union to avoid the danger that destroyed the Farmers' Alliance, for the former would share the fate of the latter if it allowed designing demagogues to use it as a ladder to climb into office.

THE committee appointed by Col. Ashley Horne to select the design and superintend the erection of his proposed monument to the women of the Confederacy will meet at Raleigh on the 21st of this month, at which time and place they will inspect the designs offered by some of the most eminent sculptors in the United States, several of whom will be present to explain their designs.

Our readers will remember that Col. Horne has given ten thousand dollars for the erection of the proposed monument on the Capitol square at Raleigh, and it is intended to be a memorial to the heroic women of the State who suffered and sacrificed so much during the war between the States. A similar monument was unveiled last month at Columbia, South Carolina, in memory of the women of that State, but that monument was erected by the contributions of many hundreds and by an appropriation by the legislature. The proposed monument at Raleigh will be of an entirely different design from that.

STRAWBERRIES are a most important and profitable crop in the southeastern part of this State and the season is now in full blast. They are shipped not only by the carload but by whole trains composed of many cars loaded with nothing but strawberries.

More are shipped probably from the small town of Chadbourn, in Columbus county, than from any other point in this State, or even in the South. Hundreds of persons, men, women and children, are given employment at good wages in picking the berries and the sale of the berries in Northern cities bring a large amount of money into circulation throughout all that section.

Nearly all the strawberries shipped from this State are hauled on the Atlantic Coast Line railroad in refrigerator cars and so fast is their schedule that the berries arrive in New York in little over twenty-four hours

from the time they are picked. This rapid transportation in refrigerator cars keeps the berries fresh and they are usually in good condition when eaten in Northern cities several hundred miles distant from the shipping point.

PREIDENT TAFT is doing the country a service in warning against the danger of Roosevelt being nominated and elected. In a speech last Saturday at Baltimore he accused Roosevelt of stirring up class feeling and hatred "and array those who have not much against those who have more." He also, in the same speech, referred to "the great crisis" in the country's history now involved in Roosevelt's candidacy, as follows:

"Mr. Roosevelt," said the President, "says he should be elected because he says he is a necessity; that the American people think there is no one else who can do the job. The job is, apparently, from what he says, to bring about a condition of social justice. He does not say how he is going to bring it about; and as it seems to change gradually our present conditions and it would take a long time to effect such tremendous reforms, we must therefore look forward to his view that a lifetime may be necessary. With his power of inducing the people to support him, with the opportunity that a President, and as active as he is in politics to perpetuate his power, he becomes a real danger. And with his little regard for constitutional restriction his little regard to the due process of law, I cannot but think that there is a great crisis in the country's history involved in the question whether now for a third term he shall be the nominee of the Republican party and be elected to the presidency."

Carload of Eggs. Siler City, May 6.—Siler City having earned the enviable reputation of being the biggest market in the South for rabbits, now comes to the front as being the only town in the State from which a solid carload of eggs has been shipped on one consignment.

Capt. W. S. Durham, the pioneer produce dealer of this town, shipped last Friday, one carload of eggs, being one hundred and fifty crates, or forty-five hundred dozens, or fifty-four thousand eggs. On the same day that these eggs were shipped, Mr. Durham purchased from one farmer over six hundred dozen eggs, which are not included in the carload shipment; this, however, is a daily occurrence. More than \$65,000 is expended each year in this town alone, for chickens, eggs, quail and the famous Chatham rabbit—which fact bespeaks that the produce business of Siler City is no small affair.

Lame back is usually caused by rheumatism of the muscles of the back, for which you will find nothing better than Chamberlain's Liniment. For sale by all dealers.

Deepest Hole in the World. Charleston, W. Va., May 2.—What is intended to be the deepest hole in the world is being drilled on Slaughter's creek by William Seymour Edwards, owner of extensive oil holdings in this county. The well is now 5,230 feet deep, and is being drilled for geological investigation, the nature of the formations through which the tools pass being carefully noted and a record of their thickness kept. At present the deepest hole in the world is in South America, and is 6,001 feet deep. The second deepest is 5,420 feet in depth and is in Pennsylvania.

There never was a time when people appreciated the real merits of Chamberlain's Cough Remedy more than now. This is shown by the increase in sales and voluntary testimonials from persons who have been cured by it. If you or your children are troubled with a cough or cold give it a trial and become acquainted with its good qualities. For sale by all dealers.

It would surprise you to know of the great good that is being done by Chamberlain's Tablets. Darius Downey, of Newberg Junction, N. B., writes, "My wife has been using Chamberlain's Tablets and finds them very effective and doing her lots of good." If you have any trouble with your stomach or bowels give them a trial. For sale by all dealers.

The borax deposits of the United States are of great extent and there seems to be little danger of their exhaustion. In 1910 we produced, according to the United States Geological Survey, 42,357 tons of crude borax, valued at \$1,201,842, while the value of the imports amounted to only \$12,397.

Whiskey's Fatal Work. From the Smithfield Herald. Last Saturday Mr. Bud McLamb, an industrious farmer of Pleasant Grove township, plowed until noon, and then went to Benson after dinner and spent the afternoon there. Late in the evening he went to the home of one of his brothers, who lives on the farm of Mr. Pink Tart, to spend the night. He found there some whiskey, which had been ordered from Virginia, and drank enough of it to kill himself. It is said he took a rubber tube and drank it from a keg, as a thirsty man would drink water on a hot day. Afterwards he lay down across a bed and later was heard to make some noise. Some of the family went to him and found him quiet and dead.

Metal and Seed. White Lead and White Zinc made from the metals lead and zinc—are pigments. Linseed Oil is pressed out of flaxseed. A little oil mixed with these pigments constitutes the L. & M. semi-paste paint. It's made so that by adding 3 quarts of linseed oil to a gallon of L. & M. semi-paste—14 gallons of ready for use paint is produced at a cost of \$1.57 per gallon. Anybody can mix the oil with the L. & M. in five minutes. It saves from \$5 to \$25 in painting a house. Call on W. L. London & Son, Pittsboro.

Reward for Kindness. Baltimore, May 2.—Miss Dorothy Bateman, of Newport, R. I., is left \$500,000 by the codicil to the will filed today of Ross Winans, of this city, who died recently.

Miss Bateman is the daughter of a Newport hotel keeper at whose house Mr. Winans spent last summer. He was in poor health and she is said to have won his regard by her kindness and attention to him.

Now is the time to get rid of your rheumatism. You can do it by applying Chamberlain's Liniment and massaging the parts freely at each application. For sale by all dealers.

Sanford Express: Mr. J. H. Kennedy, secretary and treasurer of the Egypt Improvement Company, was in town Tuesday and informed The Express that the company is now having a deep well bored at Cunnock and will put in a modern water system on its big farm there. The water will be raised from this well by a pump operated by a gasoline engine and will be piped to all parts of the farm. Mr. Kennedy says that he finds that their big 45-horse power gang plow can be operated at \$7 the day.

Escapes an Awful Fate. A thousand tongues could not express the gratitude of Mrs. J. E. Cox, of Joliet, Ill., for her wonderful deliverance from an awful fate. "Typhoid pneumonia had left me with a dreadful cough," she writes. "Sometimes I had such awful coughing spells I thought I would die. I could get no help from doctor's treatment or other medicines till I used Dr. King's New Discovery. But I owe my life to this wonderful remedy for I scarcely cough at all now." Quick and safe, it's the most reliable of all throat and lung medicines. Every bottle guaranteed. 50 cents and \$1. Trial bottle free at G. R. Pilkington's.

Arizona heads the list of copper-producing States with a production of 303,202,532 pounds, the largest production ever made by the State. Montana is second, with 271,814,491 pounds; Michigan third, with 218,185,236 pounds; and Utah fourth, with 142,340,215 pounds.

Poor appetite is a sure sign of impaired digestion. A few doses of Chamberlain's Stomach and Liver Tablets will strengthen your digestion and improve your appetite. Thousands have been benefited by taking these Tablets. Sold by all dealers.

Democratic Convention

The Chatham county Democratic convention is hereby called to meet in the court-house in Pittsboro, N. C., on Saturday, May the 25th, 1912, at 12 o'clock m., for the purpose of selecting delegates to the State, Congressional and Senatorial Conventions. The precinct meetings will be held at the usual voting places on Saturday, May 18th, 1912, at 3 o'clock p. m. The precincts are entitled to the following vote in this convention: Albright 4; Baldwin, 6; Bear Creek, 8; Buckhorne, 2; Merry Oaks, 2; Centre, 8; Gulf, 2; Richmond, 5; Hadley, 4; Haw River, 2; Hickory Mt., 6; Mt. Vernon Springs, 3; Siler City, 7; New Hope, 5; Oakland 2; Williams, 3. By order of the Democratic Executive Committee. FRED. W. BYNUM, Chairman. April 15th, 1912.

An Infant Strangled. Kinston, May 2.—An unusual accident caused the death of a 10-months-old son of Dr. and Mrs. W. W. Whittington, prominent people of Snow Hill. Mrs. Whittington left the child sitting in a perambulator for a few moments and was horrified upon her return to find the little one hanging, head down, from the side of the carriage. It was presumed that the baby made an effort to get out of the carriage, and in doing so was caught by its clothing in the strap of the vehicle and held by the feet, a garment twisted about its neck causing death by strangulation.

TAX SALE

On Monday, the 3rd day of June, 1912, at the court-house door in Pittsboro, N. C., I will sell at public auction for cash, for the taxes due thereon for the year 1911, the following lots or parcels of land:

Table with columns: Albright Township, ACRES, AMT. J P Baldwin, about 40 \$3 36; Jemima Bridges 19 67; W G Carter 90 3 36; J W Fogleman 35 8 87; Rebecca Loy 20 64; John F Lindley, bal 94 8 01; Ben Pike 51 2 52; H C Wrenn 87 2 52.

Table with columns: Baldwin, L F Baldwin est. 140 8 74; A Baldwin est 144 8 40; J F Bryant, bal 67 7 55; Joe W Mann 6 14 31; I W Pritchard 185 8 40; Dr Roberson est 738 37 80; W F Stroud est 362 18 28; J W Stroud est 83 4 11; D S Smith 30 1 27; E Snipes 35 1 46; Dr J B Thompson 172 8 40; Mrs Mary Dollar 72 3 02.
