Some of our subscribers will not receive another Record after next week unless they pay their dues. We will regret to part company with any, but a newspaper cannot be published without subscriptions being paid. Kind reader, ask yourself if you are in that number.

In addition to their usual large stock of dry goods and groceries Atwater & Lambeth have now for sale a full supply of Christmas toys, good things to eat and everything that you may want at Christmas for yourself or to give away. See their stock before buying. adv

The days are now nearly at their shortest and the nights at their longest. Next Tuesday will be the shortest day of the year.

The "grab-bag" party, which was to have been held last night, is postponed until tomorrow (Thursday) night at the residence of Mrs. Laura E. Horne.

A year's subscription to THE RECORD would be a most acceptable Christmas present for you to send to some friend or relative who has gone from this county to some other place. It would be like a weekly letter from home and be enjoyed all the year. Try it.

On last Saturday morning revenue officers from Raleigh captured and destroyed a large whiskey still in this county about twelve miles northwest of Pittsboro. The operators escaped. The destruction of this still has no doubt deprived many a thirsty blockader of his Christmas dram.

Our farmers have never had a more favorable season for sowing wheat than the past fall, and the man who has not yet finished sowing has only himself to blame. Last year the continued rains interfered greatly with wheat sowing. Some of our farmers had some trouble in getting their seed wheat this fall.

A concert will be given by the students of the Moncure school at 7 p. m., Thursday, Dec. 16th, at the academy. For the benefit of the school, a small admission fee will be charged. On Friday night, at the same hour and place, a recital will be given by the music students of the said school. The public is cordially invited to come both nights.

During the year ending the 30th of last month 100 marriage licenses were issued in this county to whites and 66 to colored persons. This is a much smaller number than usual and would indicate that our young men and maidens are rather afraid of venturing on the sea of matrimony. Last year the number of marriage licenses issued to whites was 113 and 84 to colored couples.

From now until Christmas express offices and the postoffices will be crowded with packages. So many persons wait until the last few days before Christmas to send their Christmas packages, and the result is the express agents and postoffice employees are greatly crowded with the rush. Your packages will be handled more carefully and will be more certain of reaching their destination if sent now before the rush.

Old Deed.

Among the old deeds registered in this county is one executed by Herman Husband to John Bra, on the 4th of March, 1784, for 100 acres of land, and being part of the tract conveyed to Husband by the Earl of Granville on the 11th of December, 1762.

As many of our readers know, Herman Husband was one of the most prominent of the Regulators before the Revolutionary war and took an active part in those troublous times. He afterwards removed to Pennsylvania and was one of the leaders in the "whiskey insurrection" in that state, which President Washington suppressed with a military force. His name is usually printed as Husbands, but the deed above referred to is signed Herman Husband, without the final "s."

Historical Meeting.

On last Friday night quite a number of the ladies and gentlemen of this place met at the residence of the editor of THE RECORD for the purpose of stimulating the study of our state and county history. They decided to act in co-operation with the Winnie Davis Chapter of the Daughters of the Confederacy in historical research.

Interesting and instructive articles were read by Messrs. F. M. Williamson, Earl R. Franklin and Mesdames George H. Brooks, Mary A. Barber and W. H. Griffin, and Misses Elsie Williams and Nellie Pilkington. Mrs. Henry A. Bynum accompanied on the piano by Miss Carrie M. Jackson, sang several songs that were much enjoyed. All present declared that they had greatly enjoyed the occasion and they manifested much interest in the object and purpose of the meeting. They will meet again on the second Friday night in January.

Greece Commanders Ships.

London, Dec. 14.—The Greek government has commandeered all Greek shipping in British and American ports in an effort to supply the deficiency in food and coal that exists in Greece as a result of the entente allies' restrictions.

Personal income tax was paid during the last fiscal year by 357,515 individuals, who turned into the government \$41,046,162.

Chathamite Complimented.

It is always a pleasure to THE RECORD to note the success of any old Chathamite in his distant home. Last week the Mitchell County Banner published a "Booster" edition in which appeared a photograph and complimentary write-up of our former countyman, Prof. Robert Tilden Teague, the principal of Mitchell Collegiate Institute at Bakersville. The Banner publishes quite a complimentary sketch of Mr. Teague and of the great work he has done and is doing for the people of Mitchell county.

Lumberton Tribune: There are cows in Robeson that give four, five and even six gallons of milk a day. This is a big improvement over a few years ago when cattle ran at large in the woods, were full of ticks and if one gave as much as a gallon of milk a day she was considered an extra good cow.

Sciatica's Piercing Pain.

To kill the nerve pains of sciatica you can always depend on Sloan's Liniment. It penetrates to the seat of pain and brings ease as soon as applied. A great comfort too - with Sloan's is that no rubbing is required. Sloan's Liniment is invaluable for stopping muscular or nerve pain of any kind. Try it at once if you suffer with rheumatism, lumbago, sore throat, pain in chest, bruises, sprains, etc. It is excellent for neuralgia and headache. 25c at all druggists. adv

The very severe storm of wind, snow and sleet that swept over New England, Pennsylvania and New Jersey last Monday night did much damage. Railroad trains were stalled and telephone and telegraph wires protruded.

Activity in cotton spinning throughout the United States was greater last month than during any month for some time, the number of bales consumed being 514,534.

There are now 20,000 automobiles licensed in North Carolina, according to the records in the department of state. This is just 5,000 more than were registered at any time during last year.
