RAILROAD WAGES Shall they be determined by Industrial Warfare or Federal Inquiry?

To the American Public:

Do you believe in arbitration or industrial warfare?

The train employes on all the railroads are voting whether they will give their leaders authority to tie up the commerce of the country to enforce their demands for a 100 million dollar wage increase.

The railroads are in the public serviceyour service. This army of employes is in the public service—your service.

You pay for rail transportation 3 Billion dollars a year, and 44 cents out of every dollar from you goes to the employes.

On all the Southern railroads in 1915, seventy-five per cent of the train employes earned these wages (lowest, highest and average of all) as shown by the payrolls-

England is also much better prepared for war than when it began, and her disciplined and well equipped soldiers are now successful in their battles with the Germans, who at the beginning of the war were all properly prepared. The continued improvement of the Russian and English armies indicates that they will be victorious during the remainder of the war.

A 100 million dollar wage increase for men in freight and yard service (less than one-fifth of all employes) is equal to a 5 per cent advance in all freight rates.

The managers of the railroads; as trustees for the public, have no right to place this burden on the cost of transportation to you without a clear mandate from a public tribunal speaking for you.

. The railroads have proposed the settlement of this controversy either under the existing national arbitration law, or by reference to the Interstate Commerce Commission. This offer has been refused by the employes' representatives.

Shall a nation-wide strike or an investigation under the Government determine this issue?
