Berlin Reports Advances Against Serblans .- French Mark Time in West Fierce Struggle Around Fleury in Verdun Sector Continues.

London. - With no important changes in the main war theaters interest remains centered on the news Allied offensive on the Saloniki front. The latest dispatches, however, throw little light on the situation and the Allies' plans are somewhat obscure.

The British report that the Bulgarians have advanced along the Struma Valley and have entrenched themselves at various points. Berlin also reports further advances for them on the right wing where they face the Serbians. Apparently, however, no action of first importance has yet developed.

Interest in the attitude of the Greeks has been heightened by dispatches telling of the determination of the Greek commander at Seres to resist the Bulgarians and of volunteers being organized for his assistance by the Venizelos leaders at Saloniki.

There has been no further development in the Rumanian situation. The last report from Berlin maintains that Rumania has not reached a decision. On the Western front the French

are apparently marking time while the British push against Thiepval and in entering some British trenches but according to London were immediately evicted.

The fierce struggle around Fleury, in the Verdun sector, continues. The French claim "an appreciable advance" between Fluery and Thiaumont and the capture of 200 pris-

Apples Rot for Lack of Road.

Asheville.-People of the Bat Cave section are beginning to lose patience over the failure of the state and government to provide them with a road to market. There are thousands of bushels of the finest mountain apples to be found in the country simply rotting on the trees, a farmer from that region declared here and all that is necessary is a road by which they can be brought to some station and ship-

ped to market. "If we can get a road" this farmer explained, "the people of the Bat Cave section can take care of themselves. We do not need charity. What we want is a road, and we will furnish our own charity. But with winter growing closer every day, and no road in sight, the prospects are not exactly rosey hued. With a decent road into Bat Cave we could have a large number of tourists there right now, but we can't get them if there is

no way for them to reach the country." The only road open to Bat Cave at present is the road from Hendersonville, and that is largely due to the methods employed by Scott Freeman in handling the relief funds. He put the funds into roads, and the money went to the people just the same. The result is that there is one road by which the country can be reached, although an automobile cannot get to

Esmeralda Inn, one of the show places of the section. With the Asheville-Charlotte High way restored, it is estimated that a large number of people will yet visit the Bat Cave section and this tourist business, combined with a chance to dispose of their apples and other fruits will make the people of that section
