#### CONTEST ENDED RIGHT THERE

After Mr. Jigson's Statement All Felt That It Would Be Mere Folly to Continue.

It was the annual reunion of all the members of the Globe Trotters' club. Speeches had been made by everybody who was anybody; this and that proposition had been seconded by So-andso, and all the usual business inevitable at such a gathering had been waded through. Then the chairman rose to his feet, holding in his hand a handsome gold watch.

"Gentlemen," he said, impressively, "by way of a novelty the club will present this watch to the member who tells us all the most palpable lie."

Then the contest started. All sorts of yarns were narrated, describing sundry wildly impossible adventures, and then it was the turn of Jigson, a gentleman with a mania for angling. "Gentlemen," he said, apologetically, "I trust that you will allow me to refrain from entering this peculiar con-

# One mistake many women make in buying coffee

You know how hard it is to get a coffee which really satisfies you. You know how seldom you can find a coffee which has the same fine taste and strength every morning! It can be done. You can do it if, when you buy coffee, you are careful not to make the mistakes so many women make. Read the experiences below-you yourself have undoubtedly had one or both of them.

### Beware of loose coffee

Are you buying coffee which you get loose, coffee which hasn't been protected by a sealed package? Are you afraid that it isn't clear? Has it lost its aroma?

Are you often disappointed in its strength? It isn't the grocer's fault. With loose coffee he can't be sure that it is the same kind he got before. You always run

the risk of getting different coffee every time you buy. And even if the coffee itself were the same, it can't be kept "loose" without losing its strength and flavor.

### In packages—protected!

You can do away with every one of these disappointments by ordering the coffee which over one million other families drink.

Arbuckles' Coffee is such good coffee that way back in the sixties, when all other coffees on the market were loose and unprotected, Arbuckle Bros. protected theirs in sealed packages. This sealed package keeps the coffee's strength, and guards it from moisture and store odors. Most important of all, it makes it easy for you to be sure that you are getting the same good coffee every time you buy.

# The second mistake women make

Are you continually being offered the same old coffee under new names? Under all sorts of new blends?

Old coffee with new names

Did you ever stop to think of the hundreds of coffees which come and go on the market? And that all of these have tried to turn women away from Arbuckles' Coffee?

Arbuckles' is the coffee which has gone right out, always under its own name, never disguised, and held its users simply on the wonderful value it gave. You know what good value a coffee must be to do this against the competition of all the other coffees in America!

### Used in a million homes

Settle, for all time, your coffee problem, by giving your family the only coffee which over a million families have proved to have the real coffee taste they want.

When you get Arbuckles' Coffee you get an entirely different coffee. No other coffee goes through the same process -in no other coffee can you get the same good flavor. The result of the care Arbuckle Brothers take in selecting it, in roasting and in packaging it, gives you an entirely different coffee from any other on the market.

Order it from your grocer today. He has it, in either the Whole Bean or the new Ground. Try it. See why it is by far the most popular coffee in America. Arbuckle Brothers, 71- Ch2 Water St., New York.
