MILLIONTH MAN TO EMBARK FOR HOME ITALY'S DELEGATES TO FIND SOLUTION

RAILROAD, TELEGRAPH AND TELEPHONE CASES ARGUED

Washington.-Authority of the director general of railroads and the postmaster general to increase intrastate railroad, telegraph and telewas argued in the supreme court in connection with appeals from proceedings originating in a number of States.

The solicitor general argued that in increasing telephone and telegraph rates the postmaster general was acting on behalf of the public, as the corporations which own the wires through government control had ceased to operate them, and acted solely as the government's agents.

"If the government didn't fix these rates, who would?" asked Justice Mc-Reynolds during the course of the solicitor general's argument. "I suppose the states would," the

The entire upper half of the building is a mass of flames and there is no way of knowing how many had all ways of escape cut off.

EMBARRASSMENTS OF THE CONFERENCE RELIEVED

Paris.-The announcement that Premier Orlando and Foreign Minister Sonnino, the leading Italian deelgates to the peace conference, had left Rome for Paris, and the further news that the Belgian crown council had given its assent to the signing of the peace treaty by the Belgian delegates regardless of the unsatisfactoriness to Belgium of the financial arrangements have resulted in relieving the embarrassments of the peace conferees.

NEGOTIATIONS MAY BE RESUMED PROBABLY ABORTIVE EFFORTS AT POINT WHERE THEY WERE BROKEN OFF.

All of Munich Is Now in Hands of Government Troops Excepting One Section of the City.

The Italian delegates to the peace conference, who left Paris almost abruptly when the members of the solution for the Adriatic problem council of four representing Great Britain, France and the United States, from France aboard the transport refused to grant Italy's full claims to Fiume and the Dalmation coastal region, have been invited to come back to Paris and resume their places in the peace conference.

Paris dispatches assert that by reason of this invitation it is believed the Italians will return to the French capital and that the negotiations over the disputed points will begin again where they were left off.

The invitation of the council of three, it is understood, has in view the elimination of the personal element in the controversy and the paving of the way for a territorial adjustment acceptable to Italy when the conferees are again together.

In Belgium the dissatisfaction over the awards to Belgium has resulted in a petition being presented to King Albert, asking him to decline to affix his signature to the peace treaty. AUCH ACCOMPLISHED BY THE OMSK GOVERNMENT

Omsk.-The Omsk government has accomplished in months what other governments saddled with similar re construction work have taken years to achieve. When Admiral Kolchak took control of the administration there was virtually nothing in Siberia resembling a central government.

There were remnants of the old regime, badly disorganized, and vacious parts of Siberia were barely able to maintain local control without affliation, one with the other.

However, when M. Cambon, instead, proposed an exchange of credentials for verification, the Germans were so satisfied that they did not go out of their way to seek trouble. The Germans planned a sightseeing excursion to Trianon and Little Trianon and had requested permission to visit the historic apartments of Madame Maintenon and Marie Antoinette. The necessary permits were not received, however, and the project had to be abandoned.

ANOTHER ATTEMPT IS MADE TO ASSASSINATE CLEMENCEAU

Paris.-Another attempt to assassinate Premier Clemenceau apparently has been frustrated by the arrest of a 19 year old youth, who was seized near the entrance of M. Clemenceau's home.
