What the Juvenile Courts Do

By reason of the passage by the Legislature of the State-wide Juvenile Court law, children under sixteen years of age cannot any longer be considered criminals under the laws of this State when they are guilty of some infraction of the State or local laws. They must be dealt with, not as criminals in the courts where adult men and women are tried and prosecuted, but they must be dealt with in a special court and in a manner designed to provide discipline, correction and help to correct their bad habits, just as such discipline and help should be provided by all parents, but is not.

The Clerk of the Court is now the juvenile court judge for the whole county and he is given original jurisdiction in all cases where children under sixteen years of age may be found in the following classes:

(a) Who is delinquent or who violates any municipal or State law or ordinance or who is truant, unruly, wayward, or misdirected or who is disobedient to parents or beyond their control, or who is in danger of becoming so; or

(b) Who is neglected, or who engages in any occupation, calling, or exhibition or is found in any place where a child is forbidden by law to be and for permitting which an adult may be punished by law, or who is in such conditions or surroundings or is under such improper or insufficient guardianship or control as to endanger the morals, health or general welfare of such child; or

(c) Who is depending upon public support or who is destitute, homeless or abandoned, or whose custody is subject to controversy.

The Board of County Commissioners and the County Board of Education shall jointly elect and pay a County Superintendent of Public Welfare in each county not later than the 15th of July, who shall be the chief probation officer of the county and the chief school attendance officer. And it shall be his duty to bring to the attention of the juvenile court

all classes of children in his county who come under the above classification. The judge shall investigate the case in chambers, sitting anywhere in the county he may deem convenient, and after finding out all he can about the circumstances of the child's life, make such disposition as he deems best for the welfare, discipline and training of the child.

This is the most progressive and humane step that has been taken in court procedure in this State in many, many years.

MORE than \$78,000,000 will be paid as interest on Liberty bonds held by the people in this country on May 15, and that day will be known as "America's pay day" throughout the United States. The War Loan Organization of the Fifth Federal Reserve District urges everybody to exchange their May Liberty bond coupons for War Savings Stamps in order to keep their money growing and at the same time help the government. If the entire \$78,000,000 were converted into May War Savings Stamps the sum would grow to \$93,000,000 by January 1924. Every stamp obtained by exchanging Liberty bond coupons in 1919 will be worth \$5 on January 1, 1924, and should the holder find that he cannot afford to keep his stamps as long as that, he can cash any number of them he desires at his postoffice by giving ten days notice.

RALEIGH is one of 32 cities in the United States in which air terminals are to be established soon. The scheme contemplates a system of air lanes that will ultimately be utilized for military, postal and commercial purposes. For some time the chamber of commerce at Raleigh has been active in urging the establishment there of a government landing field, which now seems assured.

On next Monday will be started a week's campaign for funds needed by the Salvation Army. The war work done by the Salvation Army was second to none in usefulness, in proportion to funds supplied and the number of persons engaged. Prof. F. M. Williamson is chairman of the committee in Chatham county appointed to raise Chatham's quota.

WHILE it will be at least two weeks before it is definitely known just how much was subscribed to the Victory loan bonds, it is certain that considerably more than four and a half billion dollars asked for was subscribed. Everyone of the fifteen million subscribers should feel gratified at the success of the loan.

666 has more imitations than any other Chill and Fever Tonic on the market, but no one wants imitations. They are dangerous thing in the medicine line. adv

INVESTMENT of money in new roads does not become real economy until provision is made for keeping these new roads in condition after they are built. If a new road is built and then allowed to fall into disrepair, much of the original investment is simply wasted.

The Dog Nuisance

According to the racket they keep on the street here, and right on the business street at that, where millions, or maybe hundreds of dollars change hands daily, eleven hundred dogs, from the fussy they make, are running at large, howling, fighting, barking, disturbing the bankers, the bakers and candlestick makers to such an extent that one of the citizens of the town smoked up a cigar with the lighted end in his mouth and didn't know it.

It is a shame that these worthless dogs (and if they are not worthless they should be kept at home) are allowed the freedom of the seas and streets to such an extent that everybody and everything is almost demoralized. Just think of it! Fifteen dogs in one heap, all piled up together playing football, as it were, all fighting, scratching and barking at the same time.

We have elected a new set of town commissioners, and they are going to sit idle and let this dog nuisance continue? If so, how come?

Is It Fair?

The Railroad Wage Commission has recommended that the wages of all railroad employes receiving less than \$260 a month (and that, too, for 12 months in every year) should be increased. Such increase was ordered by the Director of Railroads.

In Illinois the average monthly wage of fifteen miners, as shown by the payroll at a mine, was \$217.78; the average monthly salary of fifteen public school teachers in the same town was \$55.

The average yearly salary paid public school teachers in the United States in 1918 was \$636.64; an Australian alien, a miner, earned more than \$2,700 during 1918.

Why this discrimination against public school teachers?

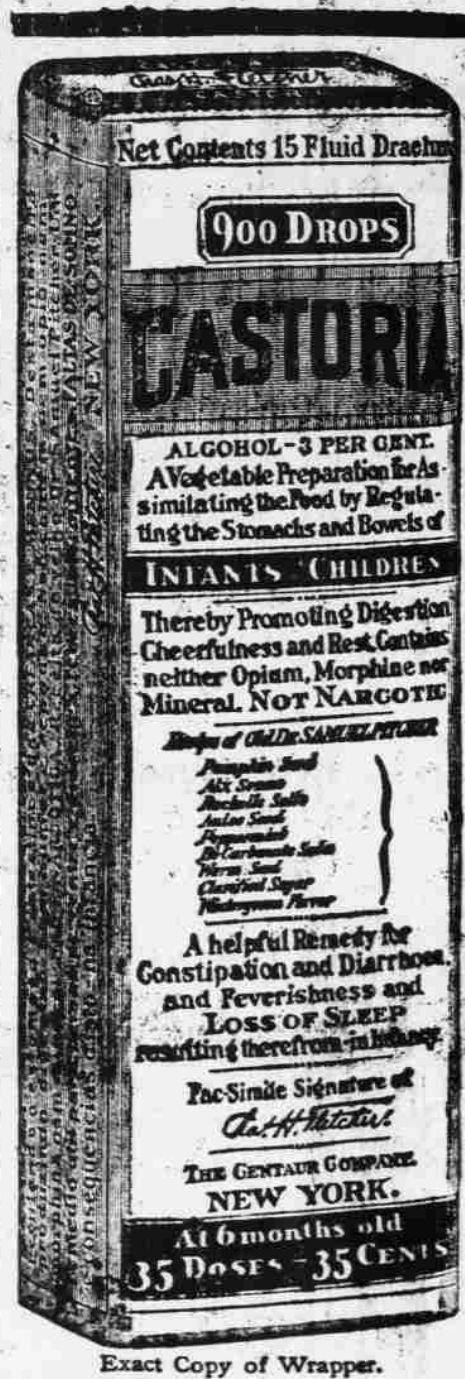

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught, Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodor's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regularly until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit. If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result. Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's original and genuine. E. T. P.

666 quickly relieves constipation, biliousness, loss of appetite and headaches, due to torpid liver. adv
