So Confused Is Situation That It Is Impossible to Obtain Even a Fair Idea of Existing Conditions.

Paris.-Latest advices from Berlin are to the effect that the German cabinet has resigned but that temporarily President Ebert is to retain office. Various conflicting reports as to the situation in Germany surrounding the intentions of those in high offices to sign or to leave unsigned the peace treaty of the allied and associated gov from his office emphasize the purpose ernments are current. The preponderating opinion as expressed in the numerous dispatches, however, indicated that, notwithstanding the fact that there was much opposition to them, the terms of the allies finally would be met, even if the signature of the treaty necessitated the resignation or even removal of those at present in the high councils.

So confused is the situation that it is impossible at present to obtain even a fair idea of conditions in Germany as they really exist, but there seems basis for the belief that it is the intention of the Germans finally to acquiesce in the allied demands.

President Wilson has returned to Paris from his trip to Belgium and, with Premier Lloyd George of Great Britain and Clemenceau of France, discussed both the Italian cabinet crisis and the German situation.
