A Word to Our Patrons It is our intention to do everything possible to help reduce the High of Living. Of course we do not claim and are not going to sell goods at what they cost us. If we did we would soon have to go out of business. We could not pay our salespeople. BUT, we buy goods direct from the manufacturer, eliminating the middle man's profit, this you save. We took a chance and contracted for thousands of dollars worth of goods when most merchants were afraid to buy. These we own and in many instances are selling goods across the counter at and below today's monufacturers prices. Of course we have no control over manufacturers and as our stocks become depleted we have to go into the market and buy new stocks. As we pay advance prices we have to get advance prices. Therefore, our advice to our customers is to do your
