## NEWS REVIEW OF CURRENT EVENTS

### President Wilson and Bryan Split on Ratification of the Peace Treaty.

### LATTER ADVISES COMPROMISE

Chief Executive Urges Issue Be Submitted to People and Nebraskan Opposes—San Francisco Captures Democratic National Convention—Developments in War on Reds.

By EDWARD W. PICKARD.

Predictions of a great split in the Democratic party, with William Jennings Bryan leading the revolt against President Wilson's policies, came to the verge of fulfillment at the big Jackson day dinner in Washington Thursday evening. Sensational developments had been expected, and they came. The president sent a letter in which he reiterated his demand for ratification of the peace treaty without changes that would alter its meaning, strongly condemned the Lodge reservations and urged that the entire issue be referred to the people at the coming presidential election.

Mr. Bryan, addressing the huge gathering of leaders, challenged Mr. Wilson's treaty policy and his utterances gave assurance that he and his followers will fight the matter to the finish in the Democratic convention if necessary. He condemned the action of the Republican majority in the senate which conceding its right to dictate the senate's course, and continued: "Our plan has been rejected and we must face the situation as it is. We must either secure such compromises as may be possible or present the issue to the country. The latter course would mean a delay of at least fourteen months and then success only in the case of our securing a two-thirds majority of the senate." The party, said Mr. Bryan, cannot afford to share with the Republicans responsibility for further delay, and cannot go before the country on the issue that such an appeal would present. He even went so far as to repudiate article X and to uphold the Lodge reservation on that article, saying: "If we do not intend to impair the right of congress to decide the question of peace or war when the time for action arises, how can we insist upon a moral obligation to go to war which can have no force of value except as it does impair the independence of congress?"

It remains to be seen whether Mr. Bryan can secure enough of a following to bring about a real split in the party. He himself is a potential candidate for the nomination, now more than ever, and it may be President Wilson will be compelled again to accept the place of standard bearer. His letter made no reference to this whatsoever.

San Francisco captured the Democratic national convention after a warm contest with Chicago and Kansas City. The Pacific coast metropolis pledged \$125,000 and free use of the Municipal auditorium, which seats some 15,000 persons. This is the highest price ever paid for a convention. The date for the convention was set for Monday, June 28, three weeks after the Republican convention meets in Chicago.

The national committee backed up President Wilson by adopting resolutions endorsing the treaty of Versailles and denouncing as unpatriotic the attitude of seceders who are trying to defeat it or to qualify it by nullifying reservations.

The Republicans also had an important gathering earlier in the week, when the party leaders of the 14 mid-western states held a two-days' show-up in Chicago. General Wood, Governor Lowden, both candidates for the presidential nomination, and National Chairman Hays were chief speakers at a big dinner, and it was taken for

granted that their utterances, or at least those of Mr. Hays, gave a definite indication of the platform on which the next Republican nominee for the presidency would stand. Assuming that this is true, the main planks of that platform will deal with labor and industrial relations and with the radicals who seek to overthrow the government. A fair summary of the propositions with which the party may be expected to go before the people this year is:

Fair representation for labor in all the councils of the nation. Development of closer relations between capital and labor with justice to both and also to the third side of the triangle, the public.

Sympathetic help for business, not antagonistic curtailment, as part of the economic readjustment.

Strong repressive measures against I. W. W.-ism and other forms of extremism which advocate overthrow of the present form of government.

Efficient and honest administration. No taxes which kill initiative. Adequate taxes, but none for extravagance.

A plan for spreading payment of the war debt over a long period of years. No undue federalization of industries and activities, such as railroads; strong federal regulation, but not government ownership.

No toleration of attempts to array group against group, section against section or sect against sect.

Back to the Constitution in times of peace.

General Wood handled the reds without gloves, as might have been expected. His hearers vigorously applauded such epigrammatic sentences as these:

"The big issue today is, first and foremost, maintenance of law and order, respect for constituted authority, and maintenance of a government under the Constitution.

"Give labor American leadership. Don't allow it to drift into the hands of anarchistic, red leaders.

"As for the reds, let's stamp them out. They grow only in communities where government is timid and slack. They are a cowardly lot, assassins and murderers often, cowardly always. With them we are in a war, and their brand is treason.

"We've got to follow up our immigration more closely. Why not instruct the consuls in Americanism? When they get over the gasp, let's put the literature of the reds in their hands. Let's meet them with the literature of Americanism.

"It is very fine to picture America as the refuge of the oppressed of the world, but there is danger in making America the dumping ground for the degenerates of the world. We've got to watch our immigration more closely."

The government evidently has accepted with alacrity the challenge of the reds and the war on them is extending to regions which they probably did not anticipate. If their cause needs martyrs, they will soon have thousands who may be so classed by their sympathizers. Since the year opened the agents of the department of justice have been making daily and nightly raids on the headquarters, resorts and homes of the radical leaders, and as fast as they can be examined by immigration commissioners the prisoners are being sent to the Atlantic coast for deportation. Ellis island could not begin to accommodate all of them, so one of the army camps is used for that purpose. At the time of writing Martens, self-styled ambassador from the soviet government of Russia, was still at large, though the authorities were searching for him, believing him to be the real head of the revolutionary communists in America. His chief of staff, Gregory Weinstein, who is rated as Trotsky's best friend in the United States, was captured. He has been in control of the distribution of bolshevik money and propaganda.

The Chicago Federation of Labor doesn't yet see the light. At a recent meeting it adopted a resolution denouncing the reds and the reds as a plot to kill labor unions in America, and also called on congress to give to Victor L. Berger the respect which he is entitled. Then the delegates of the painters' union were applauded

when they announced that plans were being formed to oust from their union every member who belonged to the American Legion. Of course such silly action cannot hurt the legion in the least, for, as Commander in Chief D'OFer has made clear, the purposes of loyal organized labor and of the legion are in full accord. How much longer will union labor of Chicago permit the reds to lead it about by the nose?

As for Berger of Wisconsin, he delayed presenting himself for a seat in congress, and issued the boast that if he were again excluded he would be elected governor of Wisconsin and then go to Washington as senator. There seemed small likelihood that the house of representatives would seat him, though Representative Mann of Illinois caused some surprise by declaring that he would oppose summary proceedings for the exclusion of the convicted Socialist.

New York's legislature started its session by denying their seats to five Socialists. A resolution was passed questioning whether they could be loyal to their oaths of office while bound to act subject to the instructions of the Socialist party, and the speaker ordered them brought before the bar of the house. They must now prove their fitness to occupy their seats before a special tribunal of the assembly. Only six assemblymen voted in their favor.

Though the reds are having such a difficult time in America, as much cannot be said concerning Russia. Over there they are sweeping ahead in a way that is most disheartening to their antagonists. The soviet troops have smashed their way through the armies of Denikine and reached the Sea of Azov at Taganrog, and are pushing ahead both east and west, with a prospect of soon being in full control of all of Southern Russia. Already they are threatening Odessa and reports from Moscow say the people of Odessa are fleeing, though other dispatches assert they are preparing to defend their city. In their progress eastward the bolsheviks are said to have taken the important railroad town of Kessoweski on the Caspian, and this, if true, will open to them the way to north Persia. In London the fear is expressed that the reds will be able to overcome the small British forces in Persia and the poorly organized native troops and seize Teheran, after which they might obtain control of the entire country. It is considered likely also that the bolsheviks will capture Baku on the Caspian, the great oil center.

The one setback which the soviet armies sustained was on the west. The reds, evidently not caring to participate in the armistice arranged by the Estonians, joined forces with the Poles and drove the bolshevik out of Dvinsk and eastward to Letgalla, a district which Latvia claims.

The supreme council in Paris decided the exchange of ratifications of the treaty of Versailles should take place on Saturday, January 10, in the French foreign office, but at this time there is indication that the Germans have dug up some additional excuses for delay in the assertion that the several states in their "republic" must be consulted. However, the patience of the entente allies probably will not last much longer.

The full extent of the damage done by the terrible earthquake in southern Mexico probably never will be known. It is certain that many thousands of lives were lost, and numerous small towns were wiped out. The disturbance was centered about Orizaba, an occasionally active volcano.

Again the United States government has been compelled to call the attention of President Carranza to the murder of American citizens. Three recent murders have come to the notice of Washington, and Mexico is asked to use every means of bringing the slayers to justice. There is not the slightest reason to expect any result from this protest and appeal. Already the Carranza case seems to be forgotten, together with the vigorous language it called forth in Washington.

## YOU NEED NOT SUFFER FROM CATARRH

But You Must Drive It Out of Your Blood.

Catarrh is annoying enough when it chokes up your nostrils and air passages, causing difficult breathing and other discomforts. Real danger comes when it reaches down into your lungs. This is why you should at once realize the importance of the proper treatment, and lose no time experimenting with worthless remedies which touch only the surface. To be rid of Catarrh, you must drive the disease germs out of your blood. Splendid results have been reported from the use of S. S. S., which acts on the catarrh germs in the blood. If you wish medical advice as to the treatment of your own individual case, write to Chief Medical Adviser, 42 Swift, Specific Co., Atlanta, Ga.
