

DODSON WARNS USERS OF CALOMEL.

Drug Acts Like Dynamite on Liver and You Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is sickening and attacks your bones. Take it and you will start today and you will feel weak, sick and nauseated to-day. Don't lose a day's work. Take Dodson's Liver Tone.

No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your drug-dealer says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

Evidences of income. Dodson's is trying to dress in a way that will make people think he has a whole lot of money.

He has that and patent leather shoes that sort of thing? He has to put on these days. He has to carry a suitcase and is carrying a suitcase outfit.

SIX HUNDRED AT MEET OF PASTORS

NEARLY EVERY DENOMINATION REPRESENTED AT RECENT GREAT GATHERING

REPORT OF DOCTOR RAWLINGS

Attendance of Women at the Various Conferences Ran Up Approximately to 400 at the Several Sessions

Charlotte.—Six hundred—minus two North Carolina ministers, representing most of the evangelical denominations of the state, were registered delegates at the North Carolina State Pastor's conference of the inter-church world movement, which concluded its three day session in the Second Presbyterian church in Charlotte.

The report of Dr. E. H. Rawlings on a trip he recently made through the various mission fields and the answers to questions on the inter-church world movement by Dr. Charles H. Pratt were the only two features of the final session of the woman's conference. The attendance at the various conferences of the women ran up to approximately 400.

Dr. Vance conducted the devotional service with which the conference closed, reading a portion of the 15th chapter of the Gospel of John and emphasizing the words of the seventh verse, "If ye abide in me and my words abide in you, ye shall ask what ye will and it shall be done unto you."

Sanford.—The Sanford Development Company, which was organized about a month ago, has just received its charter and seal, and is just beginning its operations. This organization was called into being because of the great congestion that has existed here for several months in housing the people who desire to move to this city.

Asheville.—A special car from the Bureau of Fisheries, Washington, will arrive in Asheville soon for Pisgah national forest with 95,000 trout for planting in Davidson river, Mills river and Looking Glass creek.

Salisbury.—French memorial diplomas will be distributed to the nearest relatives of American soldiers who died in France. Some 50 or more of these diplomas for people in Rowan and surrounding counties will be given out.

Durham.—An anonymous gift of \$100,000 toward the fund to erect a woman's building at Trinity college as a memorial to the late James H. Southgate, conditioned upon the raising of a certain amount as yet not stated, was announced by the fund campaign committee.

Fayetteville.—A strong protest against the pardon of Chas. L. O'Higgins by Governor Bickett was made in a signed statement given out here by N. A. Sinclair, prominent attorney, who assisted the prosecution which resulted in O'Higgins' conviction of abducting a married woman.

Washington, (Special)—E. D. Smith of South Carolina will go to Greensboro, N. C., to make the principal speech in behalf of the plan of boosting exports from the Southern states and to prevent unfavorable action on the part of the railroads in withdrawing fair rates to that section.

Kinston.—Had the tobacco market here been a communistic institution last year every man, woman and child in the community might be richer by \$1,000 today. The final figures for the season, announced by E. Y. Speed, secretary of the Market Board of Trade, show that that part of the crop sold here brought \$13,004,490.48, and that the total of pounds was 26,083,768.

Oxford Postoffice Looted Oxford.—War savings stamps valued at \$10,000, postage stamps to the amount of \$5,000 and about \$75 in cash were secured by safe-blowers who blew open the safe of the Oxford postoffice here and made their escape.

Five strangers, reported to have been seen at Franklinton, 15 miles from here, are thought to have been the persons who robbed the postoffice.

The robbery was not discovered until the postoffice was opened.

Wilmington's Ferry Boat Wilmington.—Chairman W. P. McGaugon, of the board of county commissioners, and Chairman J. J. Knox, of the Brunswick board, will leave for Morehead City, where they will witness the launching of the new ferry boat, J. J. Knox, which will be used to connect Wilmington and Brunswick.

The boat is named in honor of the Brunswick Chairman, whose efforts to procure a modern ferry service between New Hanover and Brunswick have been tireless.

DAIRY

CHANGING COWS TO PASTURE

Caution Must Be Observed to Avoid Drop in Flow of Milk—Reduce Grain Gradually.

(Prepared by the United States Department of Agriculture.)

Farmers welcome the season when dairy cattle can be turned on pasture, as they feel that the heavy expense of winter feeding is over, and expect that during the late spring and early summer months the cows will reach their maximum flow of milk at a minimum cost. This is true within certain limits, but caution must be observed in making the change from dry feed to pasture conditions. The change should not be made too early in the spring, nor too abruptly, especially in the case of cows that are producing a relatively high flow of milk and that have been fed liberally during the winter. Unless the change is made gradually there will be a decided drop in the flow of milk.

Pasture grasses in the early spring are immature and contain a high percentage of water and but a small amount of dry matter. This makes it physically impossible for cows producing a large amount of milk to eat enough of such grass to supply the necessary amount of nutrients. The cows should be allowed on pasture only a few hours a day and the grain ration should be reduced gradually. After the change has been made cows which are producing only an average amount of milk and butterfat will find a sufficient supply of feed on good pasture. High producers, however, will require some grain throughout the season. While direct results may not show immediately it is the general consensus of opinion that cows are brought to a better body condition and are likely to maintain their flow of milk longer during the balance of the lactation period if they receive some grain. Three to five pounds daily of grain, such as a mixture of oats, bran, and corn or barley, may be used to supplement pasture.

GREATEST PROFIT FROM COWS

Difficult for Some Owners to Realize That Greatest Returns Come From Good Feed.

Records of cow testing associations go to show that it is the well fed cow that returns the greatest profit. "It would be advisable often for the man who is milking his cows to sell two of them and give all the feed to the rest," says J. B. Fitch, head of the dairy department at the Kansas State Agricultural college.

"It requires a long time for some cattle owners to realize that it is profitable to feed a cow well. It is a fact, that the average cow requires

The Kind of Cow That Pays.

one half of her ration to maintain her body and that only the part of the ration above that required for her maintenance can go into the production of milk, as the cow's share is taken out of the ration first.

"It is obvious that, after supplying a cow with her maintenance, not to give her all the feed she will use in producing milk would be an unprofitable practice."

DAIRY COWS RELISH SILAGE

Not a Complete Feed Because of its Bulk, Moisture and Lack of Mineral Matter.

Silage has been found to be particularly well adapted to the feeding of dairy cattle, but it is not a complete feed because of its bulk, its high moisture content and its lack of protein and mineral matter. In combination with silage one should feed some alfalfa or clover hay and in addition, a well-balanced grain ration.

THRIFTY GROWTH OF HEIFERS

Daily Average Gain of Young Animal Should Be Close to One Pound Up to Calving Time.

If fed so as to induce a thrifty growth, yet not produce fat, dairy heifers will gain on an average close to one pound daily from the age of six months up to two years or calving time.

NEW ARTICLE TEN HAS BEEN ADOPTED

RESULT FOR THE PRESENT AT LEAST BRINGS ACTION ON TREATY TO A STAND

VOTE ON MOTION 56 TO 26

Fourteen Democrats Voted with Solid Republican Membership in Effort to End Tedious Controversy.

Washington.—Reaffirming its disagreement with President Wilson on the dominating issue of the peace treaty controversy, the senate adopted by a vote of more than two to one the new article 10 reservation framed by republican leaders.

Its action brought to an end, at least for the present, the protracted effort for a compromise that would insure ratification, and the senate's decision was accepted generally as hastening the treaty toward another deadlock from which it could be released only by a verdict at the polls next November.

Fourteen democrats voted with the united republican membership for the reservation. The vote for adoption, 56 to 26, showed on its face a two-thirds majority for the reservation but it by no means indicated that two-thirds would vote for ratification on that basis. Included in the majority were the irreconcilables, holding about a score of votes which on the ratification roll call will be cast against the treaty.

AMERICAN LEGION NOW HAS 1,000,000 OR MORE MEMBERS.

Indianapolis.—The American Legion has a membership of over 1,000,000 in 8,475 posts scattered throughout the country, it was announced at legion headquarters.

PANAMA CANAL EXPERIENCES AN EXTENSIVE EARTH SLIDE.

Panama.—Six ships are being held up in the Panama canal by a landslide at Cucaracha. Reports during the past week have indicated quite an extensive earth movement at that point.

MONARCHICAL GOVERNMENT RE-ESTABLISHED IN BAVARIA.

Paris.—Re-establishment of the Bavarian monarchy has been proclaimed in Munich, according to a telephone message received in Berlin from the Bavarian capital and telegraphed to the Temps.

ROYALISTS IN HUNGARY ARE REJOICING OVER HUN REVOLT

Bucharest.—Hungarian royalists are rejoicing over the revolt in Germany and claim it is justification of their argument that socialist republics are incapable of surviving in countries where for centuries the people have been accustomed to monarchies.

MANY JAPANESE SOLDIERS IN SIBERIA DON THE RED STRAP

London.—A revolt has broken out among several units of the Japanese troops in Siberia, according to a wireless dispatch sent out by the soviet government at Moscow. The soldiers ripped off their shoulder straps and substituted red straps.

THREE FRENCH ARMY CORPS WILL BE SENT TO GERMANY

Paris (Havas).—France contemplates sending three more army corps to Wiesbaden, Neustadt and Bonn, thus doubling her forces along the Rhine, according to The Petit Parisien. Marshal Foch will call a meeting of the supreme war council as soon as he returns from Mayence, where he will confer with allied commanders. Reports reaching this city state that every step has been taken to maintain order in occupied districts.

SOLDIERS ASK CONGRESS TO TAX PROFITS INTO TREASURY

Washington.—A resolution proposing legislation to "tax into the United States treasury," for the benefit of former service men surplus war profits held by the Standard Oil Company, the United States Steel Corporation and other companies of corporations, was introduced in the house. The measure was prepared by the private soldiers and sailors' legion and was offered after some changes had been made in the original draft.

ROPER TO BE SUCCEEDED BY W. M. WILLIAMS OF ALABAMA

Washington.—William Martin Williams of Alabama, will succeed Danied C. Roper as commissioner of internal revenue. Commissioner Roper recently presented his resignation to President Wilson, effective April 1. With the retirement of Mr. Roper, Claude Callan, assistant commissioner in charge of income tax collections, will leave the bureau and will be succeeded by Paul M. Myers, chief clerk of the treasury.
