For more than Forty Years Cotton Growers have known that POTASH PAYS

More than 11,651,200 Tons of Potash Salts had been imported and used in the United States in the 20 years previous to January, 1915, when shipments ceased. Of this 6,460,700 Tons consisted of

KAINIT

which the cotton grower knew was both a plant food and a preventive of blight and rust,—with it came also 1,312,400 Tons of

20 per cent MANURE SALT

which has the same effects on Cotton, but which was used mainly in mixed fertilizers.

Shipments of both Kainit and Manure Salt have been resumed but the shortage of coal and cars and high freight rates make it more desirable to ship Manure Salt, which contains 20 per cent of actual Potash, instead of Kainit, which contains less than 13 per cent actual Potash.

MANURE SALT can be used as a side dressing on Cotton in just the same way as Kainit and will give the same results. Where you used 100 pounds of Kainit, you need to use but 62 pounds of Manure Salt, or 106 pounds of Manure Salt go as far as 161 pounds of Kainit.

MANURE SALT has been coming forward in considerable amounts and cotton growers, who cannot secure Kainit, should make an effort to get Manure Salt for side dressing to aid in making a big Cotton Crop.

Muriate of Potash

50 per cent actual Potash, has been coming forward also,—100 pounds of Muriate are equivalent to 400 pounds of Kainit or 250 pounds of Manure Salt.

These are the three

Standard GERMAN Potash Salts

that were always used in making cotton fertilizers and have been used for all these years with great profit and without any damage to the crop.

The supply is not at present as large as in former years, but there is enough to greatly increase the Cotton Crop if you insist on your dealer making the necessary effort to get it for you.

ALL WRONG WAS HER LIVER

Before Taking Black-Draught, Missouri Lady Was Troubled With Constipation, Headache and Bad Taste in Mouth.

Grandin, Mo.—Mrs. Susa Brooks, of this place, writes: "Some time ago I was in a bad fix, with stomach and liver trouble. I did not feel good at any time. I was very constipated, and had headaches from this condition, and had a continual hurting in my stomach, and bad taste in the mouth. Could tell my liver was all wrong.

"I had known of Black-Draught, so decided to try it myself. I began with a large dose or doses, gradually getting to smaller doses. It regulated my bowels, relieved me of the hurting in my stomach, cleaned off my liver and made me feel like a new person."

If you get up in the morning feeling as tired as you did when you went to bed—achy, coated tongue, bad taste in mouth, sallow complexion—then your liver has not done its full duty, and your system has absorbed the poisons which your liver should have taken away.

An occasional dose of Theford's Black-Draught will help this important organ to function properly.

Get a package of Theford's Black-Draught liver medicine today. Druggist sells it, or can get it for you.—Adv.

SLIGHT TENDENCY TO LOWER PRICES

THE UNDERLYING CONDITIONS RESPONSIBLE FOR H. C. L. REMAIN UNCHANGED.

WAGES FALL BEHIND ADVANCE

The Movement of Labor From Farm to City Continues—Various Demands for Higher Wages.

Washington.—Despite recent reductions in prices, little relief from the general reign of high prices is seen by the federal reserve board, in its analysis of May business conditions. The board expressed the view that there has been no change in the underlying conditions responsible for the high cost of living.

Asserting that while "store sales" and a tendency to lower prices bear witness to the presence of "disturbing factors" which suggest the advent of wide alteration in price levels, the board declares it cannot accept the situation as a whole for its face value. The explanation is added that there has been only a slight increase in production.

"Wages apparently have fallen behind the advance in prices and the cost of living," the statement continues. "The movement of labor from farm to city is continuing. Various demands for higher wages have been taken under advisement."

Disobedience Cost Striking Clerks Favor of the Federation of Labor

Macon, Ga.—Some of the general labor chairmen who attended conference with Central Georgia officials stated that their reason for refusing to aid the striking clerks was due to the fact that the clerks had violated the laws of labor.

The clerks, it was stated, asked for a conference with railroad officials on May 25, and then called the strike on May 17. General Chairman Thomas is said to have confirmed this.

Are You Human?

A little baby. A little child. Don't they appeal to you? Doesn't your heart yearn to pick them up, to cuddle them close to you, to shield them from all harm? sure it does else you're not human. Being human you love them. Their very helplessness makes you reach out in all your strength to aid them. In health there's no flower so beautiful. In illness there's no night so black.

Save them then. Use every precaution. Take no chance. When sickness comes, as sickness will, remember its just a baby, just a child and if the Physician isn't at hand don't try some remedy that you may have around the house for your own use.

Fletcher's Castoria was made especially for babies' ills and you can use it with perfect safety as any doctor will tell you. Keep it in the house.

Children Cry For Fletcher's CASTORIA

Do the People Know?

Do you know why you are asked to call for Fletcher's Castoria when you want a child's remedy: why you must insist on Fletcher's? For years we have been explaining how the popularity of Fletcher's Castoria has brought out innumerable imitations, substitutes and counterfeits.

To protect the babies: to shield the homes and in defense of generations to come we appeal to the better judgment of parents to insist on having Fletcher's Castoria when in need of a child's medicine. And remember above all things that a child's medicine is made for children—a medicine prepared for grown-ups is not interchangeable. A baby's food for a baby. And a baby's medicine is just as essential for the baby.

The Castoria Recipe (it's on every wrapper) has been prepared by the same hands in the same manner for so many years that the signature of Chas. H. Fletcher and perfection in the product are synonymous.
