THE FUTURE.

Senator Stanley, of Kentucky, must be a mind reader. In a speech in the Senate a few days ago he tells of things that are happening and are going to happen if some of the bils introduced in Congress passes. Mr. Stanley says that Weddings are to be supervised by hygienic experts, and marital rights determined by some eugenic fool. "Babies are to be born by federal

aid and suckled under federal super-"You can not milk a cow without a federal inspector at your heels. The factory, the mill, the counting house, the office, and the home literally swarm with a horde of petty pestiferous representatives of this patrnalistic regime.

"And the worst is yet to come for . bills are now pending to regulate, supervise, censor or control the public press, public utilities, the sale of securities, the mining of coal and minerals, the weaving of cloth, horse racing, football, baseball, moying pictures, Sunday amusements, everything, in fact, from the birth of the baby to the burial of the corpse and from the operation of a railroad to the setting of a hen. "Under the terms of the bill to regulate horse racing by censoring the mails and the press, a lad in college in writing to his mother and stating the odds on a football game is liable to a fine of \$5,000 or imprisonment in the penitentiary for five

Only a few, the Reverend gentleman said had enough spiritual fluid in them to constitute "self-starters." There were too many cross circuits in our church es, too many unclean spark plugs, too many flat tires, all contributing to slow down motion, and to stop the onward move. He is always ready to help in sickness or death, never too busy to stop and help when called upon. His friends had arranged this celebration secretly and was going to surprise him. About 9 a, m., people began to come in cars, buggies and wagons, much to his surprise and by noon the crowd had gathered. A forty foot table was arranged under the large oaks in front yard, then the ladies began to load it down with the very best of eatables. Brother T. D. Brooks made a very interesting talk, then offered prayer, and the folks were invited to come up and eat and everybody did their part well. To the Ladies' Aid, the Church Supper Committee, the Cake Sale Committee and a Few Others

THIS newspaper is always ready to help you in every legitimate way. It stands for everything that is good in this community and it supports it liberally, BUT—it has only two sources of revenue—ADVERTISING and SUBSCRIPTIONS. Now when you send in a notice that there is going to be a rummage sale, a cake sale, or an entertainment for your benefit on a certain day at a certain place and the price of tickets is so much, it is pure advertising. That's why you send it to the newspaper. You want to advertise it to the people.

For years newspapers have been giving these notices to you free. Often-times these notices actually cost the newspapers from one to two dollars. Do you know that it costs at least \$4 just to set a column of news? That is just the composition. It does not include the cost of putting it in the forms, making up, printing, etc. And yet for years you have been asking the papers to give you this space free.

Do you know of any business that is giving things away free these days? down to the drug store and try to get an ice cream sode free just because belong to some organization.

If the editor comes around to your sale you expect him to pay good old gold dollars for his ticket, his supper or his cake, don't you? And he has to pay that same kind of gold to the men in his office. They expect it on Saturday night. When you get something for nothing it is not generally appreciated. We don't say that is true in this case, but it is certain that the newspapers have for years been giving away their space free.

And MUST stop. The printing business has been hard hit. While newsprint has some down a little in cost, it is still higher than before the way. Wages have gone up and hours per week have been shortened. Machinery has doubled and trebled in price.

It must be confessed that newspapers haven't for a long time been conducted on good business lines. It's the editor's fault. He doesn't blame anybody else. But since the war he has learned a few things. He knows that everything has gone up, and what's more, he has learned that his creditors expect him to pay his bills promptly and with real money. He has also learned that he is entitled to a living wage, the same as his men. He has been compelled to do business in a businesslike way. It certainly isn't business to give your product away free. No other business does it, so why should a newspaper? This newspaper is willing to co-operate and help, and it will give a moderate amount of free publicity to entertainments and suppers providing advertising space is purchased. It's fair, isn't it? Put yourself in our place. You expect a full return for every ticket you sell. Why shouldn't an editor expect full return for his advertising

Think it over. We know that it is only necessary for our readers to peruse this little talk to see the justice of our contention. So in the future please don't ask us to insert such notices free, but pay for advertising space the same as you expect the people to pay for your tickets to your affairs.

In ALL fairness—look at it from both sides.
