NO FARM SECTION CAN BUY ITS FOOD AND GRAIN AND GROW RICH.

Atlanta, Ga.-(Special.)-"Few people in the South realize the enormous drain there has been on the South's wealth through the steady food and grain buying during the past fifty years. What's the greater pity of it is the fact that most of this money comes directly out of the farm pocket," said H. G. Hastings, of Atlanta, Chairman of the Farm and Marketing Bureau of the Atlanta Chamber of Commerce.

"For fifty years or more the cities and towns of the Cotton Belt have been furnishing food and grain to the farmer instead of our farmers feeding the cities and towns. While the cities and towns have had the best of this

"As nearly as can be ascertained, of Ireland, from 2243 B. C. to the year my own state of Georgia has spent in the last 25 years not less than two and one-half billion dollars for food and grain from the North and West, real hard cash money that ought to be sticking in our farmers' pockets. That money is gone never to return.

"It is no over-statement or exaggeration to say that twenty-five billion dollars of the South's money has gone that way in the last fifty years. It was good, hard worked for farm money. What we have been doing is spending our lives growing cotton, trading it off for bread and meat at ao profit to ourselves.

"No use to 'cuss' the powers that be in Washington or the trusts, tariff, banks or speculators. They may have had a part but a mighty small part in comparison with the part we ourselves have played. The way to stop that drain on our pockets is to stop buying food, grain and forage ourselves have played. The way to and produce those necessary items on home acres.
